„endurance test passed“ with 1,0, www.sq.de (D), 10/2014

- Waterproof backpack with roll closure underneath lid, available in 2 sizes (32 and 42 liters)
- Top compartment with external access and waterproof zip
- Purpose designed for mountaineering
- Tear and abrasion resistant nylon fabric PS42R
- Anatomically shaped shoulder straps, sternum strap with safety whistle-buckle
- Contact back system with air channels
- Multifunctional compression straps, e.g. for skis
- Removeable waist strap with gear loops and zippered pockets
- Loops on lid for helmet attachment, also suitable for fixing a jacket
- Hydration system sealable aperture with inner pocket (2 compartments 1 zippered)
- Numerous attachment points: base-slots and loops (inside and out)
- Optional accessories: outer pockets (waterproof), bottle cage, mesh pocket and pads to reinforce compression straps

Backpack comes with carrying system

Note: Backpack: in order to meet standard IP64 (6=dustproof, 4=protected against splash water coming from all directions) the roll closure must be rolled at least 3-4 times. Lid compartment: In order to meet standard IP67 (6=dustproof, 7=protected against penetration of water coming during temporary immersion; depth 1 m/39 in./lower edge of product; duration 30 minutes) the zipper must be completely closed.
