# WELCOME OUT

Mount Whistler, Jasper, Alberta

# DOORS.

Welcome to the world of  
waterproof adventures !

What an eventful year 2012 has been, a year of records, top performances and superlatives. London hosted the Olympics; an Austrian broke the sound barrier when he skydived from altitude: 120.000 feet! Away from all the hustle and bustle Ortlieb celebrated its 30th anniversary of manufacturing waterproof outdoor gear.

All great reasons to say Thank You! We are all linked by the passion of enjoying outdoors, whether we want to escape the daily routine, explore, travel or just hit the road now and then.

You demonstrated your passion for the outdoors by participating in our travel report competition.

We were overwhelmed and enthralled by your numerous stories of waterproof ORTLIEB bags in action.

There was small and large adventures from all over the globe, across all continents, on water, land, on foot, by horseback, by boat, by motorcycle and last but not least by bike.

Made in Germany: at home all around the world. Thank You to all participants!

Late 2012 saw the opening of new production site in Heilsbronn, Germany.

Practical experiences give the best impulse for innovations, at Ortlieb we continue to look at numerous future product innovations.

2013 will see added to the range four new waterproof camera bags. Handlebar bags with magnetic closure system and a new model for touring bikers with a windowed space for your GPS device.

We will also introduce a new Seatpost-Bag with integrated quick release ratchet for fixing to mountain and road bikes.

Our 2012 photo trip takes you to the unspoilt Canadian wilderness of Alberta. Besides meeting black bears and moose our main target was checking out the new ORTLIEB outdoor collection. All pack systems passed the practical tests of our bike, hike, horseback and motorcycle tours through Jasper National Park and the Canadian Rockies.

Enjoy our new catalogue and set off to new waterproof adventures!

A scenic landscape featuring two cyclists riding on a paved road. The cyclists are in the foreground, moving from left to right. The cyclist on the left is wearing a bright green long-sleeved shirt and a white helmet. The cyclist on the right is wearing a blue long-sleeved shirt and a black helmet. Both bicycles are equipped with panniers. The road is paved and has a yellow line marking. The background is a vast, mountainous landscape with dense evergreen forests and a valley. The mountains are rugged and blue-toned, suggesting distance or a clear sky. The sky is light blue with some wispy clouds. The overall scene is bright and clear, indicating a sunny day.

## TRAVEL-SET

Need a pack for a long, rough haul? This is it! For the globetrotter who prefers the best: perfect preparation and top gear. This waterproof luggage system allows experienced cyclists to carry all the necessities for extended touring or weekend family trips. Plenty of room combined with excellent comfort. Clothes can be stowed away crease free in the large suitcase. Four inner pockets, two zippered, two internal compression straps and an outer mesh pocket provide plenty of possibilities to store your gear. All other equipment is packed in the rear panniers Bike-Tourer. Valuables and money are to hand in the handlebar bag Ultimate6 M Plus. The included anti-theft device means that the panniers may be left on the bike, deterred from unauthorised removal.

*Optional accessories include the Outer-Pocket size S, the Bottle Cage and Mesh Pocket.*

*The Travel-Set comes with:*

*Bike suitcase Travel-Biker including lockable rack adapter (maximum capacity 10 kg / 353 oz.), see page 11 | Two rear panniers Bike-Tourer with QL2 mounting set, see page 9 | Handlebar bag Ultimate6 M Plus with mounting set, see page 60 | anti-theft device (mounted), see page 55*

## bike-tourer

3-2011

03/04-2011

### BIKE-TOURER

Passionate cyclists who want to escape the daily routine will pack their Bike-Tourer. The bag is specifically designed to be used as a rear pannier, providing more than enough room for a serious tour. An internal division and added front pouch help organize your gear. The convenient flap is quick and easy to use one handed. Four base feet protect the pannier base. Padded adjustable shoulder straps provide comfort and can be easily detached.

The Bike-Tourer attaches to any standard bike rack up to 16 mm (inserts for 8 mm and 11 mm included) with the QL2 attachment system. For extra room, the Bike-Tourer can be perfectly combined with the ORTLIEB Travel-Biker or Trunk-Bag.

#### Further features:

*Large reflectors | Front pouch | Carrying handle | Individual use of pannier possible  
Optional accessories: Pannier Carrying System, Outer Pocket size S, anti-theft device, Bottle Cage, Mesh Pocket*

## TRAVEL-BIKER

Those who wish to be prepared for any situation on the road make the right choice with the Travel-Biker. The handy suitcase is designed for carrying clothes; stylish clothing will arrive dry with minimum creases. Four internal pockets, two of which zippered, and two compression straps help keeping things in place. An outer mesh pocket and elastics on the lid offer additional room for extra gear. The waterproof Travel-Biker is ideal for use on touring or trekking bikes and on seat post racks. With a “click” it is fixed fast and easily onto the included lockable rack adapter: simply slide on and click in. The Travel-Biker can be combined with all ORTLIEB bike panniers. Maximum capacity: 10 kg / 350 oz. (check capacity of rack).

### Further features:

## bike-packer

VSF all-ride  
LEATHER-STRIPS

### Experience the world by bike

More and more people are fascinated by bike travel. It's in the nature of things that bike touring involves the chance of being out when it's really wet. Better if you can rely on gear that keeps your stuff dry even under most extreme conditions. It is only natural that the proven Packer line with lid closure and handy Quick-Lock system is among the touring specialists' favourites. The Bike-Packer Plus with 42 L volume is the right choice for the grand tour, while the compact Sport-Packer serves as additional bag on the lowrider or as right pannier for children bikes. The sturdy Plus version made of Cordura® is also available in the proven and rugged Classic version ...

### BIKE-PACKER PLUS

Abrasion-resistant Cordura® fabric makes this pannier the tough travel companion for extended bike touring. The waterproof three-dimensional front pouch offers additional storage room. Quick and easy mounting to the rack thanks to the QL2 fixing.

*Further features:*

*Shoulder strap with snap hook | Base feet | Dust/snow gasket under the lid with cord | Inner Pocket | Reflectors*

fabric	PS36C

## back-roller

VSF.all-ride

### When each gram counts

... Back-Rollers and Front-Rollers are the bags to go for. A lightweight pair of panniers for extended bike touring and travelling. The waterproof and functional set is tough and will withstand the elements. Passionate cyclists rely on the handy and robust system of front and rear panniers. They provide enough room for the serious tour, and the extremely durable fabric has proven its quality in river and desert crossings. The waterproof bestsellers received numerous awards from the trade press for their genial functionality, unbeaten stability and great comfort.

