WELCOME OUTDOORS.

Welcome to our anniversary edition

For 30 years our 100% waterproof ORTLIEB products have been travelling around the world.

From the Amazon to the Austrian Alps, from Antwerp to Zurich: "Made in Germany" promises high quality and value outdoor equipment for all requirements, all weather and all terrain.

Your feedback, your experiences and your wishes have always inspired us to develop individual packing solutions.

In 2012 we present another collection of innovative products.

Those who set out for the heights get a professional companion for mountaineering. The MountainX 31 alp-crossing backpack - it has received several awards - is setting new standards of comfort and safety.

Motorbikers can look forward to a completely redesigned motorcycle line for heavy duty use. The 100% waterproof MOTO line includes among others MOTO Speedbags, MOTO Zip'n Go duffle bag and the MOTO Tank Bag, the latter can be carried on the back with the optional Carrying System.

Some of the 2012 collection's highlights are presented in particularly charming scenery. With the support of the tourist authorities of Mecklenburg Vorpommern in Germany we travelled through some of the nicest areas and nature reserves of the Baltic Sea.

We had to perform more than just modelling in Stralsund, the Mecklenburg Lake District or the Chalk Cliffs of Rugen Island. Our team thoroughly tested our products' outdoor skills; we travelled on foot, by bike, canoe and kayak finding the new PS21R dry bags to be perfect lightweight gear. Clothing, sleeping bag and tent stayed dry even during adventurous activities on the water. The Transporter, our all round backpack that can take large bulky loads, was labelled with "indispensable on water and on land".

Come along on the journey and discover your personal ORTLIEB favourites!

ORTLIEB "Made in Germany"	8
Travel report: On Top of Germany	
Mecklenburg - Vorpommern	57

Dear Ortlieb team,

just recently I found an old faded piece of paper in my husband's bike panniers. Typical, I thought, and wanted to put it in the garbage. But then I discovered something on it. The scratchy writing was still visible, it said: "Thanks for lots of fun in the rain. See you in Munich. Christina." Below it said an address and a tiny drawn heart. The heart belonged to me. In August 1992 I gave it to Enzo, a young student in Padua. He saved me during my trip through Ireland with a pair of dry woollen socks. Two years later we got married. The socks which made me so happy back then came out of Enzo's "red plastic bag". My husband always gets upset when I use this term. And next minute he is all mad about how wonderful his waterproof rear panniers of truck tarp are, and how quick he can fix them to the rack. "Perfetto!"

Last week when he fixed them on his new touring bike something broke. I promised to get him a new set of Ortlieb panniers, maybe the trendy White Line that he gave me for my birthday for my city cruiser. But Enzo resisted stubbornly: he had crossed the alps with them, and still takes them every day on his bike to his architect office. His Bike-Packers also withstood wind and weather, and changed the bike as often as we moved apartment. "They were always watertight", he says with a sentimental undertone and vehemently distances himself from our "throwaway society". He even doubts whether Ortlieb is still faithful to their principles as back then. You may think I lost my brains, but I dare to ask is there a chance to repair my husband's Ortlieb panniers?

How can I convince my consequent protector of values and the environment that Ortlieb still ticks as back then?

Best regards

Christina Corallo

PS: Laura, our pubescent daughter is currently not involved in outdoor activities. However, she doesn't leave home without her Zip-City. You see, my family is attached to Ortlieb just as we are attached to our Ortlieb bags.

EINGEGANGEN 29. No

ORTLIEB WATERPROOF

Dear Mrs Corallo,

thanks a lot for your letter and your years long faith in our products. We are happy to hear that your husband's ORTLIEB panniers transported - besides gear and provisions - also valuable memories.

Your wish to keep your bike panniers is not surprising for us. In contrast: we are just as dedicated to the longevity of our products.

Please send us the bag, and our internal customer service will fix your Bike-Packer and make them fit for new challenges. Our services include upgrading older models. We are happy to bring your "old" ORTLIEB up to latest standard, e.g. with upgrading the new QL-system including the Anti-Theft Device.

For 30 years our philosophy is based on preserving the good stuff and advancing new ideas. Sustainability and innovation are for us at ORTLIEB more than just modern catch phrases. As one of the leading companies and founders in the European outdoor market we are obliged to the principles of responsible activity: short transport ways, clever recycling, and considerate dealing with resources determine the direction we are heading. Our aim is and remains high quality and waterproof equipment that you can rely on any time. In order to hold to our high quality standards, 90% of all processes are taking place under one roof, and that includes experimenting with new materials, product development, and our high frequency welding production.

"Made in Germany", that's the way we keep it. Sustainability and product quality are reflected by the numerous applications of our products. In the past 30 years, ORTLIEB bags travelled all over the world: on the bikes of touring cyclists, weekend hobby bikers and bike couriers. On the backs of hikers, climbers and globetrotters, on motorbikes, boats and even horses. And since we want to conserve the earth that we love to travel, we are since 2008 a member of the "Association for Conservation" within the European Outdoor Group (EOG), an organization with global interest in the protection of environment and nature.

Dear Mrs. Corallo, we hope we have provided you with a satisfactory reply. If an ORTLIEB bag is part of your journey and life story, we have reached our goal. And we can truly say: This companion is 100% reliable!

We are happy to provide you with bags and services, and wish you and your family a good time with your ORTLIEBs.

Best regards from Frankonian Heilsbronn
Your ORTLIEB-Team

ORTLIEB WATERPROOF

This logo stands for an initiative by the BSI (Federal Association of German Sport Article Industry). It defines German sport article companies that commit themselves to Germany as production location.

Made in Germany – a matter of course !

ORTLIEB products are Made in Germany. Only here we can constantly optimise and supervise quality manufacturing. Therefore, 90% of all processes are run inhouse at ORTLIEB in Heilsbronn. This has been our way for nearly 30 years. This focus on quality is the basis for the development and production of waterproof, high value equipment that supports our dedicated and enthusiastic outdoor customers.

Most of our suppliers and development partners are also near by. We can respond quickly to demand and shorten lead-times to market while reducing our carbon footprint. The production of bike panniers, backpacks, dry bags and many other products that we show you in this catalogue is implemented in Heilsbronn by an experienced and well established team. The „Ortlieb campus“ is comprised of engineers, designers, and even mechanical construction, all together under one roof with warehousing and distribution. All departments work hand in hand, keeping the communication direct and personal, allowing decisions to be made quickly.

The fact that the most important processes take place in our company allows us to guarantee that each step is

performed as ecological as possible. Constant optimizing allows minimizing material waste. Our plastic materials are separated into 5 segments in order to ensure optimal recycling. Our administration uses recycled content paper only, and our printed matter is fsc certified without exception.

Sustainability – more than long lasting quality

Sustainability is more than short transport ways, conservation of resources and recycling. It also defines the sustainability of our products and the reliable service by us, the manufacturer.

ORTLIEB products are said to be indestructible and extremely long life. Should there still be damage or wear of a component, ORTLIEB products can be easily repaired due to the design of the article. Defective parts can easily be exchanged, holes can be repaired, buckles exchanged and straps renewed. These jobs are performed by our own customer service where ORTLIEB products are completely refitted for intensive heavy duty use.

Older products can be updated onsite to the current state of the art. Further, we offer repair sets that allow our customers to make repairs on the road. For discontinued products we offer spare parts for another 10 years. And at last: with 5 years warranty we ensure our customers that defective manufacturing or materials are corrected by us free of charge. All of this guarantees that our products remain in service far beyond what is typical and certainly avoid the fate of most common outdoor products.

Should you have any questions about our products or our service, please contact us at

service@ortlieb.com

CITY BIKING

ql3 system

SYSTEM QL3 –

the new generation of ORTLIEB pannier mounting systems. The ORTLIEB pannier mounting systems QL1 and QL2 which have proven their reliability for many years are now supplemented with a new, innovative variation, the QL3 system. The secret of this system - especially developed for office and city bags - lies in the fact that the main mounting components stay on the rack. This results in a clear rear side that is free of protruding hooks, and significantly improves the bag's carrying comfort when off the bike.

The QL3 system has all the known advantages of the previous ORTLIEB QL systems.

- › Comfortable single-handed operation
- › Automatic closing and opening of the hooks by lifting the pannier handle
- › Fixing rail can be mounted on left or right side, and optionally on horizontal or vertical bars of rack
- › Sufficient legroom due to variable height and angle
- › Lower hook rotatable in 360 degrees (24 steps, each 15 degrees) for individual adjustment to various racks
- › Horizontal rack top remains free for baskets, trunkbags etc.
- › Additional mounting sets available for attaching bags to other bikes
- › Bags with QL1 or QL2 system can also be fixed to the QL3 mounting rail.

ql2+1 system

SYSTEM QL2

This mounting system for bike panniers is the further development of ORTLIEB's milestone setting QL1 system. All hooks are adjustable to the rack without requiring any tools. Therefore, the panniers can be easily switched from one bike to another. The QL2 system may be upgraded with the anti-theft device (not possible in QL1).

The QL2 system features:

- › Optimal fit on all racks with a tube diameter up to 16 mm (inserts for 8/11 mm inclusive)
- › Comfortable single-handed operation
- › Automatic closing and opening of the hooks by lifting the pannier handle
- › Large adjustment range of QL2 hook on hook rail
- › Sufficient legroom due to pivoting rail (e.g. Office-Bag)
- › Large adjustment range (horizontal and vertical) in 45° steps of rotatable lower hook on elliptical rail

SYSTEM QL1

The QL1 System was ORTLIEB's first mounting system for bike panniers which allowed a single-handed mounting on and removal of panniers from the bike rack. The automatically closing hooks replaced the complicated attachments with straps and buckles which were slow and unreliable. Thousands of the indestructible mounting QL1 system have now been used for decades on classic pannier models such as Back-Rollers and Bike-Packers, and are still in use.

The QL1 system features:

- › Optimal fit on all racks with a tube diameter up to 16 mm (inserts for 8/11 mm inclusive)
- › Comfortable single-handed operation
- › Automatic closing and opening of the hooks by lifting the pannier handle
- › Large adjustment range of QL1 hook on hook rail
- › Large adjustment range (horizontal and vertical) in 15° steps of lower hook on semi elliptical rail

downtown ql3

The Downtown is a reliable companion on your tour through the morning or evening rushhour. The waterproof bike briefcase provides secure cargo carrying plus reliable protection of files, documents and laptops up to 15.4". A hands-free way to carry your everyday digital and off line essentials, this waterproof bike briefcase with lid closure can be quickly mounted and taken off the rack single-handed. It features an extra wide padded shoulder strap and additional carry handle for comfortable transport. Edge protectors and base feet on the rear and bottom ensure optimal protection of the bag. Two large 3M Scotchlite reflectors and a reflective ORTLIEB logo and handle ensure safety in the dark and in bad weather conditions.

DOWNTOWN QL3

The innovative mounting system QL3 which received the Eurobike Award 2010 features mounting components that can be fixed to standard racks on the right or left side. Flat mounting elements ensure a smooth back side. Mounting height and angle of the bag are individually adjustable.

Optional accessories: QL3 mounting set | Notebook Sleeve.

city-biker ql3

Keep movin'

Pelican, Bike-Shopper and City-Biker are the perfect bags for grocery shopping and running your daily errands in town. They are easy to use and keep all your purchases safe and dry. Plus: shopping by bike is healthy for you, and is also protecting the environment.

CITY-BIKER QL3

On the bike or on the shoulder, the City-Biker always looks good on a tour through town. The vertical style shoulder bag with closure flap ensures protection of A4 files and 13.3" laptops. With a reinforced base and sides the City-Biker is a sturdy and robust bag. The padded shoulder strap ensures a comfortable carrying; during biking it is stowed safely on the flaps inner side. The City-Biker QL3 features the innovative QL3 system; it allows quick and single-handed fixing to and removal off the rack. The mounting components remain on the rack, and the bag's back stays clear of protruding hooks.

fabric	PS33

Optional accessory: Notebook Sleeve in size 10" or 13.3"

PELICAN

The Pelican is the perfect shopping bag, be it for a stroll through boutiques or a trip to the markets. The elegant shopper made of abrasion-resistant nylon fabric features a lid closure and smart internal organization. With the Pelican you're ready for the city: it is easy and quick to mount single-handed, and comfortable to carry with a removable, padded shoulder strap. In contrast to a real-live pelican, our pannier has four base feet which ensure stability – in addition to the internal stiffener – when set on the ground. Large 3M Scotchlite reflectors ensure safety in dusk and in the dark.

URBAN CYCLING bike-shopper

BIKE-SHOPPER

Your spacious one-click shopping bag: the Bike-Shopper with QL2 system can be quickly attached to and removed from your rack. The flexible market and shopping bag remains stable - also on bumpy roads. The adjustable carrying straps allow it to be carried comfortably on your shoulder (adjusted by push buttons) and will not be in the way during biking. A waterproof Quick-Seal closure provides protection from rain. Occasional ORTLIEB lubricating will keep the closure running smoothly. New in 2012: new colours and additional models in PU fabric.

vario ql3

UP
DATED

VARIO QL3

As its name suggests, the Vario is a highly versatile and flexible pack offering lots of storage capacity. It quickly converts from a bike pannier to a comfortable backpack. The waterproof Vario made of tough and long lasting nylon fabric features a roll closure and offers space for A4 files and a 15.4" laptop. The innovative QL3 system allows quick and single-handed fixing to and removal off the rack. The mounting components remain on the rack, and the bag's back stays clear of protruding hooks. For biking, the padded back carrying system complete with shoulder straps and chest strap is packed away into a concealed zippered front pocket, then for use it can be easily fixed to the back of the Vario. An external fixing safely stows away your bike helmet when it is not used.

Further features:

2 outer neoprene pockets (not waterproof!) | Waist strap | Inner pocket | 2 reflectors

Comfort from head to toe

With the sturdy ORTLIEB city line you are independent of cars, subways and buses, be it for a trip to the weekly market or a quick shopping tour of a city. Back-Roller City & Front-Roller City easily pack your groceries for the week-end and save you from hauling heavily laden shopping bags. They are a 100% waterproof bringing your weekly supplies home dry and safe. The City panniers are lean in price, features and weight, and thus the ideal companions for daily use in town. Numerous optional accessories are available for later upgrading.

03/2011

BACK- & FRONT-ROLLER CITY

Even without being in the great outdoors, the Front & Back-Roller City give city bikers greater flexibility. They can be used on both sides on front or rear racks or as single pannier. Highly incandescent 3M Scotchlite material reflectors on the panniers' sides give increased safety in traffic. The affordable basics can be upgraded with numerous accessories. Both models are provided with edge protectors having slots for fixing the ORTLIEB pannier carrying system. Shoulder straps (E172) and small inner pockets are available as accessories.

BACK-ROLLER CLASSIC DESIGN

It brings more colour into your life, daily shopping and work trips. The fun starts with choosing between „Dots“, „Wave“ and „Splash“ designs, each available in three different colour combinations. The trendy rear panniers are made of PD620 and PS490 and feature a waterproof roll closure and QL1 mounting system. Once taken off the rack, the padded strap allows a comfortable shoulder carrying. Strong 3M Scotchlite reflectors ensure safety in the dark and in bad weather conditions. The Back-Roller panniers may be combined with the ORTLIEB Rack-Pack. With the ORTLIEB Travel-Biker or Trunk-Bag they also form a functional combination on the rear bike rack.