### BACK-ROLLER PLUS

In extended touring it shows what it's made for. The tough rear pannier made of tear-resistant Cordura® fabric is 100% waterproof thanks to its handy roll closure. With its QL2 fixing it is quickly mounted and taken off the bike rack. And once you arrive at your destination, you can carry the Back-Roller Plus just like a shoulder bag thanks to the included strap.

Further features:  
Reflectors | Integrated inner pocket

## FLIGHT

Take off and relax! The Flight features a TIZIP zipper and a specially designed waterproof connection to a lightweight stainless steel frame. It offers space for all your essentials. The backpack is comfortable to carry also on long tours, for the carrying system with adjustable distance mesh allows air circulation. Chest, waist and shoulder straps are individually adjustable. The pack is made of tear and abrasion resistant nylon fabric. An optional hydration system can be integrated for extended bike tours. The pack features a sealable drinking tube aperture that accepts tubes up to 10.5 mm diameter. It has a 3M reflector for safety in the dark, and a fixing loop for a rear light.

### Further features:

### MOUNTAINX 31

Crossing the alps by mountain bike is a unique experience. And if your plans include the thought-through backpack MountainX 31, your trip is guaranteed to be a success. The MountainX 31 is made of durable PU-coated nylon fabric and has two separate compartments: waterproof roll top closure, and waterproof zip in the centre. The removable inner compartment sheet divides the interior in two sections, e.g. for clean and dirty equipment. The padded back carrying system with ventilation channels and padded waist strap ensures sufficient ventilation and carrying comfort.

#### Further features:

Waterproof removable outer pocket for fixing of helmet, clothing or first-aid-kit (not included) | Fixing for optional rear light | Reflectors | Sealing port for hydration tube (up to 10.5 mm diameter) | Two lateral

neoprene pockets e.g. for drinking bottles (not waterproof) | Emergency whistle on ergonomic shoulder strap with chest strap | Loops for fixing gear | Padded waist strap

## AIRFLEX 11

The first trip will prove it: this backpack makes your life lighter! Compact design and 11 liter packing volume make the AirFlex11 a full featured yet sleek and waterproof pack with convenient roll closure. The Flex-Wire system with comfortable padding offers real carrying comfort. The adjustable compression cord serves for fixing a bike helmet or light jacket. Two outer pockets (not waterproof) offer space for small items which should be quickly accessible. Two reflectors ensure good visibility in the dark. The Airflex 11 also features a fixing loop for a rear light.

cor 13

## COR 13

The fascination of dynamic sports and high performance technology. The minimalist design and weight make this a pack you can carry all day long. Though the COR13 has no external frame, it is very comfortable. The padded back with ventilation channels provides efficient air circulation. The anatomically contoured shoulder straps and chest strap are individually adjustable, and keep the pack close to your body. The 100% waterproof nylon fabric is extremely abrasion resistant and gives the pack its low weight (only 700 g/24.5 oz.). Helmets may be stowed under the adjustable and removable front flap with large reflective print. The main compartment houses a sewn-in organizer for the inclusion of an optional hydration system. It goes without saying that the COR13 is well suited for hiking and ski tours. Snowboarders can fix their board under the front flap, and will enjoy the COR's perfect fit during freeriding.

Further features:

## trunk-bag

ORTLIEB system

RIXEN & KAUL system

RACKTIME system

### TRUNK-BAG

The waterproof Trunk Bag offers ample storage space on your bike. It is perfect for touring, commuting, and errands. The compact rear bag is made of tough and long lasting Cordura® fabric with specially designed shaped sides. Once you arrive at your destination, you can carry the Trunk Bag as a shoulder bag with the included strap. Prior to biking, simply fold the shoulder strap and fix it on the top. Lateral reflectors and light clip ensure safety in the dark and in bad weather conditions (bike light not included). The Trunk-Bag is available with the ORTLIEB rack adapter for touring bikes and an attachment for panniers is possible (not possible with the RIXEN & KAUL adapter for seat post racks).

# MADE IN GERMANY

This logo stands for an initiative by the BSI (Federal Association of German Sport Article Industry). It defines German sport article companies that commit themselves to Germany as production location.

## **Made in Germany – a matter of course !**

ORTLIEB products are Made in Germany. Only here we can constantly optimise and supervise quality manufacturing. Therefore, 90% of all processes are run inhouse at ORTLIEB in Heilsbronn. This has been our way for nearly 30 years. This focus on quality is the basis for the development and production of waterproof, high value equipment that supports our dedicated and enthusiastic outdoor customers.

Most of our suppliers and development partners are also near by. We can respond quickly to demand and shorten lead-times to market while reducing our carbon footprint. The production of bike panniers, backpacks, dry bags and many other products that we show you in this catalogue is implemented in Heilsbronn by an experienced and well established team. The „Ortlieb campus“ is comprised of engineers, designers, and even mechanical construction, all together under one roof with warehousing and distribution. All departments work hand in hand, keeping the communication direct and personal, allowing decisions to be made quickly.

The fact that the most important processes take place in our company allows us to guarantee that each step is performed as ecological as possible. Constant optimizing allows minimizing material waste. Our plastic materials are separated into 5 segments in order to ensure optimal recycling. Our administration uses recycled content paper only, and our printed matter is fsc certified without exception.

## **Sustainability – more than long lasting quality**

Sustainability is more than short transport ways, conservation of resources and recycling. It also defines the sustainability of our products and the reliable service by us, the manufacturer.

ORTLIEB products are said to be indestructible and extremely long life. Should there still be damage or wear of a component, ORTLIEB products can be easily repaired due to the design of the article. Defective parts can easily be exchanged, holes can be repaired, buckles exchanged and straps renewed. These jobs are performed by our own customer service where ORTLIEB products are completely refitted for intensive heavy duty use.

Older products can be updated onsite to the current state of the art. Further, we offer repair sets that allow our customers to make repairs on the road. For discontinued products we offer spare parts for another 10 years. And at last: with 5 years warranty we ensure our customers that defective manufacturing or materials are corrected by us free of charge. All of this guarantees that our products remain in service far beyond what is typical and certainly avoid the fate of most common outdoor products. Should you have any questions about our products or our service, please contact us at

## seatpost-bag

BRAND  
NEW

### SEATPOST-BAG

Versatile and lightweight: one simple tool free manoeuvre is all it takes to fix or remove the waterproof Seatpost-Bag made of PU coated nylon and Cordura®. The integrated mounting allows quick change from bike to bike. The roll closure with elastics ensures safe closing of the bag and allows tight packing. The Seatpost-Bag is available in two sizes, the 1.5 litres version being suitable as additional bag for longer trips, the 4 litres model might even replace a backpack. Both versions will protect the rider from splashes and dirt.

#### Further features:

*Individually adjustable ratchet closure compatible with seat post diameters from 25.4 mm to 34.9 mm (not suitable for carbon fibre posts) | Size M (4 litres): 2 integrated mesh pockets and elastic top strap for fixing additional equipment | 3M Scotchlite reflector | Fixing for rear light | NB. Maximum carry weight size S = 1.5 kg size M = 2.5 kg*

### SADDLE-BAG

ORTLIEB's classic seat bag is available in three sizes, depending on the type of tour. The small version with 49 cu.in. is an excellent fit for road applications, while the medium is perfect for mountain bikers. Size L is a true alternative to carrying a backpack, providing room for equipment, snacks, extra shells and tools for long day tours. It tucks in nicely under the saddle, and often functions as protector on bikes without fenders. The additional fixation with Velcro, around the seat post provides firm and vibration-free mounting. The 100% waterproof roll closure features buckles and D-rings for locking the bag. The mounting set is also available as accessory.

*Futher features:*

# THE QL SYSTEM

## ql3 system

### SYSTEM QL3

The QL3 system is especially developed for office and city bags as its secret lies in the fact that the main mounting components stay on the rack. This results in a clear rear side that is free of protruding hooks, and significantly improves the bag's carrying comfort when off the bike.

*The QL3 system has all the known advantages of the previous ORTLIEB QL systems:*

- › Comfortable single-handed operation
- › Automatic closing and opening of the hooks by lifting the pannier handle
- › Fixing rail can be mounted on left or right side, and optionally on horizontal or vertical bars of rack
- › Sufficient legroom due to variable height and angle
- › Lower hook rotatable in 360 degrees (24 steps, each 15 degrees) for individual adjustment to various racks with a diameter up to 10 mm
- › Horizontal rack top remains free for baskets, trunkbags etc.
- › Additional mounting sets available for attaching bags to other bikes
- › Bags with QL1 or QL2 system can also be fixed to the QL3 mounting rail

## ql2+1 system

### SYSTEM QL2

This mounting system for bike panniers is the further development of ORTLIEB's milestone setting QL1 system. All hooks are adjustable to the rack without requiring any tools. Therefore, the panniers can be easily switched from one bike to another. The QL2 system may be upgraded with the anti-theft device (not possible in QL1).

*The QL2 system features:*

- › Optimal fit on all racks with a tube diameter up to 16 mm (inserts for 8/11 mm inclusive)
- › Comfortable single-handed operation
- › Automatic closing and opening of the hooks by lifting the pannier handle
- › Large adjustment range of QL2 hook on hook rail
- › Sufficient legroom due to pivoting rail (e.g. Office-Bag)
- › Large adjustment range (horizontal and vertical) in 45° steps of rotatable lower hook on elliptical rail

### SYSTEM QL1

The QL1 System was ORTLIEB's first mounting system for bike panniers which allowed a single-handed mounting on and removal of panniers from the bike rack. The automatically closing hooks replaced the complicated attachments with straps and buckles which were slow and unreliable. Thousands of the indestructible mounting QL1 system have now been used for decades on classic pannier models such as Back-Rollers and Bike-Packers, and are still in use.

*The QL1 system features:*

- › Optimal fit on all racks with a tube diameter up to 16 mm (inserts for 8/11 mm inclusive)
- › Comfortable single-handed operation
- › Automatic closing and opening of the hooks by lifting the pannier handle
- › Large adjustment range of QL1 hook on hook rail
- › Large adjustment range (horizontal and vertical) in 15° steps of lower hook on semi elliptical rail

# CITY COMMUTING

# OFFICE BAGS

## downtown ql3

The Downtown is a reliable companion on your tour through the morning or evening rushhour. The waterproof bike briefcase provides secure cargo carrying plus reliable protection of files, documents and laptops up to 15.4". A hands-free way to carry your everyday digital and off line essentials, this waterproof bike briefcase with lid closure can be quickly mounted and taken off the rack single-handed. It features an extra wide padded shoulder strap and additional carry handle for comfortable transport. Edge protectors and base feet on the rear and bottom ensure optimal protection of the bag. Two large 3M Scotchlite reflectors and a reflective ORTLIEB logo and handle ensure safety in the dark and in bad conditions.

### DOWNTOWN QL3

The innovative mounting system QL3 which received the Eurobike Award features mounting components that can be fixed to standard racks with a diameter up to 10 mm on the right or left side. Flat mounting elements ensure a smooth back side. Mounting height and angle of the bag are individually adjustable.

*Optional accessories: QL3 mounting set, Notebook Sleeve.*

## city-biker ql3

### Keep movin'

Velo-Shopper, Bike-Shopper and City-Biker are the perfect bags for grocery shopping and running your daily errands in town. They are easy to use and keep all your purchases safe and dry. Plus: shopping by bike is healthy for you, and is also protecting the environment.

### CITY-BIKER QL3

On the bike or on the shoulder, the City-Biker always looks good on a tour through town. The vertical style shoulder bag with closure flap ensures protection of A4 files and 13.3" laptops. With a reinforced base and sides the City-Biker is a sturdy and robust bag. The padded shoulder strap ensures a comfortable carrying; during biking it is stowed safely on the flaps inner side. The City-Biker QL3 features the innovative QL3 system; it allows quick and single-handed fixing to and removal off the rack. The mounting components remain on the rack, and the bag's back stays clear of protruding hooks.

#### Further features:

## vario ql3

### VARIO QL3

As its name suggests, the Vario is a highly versatile and flexible pack offering lots of storage capacity. It quickly converts from a bike pannier to a comfortable backpack. The waterproof Vario made of tough and long lasting nylon fabric features a roll closure and offers space for A4 files and a 15.4" laptop. The innovative QL3 system allows quick and single-handed fixing to and removal off the rack with a diameter up to 10 mm. The mounting components remain on the rack, and the bag's back stays clear of protruding hooks. For biking, the padded back carrying system complete with shoulder straps and chest strap is packed away into a concealed zippered front pocket, then for use it can be easily fixed to the back of the Vario. An external fixing safely stows away your bike helmet when it is not used.

### PANNIER CARRYING SYSTEM

Flexibility on bike and on foot! The Pannier Carrying System quickly converts your bike pannier into a backpack. The thermally moulded foam back pad along with padded and adjustable shoulder straps and chest strap guarantee a comfortable carrying with excellent ventilation. Low weight, the carrying system can be easily fixed onto the pannier when not in use. It's suitable for Front- and Back-Rollers, Bike-Packer, Sport-Packer, Bike-Tourer, Velo-Shopper and Bike-Shopper. To fix the pannier onto the carrying system, its top loops are hooked into the pannier's QL hooks, and the buckles are threaded into the base edge protectors.