Further features:

Integrated inner pocket | 8 mm and 11 mm reduction inserts included for racks up to 16 mm | Can also be used individually | Handle for locking and releasing the QL1 system | Easy to clean inside

TRAVEL-SET

Need a pack for a long, rough haul? This is it! For the globetrotter who prefers the best: perfect preparation and top gear. This waterproof luggage system allows experienced cyclists to carry all the necessities for extended touring or weekend family trips. Plenty of room combined with excellent comfort. Clothes can be stowed away crease free in the large suitcase. Four inner pockets, two zippered, two internal compression straps and an outer mesh pocket provide plenty of possibilities to store your gear. All other equipment is packed in the rear panniers Bike-Tourer. Valuables and money are to hand in the handlebar bag Ultimate5 Plus. The included anti-theft device means that the panniers may be left on the bike, deterred from unauthorised removal. Optional accessories include the Outer Pocket size S, the Bottle Cage and Mesh Pocket.

The Travel-Set comes with:

Bike suitcase Travel-Biker including lockable rack adapter (maximum capacity 10 kg / 353 oz.), see page 33 | Two rear panniers Bike-Tourer with QL2 mounting set, see page 31 | Handlebar bag Ultimate5 M Plus with mounting set, see page 49 | anti-theft device (mounted), see page 55

BIKE-TOURER

Passionate cyclists who want to escape the daily routine will pack their Bike-Tourer. The bag is specifically designed to be used as a rear pannier, providing more than enough room for a serious tour. An internal division and added front pouch help organize your gear. The convenient flap is quick and easy to use one handed. Four base feet protect the pannier base. Padded adjustable shoulder straps provide comfort and can be easily detached.

The Bike-Tourer attaches to any standard bike rack up to 16 mm (inserts for 8 mm and 11 mm included) with the QL2 attachment system. For extra room, the Bike-Tourer can be perfectly combined with the ORTLIEB Travel-Biker or Trunk-Bag.

Further features:

Large reflectors | Front pouch | Carrying handle | Individual use of pannier possible
Optional accessories: Pannier Carrying System, Outer Pocket size S, anti-theft device, Bottle Cage, Mesh Pocket

BIKE TOURING

travel-biker

TRAVEL-BIKER

Those who wish to be prepared for any situation on the road make the right choice with the Travel-Biker. The handy suitcase is designed for carrying clothes; stylish clothing will arrive dry with minimum creases. Four internal pockets, two of which zippered, and two compression straps help keeping things in place. An outer mesh pocket and elastics on the lid offer additional room for extra gear. The waterproof Travel-Biker is ideal for use on touring or trekking bikes and on seat post racks. With a "click" it is fixed fast and easily onto the included lockable rack adapter: simply slide on and click in. The Travel-Biker can be combined with all ORTLIEB bike panniers. Maximum capacity: 10 kg / 350 oz. (check capacity of rack).

Further features:

Padded carrying handle with reflective material | Four base feet

Optional accessory: Shoulder strap (art. Code E33)

BIKE TOURING

bike-packer

Escape the daily round

Touring specialists all over the world rely on ORTLIEB's packer line which received numerous awards and was constantly improved and optimised.

The tough panniers with secure lid closure include the spacious Bike-Packer with a volume up to 42 L, and the compact Sport-Packer for the lowrider or for children's bikes. Both models are available in the exclusive Plus version made of abrasion-resistant Cordura® fabric or the original Classic version.

A reliable 100% waterproof pannier for the serious tour offering plenty of room and all the comfort you can dream of.

BIKE-PACKER PLUS

Abrasion-resistant Cordura® fabric makes this pannier the tough travel companion for extended bike touring. The waterproof three-dimensional front pouch offers additional storage room. Quick and easy mounting to the rack thanks to the QL2 fixing.

Further features:

Shoulder strap with snap hook | Base feet | Dust/snow gasket under the lid with cord | Inner Pocket | Reflectors

BIKE TOURING

back-roller

03/2011

When each gram counts

... Back-Rollers and Front-Rollers are the bags to go for. A light-weight pair of panniers for extended bike touring and travelling. The waterproof and functional set is tough and will withstand the elements. Passionate cyclists rely on the handy and robust system of front and rear panniers. They provide enough room for the serious tour, and the extremely durable fabric has proven its quality in river and desert crossings. The waterproof bestsellers received numerous awards from the trade press for their genial functionality, unbeaten stability and great comfort.

BACK-ROLLER PLUS

In extended touring it shows what it's made for. The tough rear pannier made of tear-resistant Cordura® fabric is 100% waterproof thanks to its handy roll closure. With its QL2 fixing it is quickly mounted and taken off the bike rack. And once you arrive at your destination, you can carry the Back-Roller Plus just like a shoulder bag thanks to the included strap.

Further features:

Reflectors | Integrated inner pocket

BACK-ROLLER CLASSIC

Durable polyester fabrics make this pannier a long lasting touring companion. The waterproof roll closure ensures safe and waterproof storage of food and equipment. With its QL1 fixing it is quickly mounted and taken off the bike rack. A shoulder strap provides carrying comfort when taken off the rack.

RECUMBENT

recumbent bags · -backpack

RECUMBENT BAGS (PAIR)

The large lid allows fast access to the bag's contents, and the large reflectors ensure safety at night, in rain and fog. The QL2 mounting system allows simple mounting and detachment with a click. The removable shoulder strap and padded handle guarantee comfortable transport options when taken off the rack.

Further details:

Can be used individually | Mesh pocket (not waterproof) | Elastic cord for fixation on the lid | Removable bottle holster | 2 shoulder straps
Optional accessories: | Map case (article code F14) | anti-theft-device

Note: Due to their length the panniers are suited for recumbent bikes only.

BACKPACK FOR RECUMBENT AND SCOOTER BIKES

The flexible daypack by ORTLIEB is the right choice for your trip. The padded shoulder straps of the removable carrying system plus the handle allow easy carrying. Fixing straps serve for quick attachment of the backpack to the recumbent rack or scooter bike seat. Two outer mesh pockets allow easy access to small items. The typical robust ORTLIEB material mix of PVC-coated polyester and Cordura®, and a large TIZIP zipper constitute an optimal waterproof compartment. Reflectors on both sides ensure safety at night, in rain or fog. A hydration system (not included) can be integrated.

Further details:

TRUNK-BAG

The waterproof Trunk Bag offers ample storage space on your bike. It is perfect for touring, commuting, and errands. The compact rear bag is made of tough and long lasting Cordura® fabric with specially designed shaped sides. Once you arrive at your destination, you can carry the Trunk Bag as a shoulder bag with the included strap. Prior to biking, simply fold the shoulder strap and fix it on the top. Lateral reflectors and light clip ensure safety in the dark and in bad weather conditions (bike light not included). The Trunk-Bag is available with the ORTLIEB rack adapter for touring bikes (attachment of panniers is possible), the RIXEN & KAUL adapter for seat post racks or the Racktime adapter for Racktime racks (attachment of panniers is not possible).

Long lasting organizers

The ORTLIEB Ultimate handle bar bag is a must for bike touring: it stores those things that need to be quickly at hand: accessories, documents, valuables etc. The light weight perfection is tough and can be loaded heavily (up to 3 kg), but still compact and flexible. The rigid lid and internal stiffener keep it in shape. Pickpockets will have a tough time with the lockable handle bar mounting set. However, the bag is quickly and easily fixed and taken off. Extension adapters are available for strongly bent handle bars; suitable for handlebars with a diameter up to 31.8 mm. All ORTLIEB handlebar bags are compatible with the mounting system of Rixen & Kaul.

HANDLEBAR ultimate5

ULTIMATE5 PLUS

The Ultimate5 Plus is a bag-sized manager: it keeps everything in order, and stores items quickly needed on the handle bar within reach. This model is the ideal companion for extended touring, day trips and commuting, handy to use on the bike or comfortable to carry over your shoulder. Optional accessories offered for the Ultimate5 Plus include a waterproof map case and GPS cover, both for fixing on the lid.

MOUNTING SET

The lockable mounting block allows the attachment of ORTLIEB handle bar bags Ultimate2-5. The mounting cable can be secured simply and fast. The reflective foil at the mounting block increases safety in traffic.

The mounting set is supplied with:
Allen key | Second set of keys

Optional accessories: | Extension adapter | Replacement cable

fabric Polyamid
weight 140 g/4.9 oz.
colours black Art.No. E164

EXTENSION ADAPTER

The Ultimate handle bar bags can also be mounted to strongly bent comfort bars such as Modolo or Humpert by using the extension adapter between the mounting set and the handle bar. Usable only in combination with the lockable mounting sets (E 164).

The extension adapter is supplied with:
Extra long mounting cable

fabric Polyamid
weight 100 g/3.5 oz.
colours black Art.No. E165

PADDED CAMERA INSERT

Ideal if you need your camera equipment or binoculars right with you, but at the same time safely protected. The padded camera insert made of nylon is simply inserted into the Ultimate2-5 models (M and L), and converts your handle bar bag into a professional camera bag. Formfit storage of photo, video or optical equipment.

Specific features: Adjustable internal dividers | Reinforced bottom

Can be combined with all bike panniers featuring edge protectors.

PANNIER CARRYING SYSTEM

Flexibility on bike and on foot! The new and improved Pannier Carrying System quickly converts your bike pannier into a backpack. The thermally moulded foam back pad along with padded and adjustable shoulder straps and chest strap guarantee a comfortable carrying with excellent ventilation. Low weight, the carrying system can be easily fixed onto the pannier when not in use. It's suitable for Front and Back-Rollers, Bike-Packer, Sport-Packer, Bike-Tourer and Bike-Shopper. To fix the pannier onto the carrying system, its top loops are hooked into the pannier's QL hooks, and the buckles are threaded into the base edge protectors.

mesh-pocket · bottle cage

MESH-POCKET FOR BAGS

Great for storing and airing helmet, shoes, wet or dry clothing. The lightweight removable mesh pocket can be fixed to ORTLIEB panniers and other bags, and folds away when not needed. It comes with a mounting set for waterproof fixing to the bag, which allows the pocket to be taken off while the mounting set stays on the bag. It is also compatible with the ORTLIEB bottle cage or outer pocket (both products are available as accessories).

Further features:

german outdoor paradise mecklenburg-vorpommern

Globetrotters are travelling with their ORTLIEB products and by various transport means through all continents; be it on a bike through Africa, on foot across Australia, or on horse through the States. The pictures of ORTLIEB friends and sponsored partners, or even our photos that we bring back from a catalogue shoot are quite spectacular.

However, this year we were not heading way up north to Scandinavia or travelling through Central America. We consciously decided to check out Germany's North Eastern part which is well known for its romantic landscape; and above all it is so close by.

With bag and baggage we head North, and we must say the trip was worth it. Thanks to the Mueritz National Park ranger we started our photo shoot the way others would finish it: with a sunset at Lake Pries-terbaecker in the Mueritz National Park. This enchanting location made us look forward to the remainder of the shoot.

The region Mecklenburg Vorpommern offers everything outdoor enthusiasts are looking for. Watersport freaks are especially fascinated by the natural tranquility of the blue paradise, and love the numerous little linked lakes and meandering rivers.

ON TOP OF GERMANY

germans outdoor paradise mecklenburg-vorpommern

Next morning we got our canoes into the water of the Feldberg Lakeland. We were extremely impressed by the steep shores of Lake Luzin. The moraine landscape offers breathtaking sights; for a short while paddling is secondary. When we moved further north to the nature

reserve of River Peene we were again impressed by the unique flora and fauna. At sunrise we watched grey herons and ospreys passing our kayak, and beavers swimming in the clear waters. It's only fair that the River Peene also bears the name "Northern Amazon". We concluded the day sitting around a little campfire, admittedly with a plague of mosquitoes. Those who prefer land to water have numerous options to explore the natural world of Mecklenburg Vorpommern on foot or by bike. You will encounter dreamy, cozy villages that let you leave your daily life behind. As in old times we are moving across cobblestone roads to attractive old town centers where traditions are still alive. We keep on moving and continue our journey to the city of Stralsund.

The Hanseatic city is located on the sound of the Baltic Sea, and separates the Island of Rügen – where our journey will lead us later – from the mainland.

At twilight we explored the historic Old Town appointed in 2002 as a UNESCO World Heritage site, and visited the Ozeaneum in Stralsund's harbor. The natural science museum gave us an impression of the Stralsund docks which are re-enacted in a 10m long aquarium. Exhausted and tired but looking forward

to the next days we dropped in our beds. Next day we crossed the 1000 ft. long bridge to the island of Rügen. The 926 km² island is Germany's largest. Its landscape is characterized by numerous bays, sounds, and protruding peninsulas. National Park Jasmund is a further World Heritage.

Soon after settling in our hotel in Lohme situated in the north, we set off to explore the island's landmark, the White Cliffs. Starting at "Victoria View", we climb down 118 meters through beech forests to crystal-clear blue waters at the pure and shiny white cliffs of the "King's Chair". This section of the former largest chalk plateau was moved upwards by tectonic activity. The major portion of this land mass has disappeared by erosion and rifts. Numerous landslides subsequent to heavy rain show the sensitivity of this ecosystem.

Further on in the central part of the island, still smelling

the scent of the sea, we looked for the nicest avenues of trees. This section of the German "tree avenue" is a real paradise for cyclists. The interplay between light and shadow created by passing through kilometre-long tree rows leaves a bizarre image of the landscape. Suddenly the road widens and we get a glimpse of skies covered with kites. Here, on the little island of Ummanz, watersport freaks find everything their hearts desire: wind and water! To round off the successful tour we were able to see the island on our last day from the water side. We took off in a sky blue trawler from Sassnitz Harbor and photographed the White Cliffs in the morning

light. We were fortunate to have the sun on our side before heading home. Those who love nature, watersports, walking and biking are just right here in Mecklenburg Vorpommern. Enchanting landscapes and friendly people are the region's highlights. It is perfect for outdoor activities in a group or on your own.

If you wish to get more information on this wonderful region in Germany's North East: Tourismusverband Mecklenburg-Vorpommern e.V.

SADDLE BAGS

mudRacer [led]

MUDRACER

Pure function: the waterproof MudRacer offers room for tools, spare tube, keys, cell phone etc. The saddle bag is super compact with fast access. The waterproof thermoformed soft foam box prevents rattling noises. A flexible silicone hood covers the top shell, the 2-way zip and part of the lower shell. The large opening allows quick access to your gear. The MudRacer is easily mounted with two metrical screws, and can be removed single handed. Available in two sizes.

Further features:
Adjustable distance to seat post | EVA foam box | 3M-Reflector | Velcro strap around seat post as additional fixing | Mounting plate available as a spare part e.g. for a second bike (article code E 97)

MUDRACER LED

Their compact design quickly made them an ORTLIEB classic among bike fans. The lightweight seat post bag with an integrated LED rear light causes new sensation. The transparent silicone cover with flaps protects the EVA box from dirt and spray. The internal foam prevents noisy rattling during biking. The waterproof soft foam box with removable inner pocket can be opened easily and all the way around thanks to a two-way zip.

Further features:
Adjustable distance to seat post | Additional Velcro fixation around seat post for extra security | Easy fixation of mounting set with two metrical screws | Fixation also available individually, e.g. for second bike (article code E 97)

SADDLE BAGS

micro · saddle-bag

MICRO

If all you need are the bare essentials, then grab the Saddle-Bag Micro and get on your bike. The roll closure with elastic bungees make it 100% waterproof. Two screws make for a simple fix. An ultralight Saddle-Bag with minimal dimensions. With the click closure, it's a breeze to quickly add or remove from under the seat with just one hand. The perfect Saddle-Bag for cyclists looking for minimal weight.