*Further features:*

# HANDLEBAR BAGS

BRAND  
NEW

## Ultimate Touring Fun

Ultimate handlebar bags are typical ORTLIEB originals: handy, light weight bags that take lots of gear. Thought through design, stable form and rigid lid keep it in shape. The handlebar bags can be locked to the adapter. You can look forward to a brand new collection: Ultimate6 Pro, Ultimate6 M Classic and Ultimate6 M Plus with magnetic lid. The mounting adapter is compatible with Klickfix by Rixen & Kaul. Ultimate5 in size L remains unchanged.

## ULTIMATE6 M PRO

The professional touring companion made from PU coated Cordura®. GPS or other touch screen mobile devices with can be safely stored inside the lid, and easily operated through the transparent waterproof window. Opening the magnetic closure lid is fast, easy and single-handed. The main compartment is subdivided and includes a zippered internal valuables pocket and a key-holder snap hook. Padded removable Velcro®dividers allow flexible positioning. The waterproof bar bag can be carried with the removable shoulder strap. The Ultimate6 Pro offers double anti-theft protection; once fixed to the handle bar the lid can be locked with a single turn of the key and the bag itself locked to the adapter with the integrated lock.

### Further features:

Suitable for handlebars up to 31.8 mm. (not for carbon handle bars) | Compatible with the Klickfix system by Rixen & Kaul |

# HANDLEBAR BAG

## ultimate6 M plus

### ULTIMATE6 M PLUS

This waterproof handle bar bag is the perfect storage for maps, papers, wallet etc., and everything is quickly accessible. The Ultimate6 M Plus is made from PU coated Cordura® fabric and offers plenty of space for valuables.

Once on the handlebar, a single turn of the key prevents the lid from being opened and the bag from being taken off the mounting. The removable internal dividers allow flexible design of the interior. The magnetic lid is easy to operate, opened single-handedly and it locks almost automatically.

#### Further features:

*Suitable for handlebars up to 31.8 mm. or conical handlebars (not for carbon handle bars) | Mounting is compatible with the Klickfix system by Rixen & Kaul | 3M Scotchlite reflector on front | Small reflector on mounting block | Max. capacity 3 kg | Compatible with Map Case and Mobile Guide*

#### Optional accessories:

*Map Case and Mobile Guide with cord fixing | Extension adapter for mounting to highly curved handle bars | Additional mounting set (e.g. for a second bike) | Padded Camera Insert | Internal Dividers size M*

### BACKPACK FOR RECUMBENT AND SCOOTER BIKES

The flexible daypack by ORTLIEB is the right choice for your trip. The padded shoulder straps of the removable carrying system plus the handle allow easy carrying. Fixing straps serve for quick attachment of the backpack to the recumbent rack or scooter bike seat. Two outer mesh pockets allow easy access to small items. The typical robust ORTLIEB material mix of PVC-coated polyester and Cordura®, and a large TIZIP zipper constitute an optimal waterproof compartment. Reflectors on both sides ensure safety at night, in rain or fog. A hydration system (not included) can be integrated.

*Further details:*

### MESSENGER BAG PRO

Smart bike messengers not only carry messages inside their bags, but also display them on the outside. Our full-featured Messenger Bag Pro has a professional display surface for additional advertising. The transparent, waterproof folder at the back offers space for size A3 posters. The bag's internal life has been designed with insider know-how: the inner zippered pocket for receipts, maps, pens etc. is removable by means of push buttons and can also be attached to the waist belt. The organizer with subdividers keeps important documents in order. Fast access and transport of bulky shipments is guaranteed by the roll closure with extra long Velcro. Security ranks high when biking all day long in city traffic: the Messenger Bag Pro is kitted out with large sized reflectors.

Further details: carrying handle, strap fixation, foam back with improved ventilation, protected base by means of edge protectors and bottom feet.

CANADA

# TRAVELLING CANADA

# CANADA

Athabasca river, Jasper

Alberta is synonymous for vast forests, high mountains, emerald green glacial lakes and bears. It's our photo destination, capturing the spectacular pictures in this catalogue.

Leaving Calgary we are fascinated by the Canadian Rockies, the wide deserted highways and the colourful trees. As soon as we reach the foothills the first bighorn sheep block the highway, it takes some time till they reluctantly and slowly move on and let the traffic pass northbound. This was our first but definitely not last encounter with the Canadian wildlife.

We follow the Icefield Parkway and drive several hundred kilometers to Jasper National Park. We are overcome by the tranquility and the natural openness and friendliness of Canadians.

Our first stop was at Lake Louise in the Banff National Park.

It's an ideal location for outdoor activities: hiking, climbing, skiing and canoeing. The emerald colour of the water comes from in-suspension rock flour carried to the lake by glacial melt waters.

Arrival at Jasper in the late afternoon sees us getting bikes from Vicious Cycle including some hot insider tips for the best trails around here.

After a short trip through town (Jasper: population 4000) we enjoyed a cool Canadian beer at Jasper Brewing Company. We are soon chatting with the welcoming locals about the Jasper National Park and the UNESCO world heritage. The locals' pride about their home country was only too obvious, and that's fully justified!

# *jasper* Wonderful. By Nature.

We were surprised by the differences in temperature, early in the morning almost freezing, at noon around 25°C, so we had to be prepared for all weathers.

Wabasso Campground offered us the perfect surroundings for pitching our tent and bathing our feet in the ice cold but refreshing water. The season was coming to an end we had the campground to ourselves. We listened to the

river and animals until the sunset.

Alberta is a great place for stargazers: there are more than 5 billion visible stars and the area is a designated Dark Sky Preserve. Only very view places on earth can offer such remarkable scenery to view the stars. The Milky Way seems so close you could almost touch it.

Early next morning we meet Jeremy, our guide for the next few days. We set off before sunrise to glimpse the town at dawn. After a tough climb up to a view point on Mount Tekarra we are rewarded with a fantastic panoramic view over the 11228 square kilometres of the National Park.

In the afternoon we continue northwards on the Trans Canada Highway: fantastic scenery, rugged mountains, remote lakes and wild rivers.

In the following days we are early benefiting from the wonderful sunshine for great shots on the Athabasca River. The 1230 kilometre long river meanders sometimes tranquil sometimes wild through Alberta's National Park and is a great destination for white water rafting. Impressive steel bridges span the ice blue river and make great photo scenes.

Photo: Yurichi Takasaka

# CANADA

Next morning we get our mountain bikes and explore the awesome single trails in the surrounding mountains. The extensive trails wind through valleys up to Lake Pyramid we don't meet or see a single soul. However, we encounter a black bear mother with two cubs looking for berries. We observe one of the cubs climbing onto a tree. But when the mother bear starts paying us too much attention we

quickly retreat taking an alternative route. Here animals are still in command, and we should respect their habitats.