SADDLE-BAG

ORTLIEB's classic seat bag is available in three sizes, depending on the type of tour. The small version with 49 cu.in. is an excellent fit for road applications, while the medium is perfect for mountain bikers. Size L is a true alternative to carrying a backpack, providing room for equipment, snacks, extra shells and tools for long day tours. It tucks in nicely under the saddle, and often functions as protector on bikes without fenders. The additional fixation with Velcro, around the seat post provides firm and vibration-free mounting. The 100% waterproof roll closure features buckles and D-rings for locking the bag. The mounting set is also available as accessory.

01/2009

MESSENGER BAG

ORTLIEB's robust classic Messenger Bag is proportioned to carry loads without ever weighing you down: the Velcro flap seals everything secure and allows flexible packing height and quick access to A4 folders in its 30 Litre main compartment while the ventilated foam back, chest strap and padded shoulder straps keep everything stable. Large reflectors on sides and shoulder straps contribute to safety in bad weather conditions, dusk and dawn.

Further features:

Carry handle | Base with corner protection | Base feet
Optional accessories: Velcro extension | Innen division A3 | Organizer (stable document folder) | Inner Pocket or Waist Strap Pocket with folders for pens, map, receipts etc. (not waterproof)

MESSENGER BAG PRO

Smart bike messengers not only carry messages inside their bags, but also display them on the outside. Our full-featured Messenger Bag Pro has a professional display surface for additional advertising. The transparent, waterproof folder at the back offers space for size A3 posters. The bag's internal life has been designed with insider know-how: the inner zippered pocket for receipts, maps, pens etc. is removable by means of push buttons and can also be attached to the waist belt. The organizer with subdividers keeps important documents in order. Fast access and transport of bulky shipments is guaranteed by the roll closure with extra long Velcro. Security ranks high when biking all day long in city traffic: the Messenger Bag Pro is kitted out with large sized reflectors.

Further details: carrying handle, strap fixation, foam back with improved ventilation, protected base by means of edge protectors and bottom feet.

Optional accessories for Messenger Bag and Messenger Bag Pro:
| Cell Phone and Walkie Talkie-Holster | U-lock Holster

BACKPACKS

Light weight companions

The popular ORTLIEB backpacks and daypacks are ideal for tough multi-day treks into the wilderness or extended shopping tours through the city. Their characteristics: 100% waterproof, lots of storage room, low weight, excellent ventilation, comfortable carrying systems and smart details.

BACKPACKS

elevation

ELEVATION

An ORTLIEB innovation designed for higher targets: the waterproof backpack with lid closure is the right choice for mountaineering and alpine use. The compact pack is made of tear and abrasion resistant nylon fabric, a real gem when it comes to space and carrying your equipment. Stuff that can get wet and must be quick at hand, like e.g. an ice axe, can be stored outside. The air channel contact back system and the anatomically shaped adjustable shoulder and chest straps ensure high carrying comfort on extended trips. The pack is available in two sizes: 32 and 42 litres.

Further features:

Reinforced abrasion resistant base with strap slots | Attachment loops | multifunctional compression straps | Daisychain, axe and poles loops | Helmet carry system | Chest strap with emergency whistle | Removable hip strap with zip pockets and gear racks | Inner pocket with two compartments, one zippered | Hydration tube aperture

Optional accessories: outer pockets | bottle cage | mesh pocket | pad for looping onto compression straps

BACKPACKS

track

TRACK

This outdoor pack will take up lots of gear for extended tours or several people. The waterproof backpack with roll closure is made of tear and abrasion resistant nylon fabric; it is compact and ergonomic. Two daisychains on the waterproof front pocket plus outer pockets (not waterproof) on the sides for water bottles etc., and trekking pole attachments turn it into a transport talent. A lightweight carrying system with adjustable distance mesh allows air circulation. The backpack is comfortable to carry, with adjustable chest, waist and shoulder straps.

Further features:

FLIGHT

Take off and relax! The Flight features a TIZIP zipper and a specially designed waterproof connection to a lightweight stainless steel frame. It offers space for all your essentials. The backpack is comfortable to carry also on long tours, for the carrying system with adjustable distance mesh allows air circulation. Chest, waist and shoulder straps are individually adjustable. The pack is made of tear and abrasion resistant nylon fabric. An optional hydration system can be integrated for extended bike tours. The pack features a sealable drinking tube

aperture that accepts tubes up to 10.5 mm diameter. It has a 3M reflector for safety in the dark, and a fixing loop for a rear light.

Further features:

Waterproof front pocket with TIZIP zipper | Side pockets (e.g. for drinking bottles) | Internal A4 organizer | Valuables pocket | Stow-away helmet carrier | Carrying handle

BACKPACKS

packman pro2

PACKMAN PRO2

A real favourite for weekend explorations. Whether you are hiking or biking, the robust daypack Packman Pro2 is your best choice. With its padded harness system and waist strap it offers adjustability and excellent ventilation in combination with carrying comfort and perfect fit. The stowaway helmet flap requires little space inside a concealed front pocket. The waterproof Packman Pro2 further features a roll closure with compression straps for packing and compressed volume. Other features include an integrated pocket for an optional hydration system (not included), and two lateral reflectors for visibility at night and in bad weather conditions.

Further features:

Elastic zippered front organizer pocket (not waterproof!) | Interior zippered valuables pocket | Waterproof aperture for hydration tube (tube not included) | Carrying handle | Helmet fixing

mountainX 31

MOUNTAINX 31

Crossing the alps by mountain bike is a unique experience. And if your plans include the thought-through backpack MountainX 31, your trip is guaranteed to be a success. The MountainX 31 is made of durable PU-coated nylon fabric and has two separate compartments: waterproof roll top closure, and waterproof zip in the centre. The removable inner compartment sheet divides the interior in two sections, e.g. for clean and dirty equipment. The padded back carrying system with ventilation channels and padded waist strap ensures sufficient ventilation and carrying comfort.

Further features:
Waterproof removable outer pocket for fixing of helmet, clothing or first-aid-kit (not included) | Fixing for optional rear light |

Reflectors | Sealing port for hydration tube (up to 10.5 mm diameter) | Two lateral neoprene pockets e.g. for drinking bottles (not waterproof) | Emergency whistle on ergonomic shoulder strap with chest strap | Loops for fixing gear | Padded waist strap

BACKPACKS

cor 13 · velocity

COR 13

The fascination of dynamic sports and high performance technology. The minimalist design and weight make this a pack you can carry all day long. Though the COR13 has no external frame, it is very comfortable. The padded back with ventilation channels provides efficient air circulation. The anatomically contoured shoulder straps and chest strap are individually adjustable, and keep the pack close to your body. The 100% waterproof nylon fabric is extremely abrasion resistant and gives the pack its low weight (only 700 g/24.5 oz.). Helmets may be stowed under the adjustable and removable front flap with large reflective print. The main compartment houses a sewn-in organizer for the inclusion of an optional hydration system. It goes without saying that the COR13 is well suited for hiking and ski tours. Snowboarders can fix their board under the front flap, and will enjoy the COR's perfect fit during freeriding.

hip-pack2

HIP-PACK2

You want freedom not limitations. The ergonomic interpretation of a day pack is called Hip-Pack2. The waterproof waistpack with padded and individually adjustable carrying system and breathable hip pads allows freedom of movement during all outdoor activities or extended sightseeing tours. An extra wide waist strap offers great comfort; the pack may also be carried in the front. The smart system offers space for your essentials from rain jacket to camera, and is super light weight. In addition to the elastic front pocket there are two zippered mesh pockets (not waterproof) and a removable valuables pocket. Two further lateral pockets are provided with a draw cord, e.g. for bottles.

Real life

No time for a break: job, appointments, or errands to run. You truly need functional bags joining in from shopping trips to business meetings, from getting stuck in subway doors to being super packed with junk. The ORTLIEB city line includes the colourful Zip-City and the all-round bag Sling-it.