We need to recover from our exercise and visit Miette Hot Springs, the hottest springs in the Canadian Rockies. The water is cooled down to 40°C; we relax in the pools and enjoy the fantastic panoramic views.

The mountain calls: Whistlers Peak (2600 metres) owes its name to the calls of the numerous marmots living here. Jeremy guides us up the mountain so that we get a view across the entire range and the start of the Indian Summer. When the first sun rays come across the summits of the mountain range we hike up along the ridge and enjoy a breathtaking view of the surrounding Rockies.

After descending we continue to Jasper Park Stables where we are welcome by Dale, the owner. Our team mounts up and we set off to explore the beautiful back country on horseback. We are rewarded with fantastic views of the surrounding valleys.

Enriched by impressions we return to the rustic Pine Bungalows where we are staying. We enjoy a nice dinner with Michal who runs the place, fill up our supplies and get useful information about the region. We learned - by trying - that AAA Alberta Beef is to be highly recommended. Michal organized an old 60's pickup truck for the next day, and we take off to Lake Maligne. The road winds along the valley and past massive mountains. We pass idyllic Lake Medicine and reach our destination after an hour. Lake Maligne is located approximately 50 kilometres southeast of the town Jasper at an elevation of 1670 metres and has a surface of 20 square kilometres. Spirit Island on the lake is one the landmarks of the Canadian Rockies. Quite close to us a black bear foraging for food strolls through the woods, fortunately he is not interested in us.

Pyramid Lake

# CANADA

The weather god is being nice today, and we enjoy a sunny ride back to our accommodation.

Next morning we continue our trip southwards on Icefield Parkway. Besides numerous motor homes and four-wheeler there are many motorcycles traveling on the panoramic road, be it hobby cyclists riding Harleys or touring bikers. Our next stop is Columbia Icefield: an area

of 325 square kilometres to a depth range of 100 - 365 metres and an annual snowfall of up to 7 metres it is the largest accumulation of ice south of the Arctic Circle. Of course we want to see this incredible amount of ice with our own eyes, and together with a guide we set off to explore the glacier.

Equipped with helmets, crampons and ice axes we climb amongst the glacial crevasses melt

water sink holes and seracs. Our freezing feet make us turn back after 2 hours. Replenished with new impressions and experiences we get back on the highway taking us to our starting point Calgary and next day back home.

BRAND  
NEW

### ELEVATION PRO

Light weight, clean design, sturdy fabric: ORTLIEB's newest model, the innovative alpine and mountaineering backpack Elevation Pro, reliable for rock and ice. It is entirely designed for functionality under most extreme conditions. The proven roll closure underneath the flap and the external flap compartment guarantee a high IP rating with regards to being waterproof and dustproof. The external waterproof zipper allows easy access to gear stored inside the lid. There are numerous fixing options for equipment: daisy-chains, waterproof flap compartment, preparation for hydration system, helmet fixing, base loops for crampons, gear loops for trekking poles and ice axe, compression straps suitable for transporting skis or rope.

The contact back system with ventilation channels and anatomically shaped shoulder straps ensure high carrying comfort. The shoulder straps are adjustable and the adjustable chest strap ensures perfect individual fit. Waist straps with gear loops are removable and feature two zippered pockets. The Elevation Pro is available in two capacities: 32 and 42 litres.

#### Further features:

*Abrasion and tear-resistant nylon fabric PS42R | Adjustable elasticated sternum strap with emergency whistle | Inner pocket for optional hydration system with two sleeves, one zippered*

#### Optional accessories:

*Waterproof outer pockets | Bottle Cage | Mesh Pocket | Pad for compressions straps*

## elevation

### ELEVATION

The waterproof backpack with lid closure is the right choice for mountaineering and alpine use. The compact pack is made of tear and abrasion resistant nylon fabric, a real gem when it comes to space and carrying your equipment. Stuff that can get wet and must be quick at hand, like e.g. an ice axe, can be stored outside. The air channel contact back system and the anatomically shaped adjustable shoulder and chest straps ensure high carrying comfort on extended trips. The pack is available in two sizes: 32 and 42 litres.

#### Further features:

*Reinforced abrasion resistant base with strap slots | Attachment loops | Multifunctional compression straps | Daisychain, axe and poles loops | Helmet carrying system | Chest strap with emergency whistle | Removable hip strap with zip pockets and gear racks | Inner pocket with two compartments, one zippered | Hydration tube aperture*  
*Optional accessories: Outer Pockets | Bottle Cage | Mesh Pocket | pad for looping onto compression straps*

## TRACK

This outdoor pack will take up lots of gear for extended tours or several people. The waterproof backpack with roll closure is made of tear and abrasion resistant nylon fabric; it is compact and ergonomic. Two daisychains on the waterproof front pocket plus outer pockets (not waterproof) on the sides for water bottles etc., and trekking pole attachments turn it into a transport talent. A lightweight carrying system with adjustable distance mesh allows air circulation. The backpack is comfortable to carry, with adjustable chest, waist and shoulder straps.

*Further features:*

*Lightweight stainless steel frame | Internal A4 organizer | Valuables pocket | Carrying handle | Hydration tube aperture (up to 10.5 mm) for optional hydration system*

## PACKMAN PRO2

A real favourite for weekend explorations. Whether you are hiking or biking, the robust daypack Packman Pro2 is your best choice. With its padded harness system and waist strap it offers adjustability and excellent ventilation in combination with carrying comfort and perfect fit. The stowaway helmet flap requires little space inside a concealed front pocket. The waterproof Packman Pro2 further features a roll closure with compression straps for packing and compressed volume. Other features include an integrated pocket for an optional hydration system (not included), and two lateral reflectors for visibility at night and in bad weather conditions.

### Further features:

Elastic zippered front organizer pocket (not waterproof!) | Interior zippered valuables pocket | Waterproof aperture for hydration tube (tube not included) | Carrying handle | Helmet fixing

## hip-pack2

### HIP-PACK2

You want freedom not limitations. The ergonomic interpretation of a day pack is called Hip-Pack2. The waterproof waistpack with padded and individually adjustable carrying system and breathable hip pads allows freedom of movement during all outdoor activities or extended sightseeing tours. An extra wide waist strap offers great comfort; the pack may also be carried in the front. The smart system offers space for your essentials from rain jacket to camera, and is super light weight. In addition to the elastic front pocket there are two zippered mesh pockets (not waterproof) and a removable valuables pocket. Two further lateral pockets are provided with a draw cord, e.g. for bottles.

*Further features:*

*Roll closure | Compression straps |*

*Carrying handle | Fixing for rear light*

## big-zip

### BIG-ZIP

Active explorers require heavy duty equipment that can easily handle intensive and continuous use. Big Zip is made of tough welded fabric PD900 with waterproof TIZIP, and offers reliable protection for baggage transport on airline, train, rafts or trekking tours. With a mammoth 140 litres of storage space it will hold everything you need for a long expedition. Big-Zip may be carried on the back with its extra wide padded carrying straps. Padded carry handles on both ends allow portaging by two people. Internal compression straps will keep your equipment in place. Proportioned to carry loads and to keep them 100% waterproof.

### Further features:

*Easy access with long zipper | D-rings for fixing and securing | Tough patches | Padded carrying handles | Easy to clean*

## transporter

### TRANSPORTER

The Transporter is designed for large stuff. The durable, waterproof all-round backpack made of coated polyester and Cordura takes up even huge bulky goods. With the adjustable lid, the reinforced base and external compression straps it is predestined for numerous transport jobs in tough environments. The contoured shoulder straps guarantee carrying comfort.

*Further features:*

*Lid with Cordura folding protection | Loops for fixing gear and rear light (not included) | Carrying handle | Inner pocket*

## x-plorer · x-tremer

### X-PLORER

This stuff sack is the perfect choice for canyoning, climbing or caving. It is also a favourite luggage piece on motorcycles. The combination of rucksack and dry bag is by far lighter than a conventional backpack with carrying system. It is available in two sizes, and when empty, it can be rolled into a flat little package.

*Further features:*

*D-rings at the closure | Handle and bottom loop for tying, locking, hauling or fixing a carabiner | Carrying handle | Easy to clean*

### X-TREMER XL & XXL

There are three things that you need for a new adventure: a little bit of courage, optimal equipment and the sturdy X-Tremer. Whether you choose size XL or XXL, both sizes are huge, and true alternatives to rigid boxes and bulky barrels. Also suitable as protective cover for luggage. And when empty, they are easy to fold flat into a little package.

*Further features:*

*Three D-rings for fixing and locking with e.g. a padlock | Bottom loop for hauling and fixing | Easy to clean*

## DRY BAG PD 350

PD 350 dry bags are fully featured and great value. New colour combinations, proven roll closure and single stiffener bar ensure 100% waterproofness, protection and optimal packing volume. A reinforced base provides stability and easier loading. The models in colour lime feature a valve for deflating and compressing. Available in various sizes to suit all needs.

*Further details:*

*Buckles with two D-rings for securing or locking |  
Bottom loop for fixing or holding during unpacking  
| Reinforced base of PD 620 for increased stability | Easy to clean inside*

## DRY BAG PS 490

Proven on tracks and trails around the world, PS 490 dry bags are versatile and durable. Made with one of ORTLIEB's strongest heavy-duty fabrics, they can withstand just about anything. They feature a roll-down closure with stiffener bar, a tough base that makes packing easier than ever, and D-rings for securing inside a boat or on top of a luggage rack. The PS 490 bags are designed for extreme applications and are even used as haul sacs. New: all sizes 59 litres and above feature additional side handles. The model in black-lime has a valve for deflation and easier packing.

*Further details:*

*Buckles with two D-rings for securing or locking |  
Base loop for fixing or holding during unpacking |  
Easy to clean inside*

# ps 21r · [with window]

## DRY BAG PS21R

The PS21R light-weight drybag made of sturdy PU-coated nylon fabric stores, protects and organizes all sorts of outdoor gear and clothing. Six sizes, three colours and endless storage options! Its high values include extremely high abrasion and folding resistance and lightweight. A base loop serves for fixing, hauling, locking and easy holding during unpacking. The lime coloured bags feature a compression valve.

Further features:

Two D-rings for fixing and locking | Visible indication of volume | Easy to clean

Attention: Closure must be rolled at least 3-4 times prior to immersion into water

## DRY BAG WITH WINDOW

Take the guesswork out of what's packed inside. ORTLIEB Window Dry Bags are light and robust. They feature a translucent panel that lets you see into the bag and quickly find what you need. It stays away your equipment without hiding it. The Window Dry Bags have a secure D-ring attachment and close with our waterproof roll-down closure for quick access. Appreciated during large expeditions and family trips.

Further details:

Buckles with two D-rings for securing or locking | Bottom loop for fixing or holding during unpacking | Easy to clean inside

# ps 10 compression

## COMPRESSION DRY BAG WITH VALVE

No air left! If you can say this about your ORTLIEB compression dry bag, you will be happy about gaining further space inside your pack. By means of the valve mechanism air is expelled from the bag, reducing the packing volume to a minimum. The ultralight nylon fabric PS10 is 100% waterproof - an ideal supplement for non waterproof baggage. The roll closure with a fabric stiffener bar is easy for one person to handle.

Available in 3 sizes.

## COMPRESSION DRY BAG WITH VALVE AND STRAPS

The ultralight compression dry bag is also available with valve and straps for maximum compression. It is particularly suited for compressing sleeping bags.

*Further features of both models:  
Buckles | Robust fabric at base: abrasion and tear resistant PS17 | Broad base loop for easy unpacking and fixing*

technical specifications page 100

# DRY BAGS

ps10

## ULTRALIGHT DRY BAG PS10

Where can you store dirty laundry, wet socks or toys? PS10 pack sacks in four different colours and seven sizes, made from durable nylon material, are the perfect solution. Colour coding helps organize and locate items quickly. Each pack displays volume in litres. Endless storage options inside backpacks or panniers. These robust dry bags store, organize and protect your gear from water, dust and dirt and save you from endless searching.

### Further features:

*Broad base loop for easy unpacking | Reinforced circular base made of folding and abrasion-resistant PS17 fabric | Also available as an ultralight liner with sturdy square-shaped base (31 x 42 cm/ 16.5 x 12.2 in.)*

*Attention: Closure must be rolled at least 5-6 times. Please add 15-20 cm/5-8 in. for the total length.*

# DRY BAGS

ps10/ps33 liner

## DRY BAG LINER PS10/PS33

Sometimes it's what's inside that counts: the durable waterproof liner made of coated nylon fabric with roll closure designed as a rucksack or pack liner. An ideal supplement for non-waterproof duffles, backpacks or trekking packs. It will keep your gear dry and clean. The square shaped base made of abrasion resistant PS33 uses every inch in your pack. Available in three sizes.

*Further features:*

*Easy to clean | Roll closure with stiffener bar and buckles*

*Attention: Closure must be rolled at least 6 times; not submersible*

### DUFFLE

The Duffle is for adventurers searching the extreme and expecting excellent performance. The waterproof travel bag protects clothing etc. from water and dirt, and can quickly be converted into a backpack by using the padded handles as shoulder straps. A long TIZIP zip allows quick access to your gear. Internal straps compress the volume. The tough PS620C base fabric makes it an extremely durable expedition bag.