PS36C

SLING-IT

ORTLIEB's waterproof all-rounder. From high school and college to business and travel, the Sling-it has it covered. This bag will be your companion for adventure and any activity. The covering flap with Velcro seal offers all-round protection with fast access. The broad and adjustable shoulder strap with pad ensures comfortable transport. All sizes (except XS) feature a removable back strap for wearing the Sling-it on your back when biking. The internal features help you organize and offer plenty of room for laptops.

Further features:

Two zippered internal pockets (size M & L) | Spacious inner compartment with slots for pens, mobile phone etc. | Removable internal snap hook for keys | Optional accessories: Notebook Sleeves in 10" & 13.3" for size S, 15.4" for size M and 17" for size L (see page 89)

CITY BAGS

zip-city

ZIP-CITY

Great looks for our classic eye-catcher in the city jungle: the waterproof courier-style Zip-City combines form and function be it the grey-black design, or the more colourful versions. The interior offers an array of easy access pockets for files, digital accessories and everyday essentials, pen holders and key snap hook. Available in sizes S and M.

Further features:

Courier-style messenger bag with TIZIP | Extra wide comfortable padded shoulder strap | Separate accessories: Notebook Sleeve 10" & 13.3" for size S, 15.4" for size M fixing strap for cycling (keeps bag in place on your back)

NOTEBOOK SLEEVES (not waterproof)

Data protection starts with the laptop transport. Therefore, ORTLIEB developed extra soft sleeves for sensitive hardware. The new 10" version is designed for all standard tablets and Netbooks. The EVA foam which is covered with nylon fabric protects from shock, impacts and crashes. The indispensable transport assistants are just as versatile as the laptop that they protect. Horizontally they fit inside Office-Bags, Zip-Citys and Sling-its (except size XS), vertically they protect equipment inside backpacks and messenger bags. Covered zippers with adjustable and positionable inside corner pads prevent damage. On the rear side the sleeves have external organizers with slots and zippered pockets for important accessories like pens, CDs and USB sticks. The external pocket with folders on the front offer storage for power cord and other small items.

Further features:
 2 loops for easy removal out of the pocket | Vertical and horizontal zipper, covered on the inside | Available in four sizes.

RACK-PACK

This 100% waterproof travel bag has all the advantages of an easy to use dry bag: its flexible and variable packing volume adjusts to any situation and takes all the gear for travelling and sports. The roll closure with stiffener bar has its roots in stuff sack technology. It fits perfectly into bike trailers and sizes S or M can be combined with ORTLIEB Back- and Front-Rollers Plus and Classic on the rack for bike touring. This robust multi-talent bag is also good on motorcycles. Comfortably carried with adjustable padded shoulder strap and carrying handles. Rack-Pack is available in four sizes.

Further features:

Roll closure with stiffener bar | Compression straps | Buckles for combining with bike panniers

TRAVEL-ZIP

A versatile duffel you can use for sports, weekend or business trips. The extremely durable and abrasion resistant Cordura fabric is designed for heavy duty use, repels dirt and is easy to clean. The Travel-Zip is carried with its adjustable shoulder strap, with the handles, or with a quick adjustment, on the back. It is 100% waterproof and features two meshed side zip pockets (not waterproof) for tickets and passport.

Further features: Waterproof TIZIP

DUFFLE

The Duffle is for adventurers searching the extreme and expecting excellent performance. The waterproof travel bag protects clothing etc. from water and dirt, and can quickly be converted into a backpack by using the padded handles as shoulder straps. A long TIZIP zip allows quick access to your gear. Internal straps compress the volume. The tough PS620C base fabric makes it an extremely durable expedition bag.

Further features:

2 internal zippered pockets | 1 outer zippered pocket (not waterproof!) | Daisy chain for fixing and attaching further gear | Easy to clean

BIG-ZIP

Active explorers require heavy duty equipment that can easily handle intensive and continuous use. Big Zip is made of tough welded fabric PD900 with waterproof TIZIP, and offers reliable protection for baggage transport on airline, train, rafts or trekking tours. With a mammoth 140 litres of storage space it will hold everything you need for a long expedition. Big-Zip may be carried on the back with its extra wide padded carrying straps. Padded carry handles on both ends allow portaging by two people. Internal compression straps will keep your equipment in place. Proportioned to carry loads and to keep them 100% waterproof.

Further features:

Easy access with long zipper | D-rings for fixing and securing | Tough patches | Padded carrying handles | Easy to clean

X-TREMER XL & XXL

There are three things that you need for a new adventure: a little bit of courage, optimal equipment and the sturdy X-Tremer. Whether you choose size XL or XXL, both sizes are huge, and true alternatives to rigid boxes and bulky barrels. Also suitable as protective cover for luggage. And when empty, they are easy to fold flat into a little package.

Further features:

Three D-rings for fixing and locking with e.g. padlocks | Bottom loop for hauling and fixing | Weld-on patches with tear-strength up to 1102 lb/500 kg | Easy to clean

DRY BAGS

Take off!

ORTLIEB provides the right dry bags designed for your requirements of your trip, by bike, motorbike, on foot, on horseback, on land or on water. The PS490, PD350, PS21R dry bags and dry bag with and without window are newly designed. The PS21R and window models now come in a light honeycomb fabric with new designs and functions. The lime coloured bags in PS21R, PD350 and PS490 feature a valve for deflation and easier packing. Our proven roll closure allows the bag to end up exactly the size determined by its contents. And since every ounce counts on long trips, the favourite waterproof sacks are also available in an ultra light-weight version.

ultralight dry bags PS 10

ULTRALIGHT DRY BAG PS 10

Where can you store dirty laundry, wet socks or toys? PS 10 pack sacks in four different colours and seven sizes, made from durable nylon material, are the perfect solution. Colour coding helps organize and locate items quickly. Each pack displays volume in litres. Endless storage options inside backpacks or panniers. These robust dry bags store, organize and protect your gear from water, dust and dirt and save you from endless searching.

Further features:

Broad base loop for easy unpacking | Reinforced circular base made of folding and abrasion-resistant PS17 fabric | Also available as an ultralight liner with sturdy square-shaped base (31 x 42 cm/ 16.5 x 12.2 in.)

Attention: Closure must be rolled at least 5-6 times. Please add 15-20 cm/5-8 in. for the total length.

technical specifications page 108

dry bag liners ps10 / ps33

DRY BAG LINER PS 10/PS 33

Sometimes it's what's inside that counts: the durable waterproof liner made of coated nylon fabric with roll closure designed as a rucksack or pack liner. An ideal supplement for non-waterproof duffles, backpacks or trekking packs. It will keep your gear dry and clean. The square shaped base made of abrasion resistant PS33 uses every inch in your pack. Available in three sizes.

Further features:

Broad base loop for holding and easy unpacking | Easy to clean | Roll closure with stiffener bar and buckles

Attention: Closure must be rolled at least 6 times prior to immersion in water; not submersible

DRY BAGS

compression dry bags

COMPRESSION DRY BAG WITH VALVE

No air left! If you can say this about your ORTLIEB compression dry bag, you will be happy about gaining further space inside your pack. By means of the valve mechanism air is expelled from the bag, reducing the packing volume to a minimum. The ultralight nylon fabric PS 10 is 100% waterproof - an ideal supplement for non waterproof baggage. The roll closure with a fabric stiffener bar is easy for one person to handle.

Available in 3 sizes.

COMPRESSION DRY BAG WITH VALVE AND STRAPS

The ultralight compression dry bag is also available with valve and straps for maximum compression. It is particularly suited for compressing sleeping bags.

Further features of both models:
 Buckles | Robust fabric at base: abrasion and tear resistant PS 17 | Broad base loop for easy unpacking and fixing

pd 350

DRY BAGS

PS 21 R [with window]

DRY BAG PS 21R

The PS21R light-weight drybag made of sturdy PU-coated nylon fabric stores, protects and organizes all sorts of outdoor gear and clothing. Six sizes, three colours and endless storage options! Its high values include extremely high abrasion and folding resistance and lightweight. A base loop serves for fixing, hauling, locking and easy holding during unpacking. The lime coloured bags feature a compression valve.

Further features:

Two D-rings for fixing and locking | Visible indication of volume | Easy to clean

Attention: Closure must be rolled at least 3-4 times prior to immersion into water

DRY BAG WITH WINDOW

Take the guesswork out of what's packed inside. ORTLIEB Window Dry Bags are light and robust. They feature a translucent panel that lets you see into the bag and quickly find what you need. It stows away your equipment without hiding it. The Window Dry Bags have a secure D-ring attachment and close with our waterproof roll-down closure for quick access. Appreciated during large expeditions and family trips.

Stay in the Saddle

Imagine the wind in your face, the sun on your skin and only the sound of hoof beats. Enjoy it even more knowing that your gear is kept dry and safe, be it on short horse rides across farmland or multi-day horse treks through the bush. ORTLIEB horse panniers are spacious, waterproof and comfortable for horse and rider.

HORSE PANNIERS

Enjoy nature, get away from your daily routine and form a team with your four-legged partner: horse back riding is an effective way to escape and slow down. However, you will reach relaxation and your day's destiny only if both - rider and horse - enjoy what they do. This constitutes the development background of our horse panniers. They are designed for perfect packing with compression of volume and tight packing to keep things stable. A rear pad prevents unpleasant chafing. The welded 100% waterproof panniers offer reliable protection from water and dirt, and feature a lid with snow gasket and draw cord. In favour of your horse please watch out for equal weight distribution. It is advisable to use an extra pad or blanket underneath the pack.

The horse panniers feature a tough tear and abrasion resistant fabric that are easy to clean and can be mounted to distance, trekking, military, western and all-round saddles.

MOTORBIKE

They take it all

On the road it's only after a long tour you will realise whether a packing system is convenient and really practical. In cooperation with motor bikers, ORTLIEB has developed a new Tank Bag, the MOTO Zip'n Go and the MOTO Rack-Pack. Proven products like the MOTO Speedbags, MOTO Saddle-Bags, MOTO Side Bag QL2, MOTO Dry Bag and MOTO D-Fender were improved. The fixing system is now more flexible and the material even more durable. However, visual appeal also plays a major role for motorcycle products. Therefore, special emphasis was put on design features.

MOTORBIKE

moto saddle-bags

BRAND
NEW

MOTO SADDLE-BAGS

The completely redesigned motorcycle Saddle-Bags are the right choice for adventures on two wheels, be it cruising on a Sunday afternoon or doing the heavy duty trip in constant downpour. The easy-to-load bags feature a waterproof roll closure that keeps your gear dry and clean even in toughest conditions. Easily fixed without requiring a rack – Velcro and fixing straps are included. The symmetrical shape leaves plenty of legroom for the passenger. The large 3M reflectors ensure safety in the dark and rain.

Optional accessory: Shoulder straps
Attention: Can only be used as a pair.
Minimum distance to exhaust pipe 10cm/ 4in.

MOTORBIKE

moto speedbags

MOTO SPEEDBAGS

On and off road, the waterproof and dustproof Speedbags with side roll closure will accept any challenge. For the new season they are presented in the new MOTO look, and there are hardly any other double panniers as modern and functional as the Speedbags. Their low design is perfect for enduro and touring bikes with high exhaust pipes. The rigid self-supporting construction replaces the rack: the panniers can be easily fixed with the broad Velcro and straps to the passenger seat. The symmetrical cut offers plenty of storage space without compromise for the passenger. Comfortable carrying handles allow easy transport and handling.

Further details:

Thermo-moulded rear side | Zippered inner pocket | Reflector for increased safety in rain, fog, and in the dark | Easy to clean inside

Attention: Can only be used as a pair. Minimum distance to exhaust pipe 10cm/ 4in.

moto tankbag

MOTO TANKBAG WITH MAGNETIC ATTACHMENT

One of the biker's basics: the waterproof MOTO Tankbag keeps all your necessities at hand that would be unavailable when carried on your back. A piece of luggage that guarantees pure driving pleasure. The modified adjustable base with anti-slip, tank-protecting surface is suited for almost all standard motorcycle tanks. The MOTO Tankbag is securely fixed with magnets and straps as well as an extra strap attachment around the frame. Alternative fixing as a tail bag is also possible. Easy to attach, fast to access and almost indestructible. The aerodynamic design with tyre tread motif and two-way access make it a faithful companion for touring. A transparent waterproof (22x26cm / 8.7 x 10.2 in.) mapcase may be fixed on the Tankbag or directly on the base.

Further features:

Roll closure with carrying handle | Sturdy, waterproof zip | Extremely abrasion and tear-resistant fabric | 3M Scotchlite reflector
Optional accessory: Carrying System for MOTO Tankbag

Attention: We recommend using a protective fabric between tank and magnetic base. The magnets are very strong - please keep credit cards away.

moto side bag ql2

MOTO SIDE BAG QL2

The formula for smart luggage systems. The completely redesigned high performance single bag made of abrasion resistant waterproof fabric for left or right side mounting. QL2 is a synonym for flexibility and mobility: automatic closing and opening of the hooks by lifting the bag's handle. The waterproof roll closure protects documents, luggage and sports gear from water, dust and dirt. A padded handle and shoulder strap make carrying comfortable.

Further features:

Inner pocket | ORTLIEB QL2 system for rack diameters up to max. 16 mm | Two large 3M Scotchlite reflectors | Easy to clean

Recommended accessory: anti-theft device for later upgrade into QL2 rail (order separately)
Attention: Minimum distance to exhaust pipe 10cm/ 4in.

MOTO D-FENDER

Motorcycle Backpack with TIZIP zipper
The extremely strong PU fabric and the waterproof zip on the carrier's back constitute the perfect resistance against environmental influences – be it hail or showers. The ventilation is guaranteed by a foam back with air channels. A chest strap adjustable in height and padded shoulder straps with reflective yarn ensure perfect distribution of loads. The MOTO D-Fender is designed without loose straps, and the straight base provides perfect stability. On the road 6 D-rings ensure optimal attachment to the bike rack.

For snap shot hunters and motive collectors

Sometimes it does take hours, then it is suddenly there: the moment which turns visions into images. Once you are looking for motives, you are ready for the unpredictable. This means the gear has to be even more reliable. Therefore, adventurers, scientists and professional photographers rely on ORTLIEB's robust transport systems for their highly sensitive equipment. The camera bags' main focus lies on function. They do not only offer optimal protection for electronic gear, but do always keep the main advantage in mind: quick access to camera, binoculars & Co. The equipment which has proven to be reliable under extreme conditions is now also used for leisure activities. However, the best moment remains priceless

SNAP

The Snap camera bag is designed for great and small highlights in life – be it on top of a mountain or at a birthday party. This ORTLIEB camera bag line focuses on spontaneous and easy leisure use. The flap and Velcro closure allow lightning fast access to your small compact camera. Outside, an abrasion-resistant PU-coated Cordura fabric protects from rain and spray, inside padding provides sufficient protection from mechanical damage. Snap is available in three sizes. It is also suited for mobile phones, PDA, binoculars or GPS.

CAMERA BAGS

aqua-zoom [plus]

AQUA-ZOOM PLUS

The Aqua-Zoom Plus has a wide and long flap closure offering a waterproof seal and lightning fast access to your camera. This bag is great for times when convenient access is more important than the secure seal of a roll top bag. It comes with a detachable, padded shoulder strap, and can be used with the ORTLIEB Camera Harness System (optional accessory) or carried on your belt. The Aqua-Zoom Plus has an outer mesh pocket for film and accessories (not waterproof). Adjustable inner divisions provide safe camera storage.