*Further features:*

*2 internal zippered pockets | 1 outer zippered pocket (not waterproof!) | Daisy chain for fixing and attaching further gear | Easy to clean*

07/2012

### RACK-PACK

This 100% waterproof travel bag has all the advantages of an easy to use dry bag: its flexible and variable packing volume adjusts to any situation and takes all the gear for travelling and sports. The roll closure with stiffener bar has its roots in stuff sack technology. It fits perfectly into bike trailers and sizes S or M can be combined with ORTLIEB Back- and Front-Rollers Plus and Classic on the rack for bike touring. This robust multi-talent bag is also good on motorcycles. Comfortably carried with adjustable padded shoulder strap and carrying handles. Rack-Pack is available in four sizes.

*Further features:*

*Roll closure with stiffener bar | Compression straps | Buckles for combining with bike panniers*

# ACCESSORIES

## notebook sleeves

### NOTEBOOK SLEEVES (not waterproof)

Data protection starts with the laptop transport. Therefore, ORTLIEB developed extra soft sleeves for sensitive hardware. The new 10" version is designed for all standard tablets and Netbooks. The EVA foam which is covered with nylon fabric protects from shock, impacts and crashes. The indispensable transport assistants are just as versatile as the laptop that they protect. Horizontally they fit inside Office-Bags, Zip-Citys and Sling-its (except size XS), vertically they protect equipment inside backpacks and messenger bags. Covered zippers with adjustable and positionable inside corner pads prevent damage. On the rear side the sleeves have external organizers with slots and zippered pockets for important accessories like pens, CDs and USB sticks. The external pocket with folders on the front offer storage for power cord and other small items.

#### Further features:

2 loops for easy removal out of the pocket | Vertical and horizontal zipper, covered on the inside | Available in four sizes.

# CAMERA BAGS

A wide-angle landscape photograph of a mountain range under a clear blue sky. In the foreground, two hikers are standing on a rocky, scree-covered slope. The hiker on the left is wearing a bright green jacket and black pants, holding a camera up to their eye. The hiker on the right is wearing a blue jacket and dark pants, also holding a camera. Both are wearing large backpacks. The terrain is rugged and rocky, with some patches of low-lying vegetation. In the background, several mountain peaks are visible, some with snow or light-colored rock. The overall scene is bright and clear, suggesting a sunny day.

at Whistler Peak, Jasper, Alberta

### Seize the moment

Experienced photographers know that pictures are stronger than words. ORTLIEB has designed a concept for functional transport systems, so that you are not going to miss one of those moments. ORTLIEB camera bags protect highly sensitive photographic equipment from humidity, dust and impacts, but allow in the decisive moment quick access to camera, lens, binocular etc. So when looking for the best moment and the nicest motive you are well prepared. For many years professional photographers and scientists have entrusted their technology to ORTLIEB.

# CAMERA BAGS

day-shot

BRAND  
NEW

## DAY-SHOT

This flexible camera backpack is a favourite for professionals and amateurs alike. It is tough and reliable, and protects sensitive equipment from dust, rain and impacts. The PU coated Nylon pack offers plenty of room for voluminous photographic equipment, additional food, gear and clothing. A waterproof internal compartment is proportioned to take a DSLR camera with zoom lens, two further lenses (wide angle to standard) and one small tele lens, flash unit and 10" laptop. The flap inner pockets hold accessories such as memory cards, rechargeable batteries, filters etc. There are numerous fixing options and gear loops for further equipment like a tripod.

The Day-Shot can be carried with two straps like a backpack (comfortable carrying system) or with only one strap (sling

function) over your shoulder (the other strap can be stowed away in the pack). It may also be carried in the front, and offers the advantage of the camera being quickly accessible for a snapshot thanks to the waterproof TIZIP zipper. A quick lens change does not require the pack to be put down, and it also serves as stable support for the camera for blur-free pictures.

### Further details:

*Carrying handle | Daisychains for fixing further gear | Integrated tripod fixing on front | Outer flap with accessory pocket (not waterproof) | Abrasion-resistant base*

digi-shot

BRAND  
NEW

## DIGI-SHOT

A miracle when it comes to space. The bag is designed for extensive camera equipment. Digi-Shot has a waterproof rigid main compartment and is available in two sizes. Size M offers room for larger SLR cameras with zoom lens and two further lenses (wide angle to standard). Size L is proportioned to take larger SLR cameras with zoom lens, a second body and three further lenses with a flash unit.

The main compartment (of both sizes) features a waterproof zipper and buckle sealed flap for quick camera access. Individually adjustable inner divisions are adaptable to equipment. Filters, rechargeable batteries and other accessories fit into the flap with inner mesh pockets (not waterproof) or the outer mesh pockets with Velcro®. Carrying handle and the comfort padded removable

shoulder strap with snap hook for carrying heavy loads.

*Further features:*

*PU coated Nylon fabric*

*Size M has belt loops and D-rings for fixing to the ORTLIEB camera carrying system (optional accessory) | Size L has tripod attachment loops*

# MOTOR BIKING

## Convenience first !

On the road it's only after a long tour you will realise whether a packing system is convenient and really practical. In cooperation with motor bikers, ORTLIEB has developed a waterproof motorcyclebag edition. The fixing system is now more flexible and the material even more durable. However, visual-appeal also plays a major role for motorcycle products. Therefore, special emphasis was put on design features.

# MOTORBIKING

## moto saddle-bags

### MOTO SADDLE-BAGS

The motorcycle Saddle-Bags are the right choice for adventures on two wheels, be it cruising on a Sunday afternoon or doing the heavy duty trip in constant downpour. The easy-to-load bags feature a waterproof roll closure that keeps your gear dry and clean even in toughest conditions. Easily fixed without requiring a rack - Velcro and fixing straps are included. The symmetrical shape leaves plenty of legroom for the passenger. The large 3M reflectors ensure safety in the dark and rain.

#### Further features:

*Thermo-moulded rear side | Zippered inner pocket | Easy to clean |  
Optional accessory: Shoulder straps*

## *moto speedbags*

### MOTO SPEEDBAGS

On and off road, the waterproof and dustproof Speedbags with side roll closure will accept any challenge. They are presented in the MOTO look, and there are hardly any other double panniers as modern and functional as the Speedbags. Their low design is perfect for enduro and touring bikes with high exhaust pipes. The rigid self-supporting construction replaces the rack: the panniers can be easily fixed with the broad Velcro and straps to the passenger seat. The symmetrical cut offers plenty of storage space without compromise for the passenger. Comfortable carrying handles allow easy transport and handling.