Get to the source

On extended tours far away from civilization, priorities are reduced to the essentials: this includes 100% hygienic drinking water. The tear-resistant light weight ORTLIEB water products with food grade internal coating have a minimum volume of 2 litres / 122 cu. in. The ergonomic design and variable carrying construction optimize planning of resources and transportation. The 10 Litre Water Sack offers top outdoor practicality: suspended in sunshine it turns into a luxurious hot shower. ORTLIEB's multi talents may also be upgraded with optional accessories, e.g. into a purification system with a Katadyn filter or a hydration system with the drinking tube.

129

WATER TRANSPORT

watersack · waterbag

WATERSACK

Goodbye bulky containers. The ORTLIEB Watersack ensures reliable water supply in your camp doing without big and bulky canisters. On tour the Watersack can be packed away taking up very little space, in the camp it offers a generous 10 litres for cooking, washing or even for a shower. The large roll closure opening allows easy filling. The Watersack is made of tear-resistant, waterproof fabric, and the integrated base valve allows easy metering. The Watersack can be combined with the purification filter by Katadyn.

Further features:

Buckles for hanging | Combination with Katadyn filter possible

Optional accessories: ORTLIEB Shower Valve, ORTLIEB Hydration Tube

Attention: The Watersack is not suited for transportation in horizontal position. For transporting water inside a pack or pannier we recommend our Water Bag or Water Belt.

fabric	PS17L

Please note:

All water containers are suited for water only (max. temperature 60°C/140°F). Do not use for alcoholic, sweet or acid liquids. Do not expose drinking water too long to the heat. Change water regularly. Store dry and open. Clean inside with denture cleaning tablets. Clean outside with warm water, brush and neutral soap. Clean the valve regularly.

WATERBELT

The Water Belt has a variety of attachment possibilities. It can be worn like a fanny pack around the waist or attached to the exterior of a backpack. Combine it with the ORTLIEB drinking tube to create a hydration system.

Features:

Tear-resistant, waterproof fabric | Welded seams | Adjustable strap with buckle for comfortable carrying | Can be combined with outdoor filters for water purification and with the ORTLIEB drinking tube

fabric	PS17L
weight	110 g/3.9 oz.
volume	2 L/122 cu.in.
dim.	16 · 40 cm/6.3 · 15.7 in. (H x W)
colours	Art.No.
blue	N49

DRINKING TUBE

The ideal tool for energetic outdoor activities: with the drinking tube you can transform an ORTLIEB Water Bag, Water Belt or „PET“-bottle into a hydration system: remove valve, insert tube into water container, screw valve back on. The 33.5 in. long tube features a lockable bite-valve and one screw cap.

Features:

Valve inside the cap for pressure compensation inside the container | Mouthpiece can be taken apart for hygienic cleaning

weight	70 g/2.5 oz.
colours	Art.No.
blue	N4201

SHOWER VALVE

The Shower Valve can be put onto all ORTLIEB water containers. Remove the dust cap, put on the shower valve, and open the tap. The contents of the Water Sack are enough for a pleasant shower. Can also be used as a garden shower or watering can.

Small holes for constant showering | Quick opening and closing of valve
Attention:
Danger of boiling water! Check temperature prior to use when used in combination with the black water containers.

FIRST-AID-KIT

first-aid-kits

ORTLIEB Light & Fast First-Aid Kits

Lightweight design and essential medical supplies make the ORTLIEB First-Aid Kits a great choice for the prepared backpacker. Compact, tough and, of course, 100% waterproof.

first-aid-kit · content

Please find detailed information about the content of each version at: www.ortlieb.com/_pdf_en/firstaid.pdf

FIRST-AID-KIT

Never again without: ORTLIEB's First Aid Kits should be an inherent part of your equipment. The First Aid Kits are waterproof sleeves made of PU-coated nylon fabric with roll closure, and are available in four different sizes and safety levels (Regular, Medium, High, Ultra-high). Regular and medium are suitable for most outdoor activities. Safety Level "High" contains (in addition to the basic) supplementary equipment required for a specific field of sports: motor biking, cycling, trekking, canoeing/kayaking, horse riding. The well stocked Ultra High version allows optimal first aid for trekking and cycling sports, and is also designed for small groups. All kits feature belt loops. The models High and Ultra High have additional straps for fixing to a backpack etc.

Further features:

International first aid symbol (white cross on green background) on the front | Versions Medium to Ultra-High feature a removable inner pocket for personal stocking and for quick access | Fixing for shoulder strap (optional accessory, article code E 16) | Versions Medium and High may also be ordered without contents.

protection bags

SAFE-IT

Robust all round protection for sensitive devices that need to be at hand. The spray and dustproof bag stores and protects mobile phones, PDAs, mini-PC, and GPS devices. It is not only water that may damage these electronic devices, but also sand, dust or the salty sea air. The foil is suitable for PDA pens, and the lower side is made of tough PU-coated fabric. Safe-It is ultralight and available in three sizes (S, M and L).

Different Types of Waterproofness

All materials used and all welding seams are waterproof up to a water column of 100,000 mm. However, the degree of waterproofness and dustproofness of a specific product always depends on the type of closure. It is important that the product is properly and completely closed. This refers in particular to:

Roll Closures: they must be rolled 3 to 4 times (e.g. Back-Roller), and 5 to 6 times on ultra light dry bags.

Velcro Closures: must be folded 2 times along the entire width (e.g. Safe-it).

Sealing Closures and Zippers: must be closed all the way, e.g. camera bag Protect and duffle bag Big-Zip.

Lid Closure (and snow gaskets with cord underneath): must be properly closed and fixed with buckles, e.g. Bike-Packer.

IP Standards

All types of closures used on ORTLIEB products were submitted to simulation tests by LGA QualiTest GmbH, TÜV Rheinland Group, Nuremberg, Germany.*) These protection standards which have their origins in electronic technologies are referred to as IP, international protection standards, and are increasingly used in the field of leisure activities. Currently, this is the only valid and acknowledged international classification regarding waterproofness and dustproofness. The degree of protection is defined by two figures. Altogether there are 6 protection standards for solid bodies, and 8 protection standards for water.

Protection against dust

The first figure defines the protection degree of a product against the penetration of solids and contact. 5 and 6 refer to the protection of dust and contact (e.g. by hand).

Protection against water

The second figure defines the protection degree against water. 7 e.g. stands for the protection against water penetration at a defined water depth during a determined period of time.

Example: IP 64, ORTLIEB Back-Roller; this product is dustproof and is protected against splashwater coming from all directions.

ORTLIEB products are classified according to the following protection standards depending on the type of closure used on the product:

IP5X: The product is protected against dust. Slight penetration of dust possible.

IP6X: Product is dustproof. No penetration of dust.

IPX3: Protected against spray water (max. 60° to the vertical).

IPX4: Protection against splashwater coming from all directions.

IPX7: Protection against penetration of water during temporary immersion; depth: 1 meter / 39 in. (lower edge of product), duration: 3 minutes

*) IP international protection standard examination according to DIN EN 60529:2000
See als: www.ortlieb.com/ip-symbols

Manufactured according to ORTLIEB standards

Our coated fabrics are not standard fabrics but are particularly developed for a specific field of application, and are manufactured according to our company quality requirements.

Folding-resistant up to 100,000 folds

We have very high quality expectations concerning the folding resistance of a fabric, because numerous products are provided with the „roll closure“.

Quality Control

All important material characteristics are continuously controlled at goods received. The mounting components of bike panniers are subjected to extreme riding simulation tests.

Azo-free dyes

Although ORTLIEB products are not subject to the AZO ordinance, we only use AZO-free dyes.

PVC free: We use PVC free materials if technically possible and logical.

Tizip: Various types of TIZIP- zippers are available. They guarantee IP protection IP67