#### *Further details:*

*Thermo-moulded rear side | Zippered inner pocket | Reflector for increased safety in rain, fog, and in the dark | Easy to clean inside*

*Attention: Can only be used as a pair.  
Minimum distance to exhaust pipe 10cm/  
4in.*

## moto tankbag

### MOTO TANKBAG WITH MAGNETIC ATTACHMENT

One of the biker's basics: the waterproof MOTO Tankbag keeps all your necessities at hand that would be unavailable when carried on your back. A piece of luggage that guarantees pure driving pleasure. The adjustable base with anti-slip, tank-protecting surface is suited for almost all standard motorcycle tanks. The MOTO Tankbag is securely fixed with magnets and straps as well as an extra strap attachment around the frame. Alternative fixing as a tail bag is also possible. Easy to attach, fast to access and almost indestructible. The aerodynamic design with tyre tread motif and two-way access make it a faithful companion for touring. A transparent waterproof (22x26cm / 8.7 x 10.2 in.) map-case may be fixed on the Tankbag or directly on the base.

#### Further features:

Roll closure with carrying handle | Sturdy, waterproof zip | Extremely abrasion and tear-resistant fabric | 3M Scotchlite reflector

Optional accessory: Carrying System for MOTO Tankbag

Attention: We recommend using a protective fabric between tank and magnetic base. The magnets are very strong - please keep credit cards away.

## *moto sidebag ql2*

### **MOTO SIDE BAG QL2**

The formula for smart luggage systems. The high performance single bag made of abrasion resistant waterproof fabric for left or right side mounting. QL2 is a synonym for flexibility and mobility: automatic closing and opening of the hooks by lifting the bag's handle. The waterproof roll closure protects documents, luggage and sports gear from water, dust and dirt. A padded handle and shoulder strap make carrying comfortable.

Further features:

ORTLIEB QL2 system for rack diameters up to max. 16 mm | Two large 3M Scotchlite reflectors | Easy to clean | Inner pocket

Recommended accessory: anti-theft device for later upgrade into QL2 rail (order separately)

Attention: Minimum distance to exhaust pipe 10cm/ 4in.

# HORSE RIDING

## horse panniers

### Stay in the Saddle

Imagine the wind in your face, the sun on your skin and only the sound of hoof beats. Enjoy it even more knowing that your gear is kept dry and safe, be it on short horse rides across farmland or multi-day horse treks through the bush. ORTLIEB horse panniers are spacious, waterproof and comfortable for horse and rider.

### HORSE PANNIERS

Enjoy nature, get away from your daily routine and form a team with your four-legged partner: horse back riding is an effective way to escape and slow down. However, you will reach relaxation and your day's destiny only if both - rider and horse - enjoy what they do. This constitutes the development background of our horse panniers. They are designed for perfect packing with compression of volume and tight packing to keep things stable. A rear pad prevents unpleasant chafing. The welded 100% waterproof panniers offer reliable protection from water and dirt, and feature a lid with snow gasket and draw cord. In favour of your horse please watch out for equal weight distribution. It is advisable to use an extra pad or blanket underneath the pack.

The horse panniers feature a tough tear and abrasion resistant fabric that are easy to clean and can be mounted to distance, trekking, military, western and all-round saddles.

#### Further features:

*Including fixing straps | Four 3M Scotch-lite reflectors | Separate accessories: Rack-Pack, inner pocket Input, Outer Pocket*

With almost 10 million square kilometers Canada comprises a huge area of North America. Looking at the country's size alone you can imagine the numerous outdoor activities that Canada has to offer.

Unfortunately we could not do everything during our photo trip, but if you travel to Canada here are some ideas and highlights.

Prince Edward Island in Nova Scotia. A quick trip across Confederation Bridge takes you to Nova Scotia. From there you can bike ride across wind blown Cape Breton Island or participate in a surf camp. The legendary Cabot Trail offers fantastic panoramic views of the North Atlantic.

The Route Verte is not so much a touring bike path but more a network of paths that run all over Quebec through numerous villages and roads along Saint Lawrence River.

Biking in Saskatchewan? Well the country is a flat as a pancake, but Highway 56 runs through the vast 2.5km wide Qu'Appelle Valley close to the Trans Canada Highway which has always been a bikers' best. If your favourite gear includes an old saddle, Wrangler jeans and a lasso then you are in the perfect place. In winter the province offers 10000 kilometer of snowmobile trails.

Numerous roads in the backcountry of British Columbia follow old railroad tracks, as for example the Kettle Valley Rail Trail which offers gentle bends and slight ascents. The section with the breathtaking Myra Canyon 80 kilometers east of Penticton passes through tunnels and over roaring rivers and gorges.

Toronto, the capital of the province Ontario has an impressive network of bike paths. Ontario has got the "bike train" and has therefore become one of the most favorite destinations for bike touring in North America. Paddle and canoe people find here everything they need: the province has more than 400000 lakes and rivers.

Mountain biking in the Yukon. Stay overnight in a yurt in Whitehorse on the shore of the Yukon River and check out several hundred kilometers of trails.

You will most likely see moose, wapiti and black bears when hiking or biking through the boreal forests and southern plains of Riding Mountain National Park in Manitoba.

Whales and icebergs: Newfoundland and Labrador

In the summer you can watch whales, icebergs and birds on the east coast of Canada.

Kite surfing and kayaking in New Brunswick

The most extreme tidal range in the world occurs here, only one of the reasons why the Bay of Fundy was on the shortlist for the new Seven Wonders of the World.

Alberta is the place to go for those who love fat tires. Put your bikes on the car and head for Kananaskis Country, a region with breathtaking Rocky Mountains Peaks, lakes and gentle foothills.

Paddle through the wilderness of Northwest Territories and Yukon.

If you dream of white water canoeing on Canada's most northern Nahanni River this is the place to go. The UNESCO world heritage is a wild and fascinating place in the Northwest Territories.

Please find further information at [www.meinkanada.com](http://www.meinkanada.com)

A woman with short blonde hair, wearing a bright yellow short-sleeved shirt and light-colored shorts, is crouching on a large grey rock in a river. She is focused on using a green and blue water filter to fill a blue hydration bladder. The river water is clear and flows around the rocks. In the background, there is a dense forest of evergreen trees and a rocky hillside under a clear blue sky with a few wispy clouds. The overall scene is bright and sunny, suggesting a clear day.

## watersack · waterbag

### WATERSACK

Goodbye bulky containers. The ORTLIEB Watersack ensures reliable water supply in your camp doing without big and bulky canisters. On tour the Watersack can be packed away taking up very little space, in the camp it offers a generous 10 litres for cooking, washing or even for a shower. The large roll closure opening allows easy filling. The Watersack is made of tear-resistant, waterproof fabric, and the integrated base valve allows easy metering. The Watersack can be combined with the purification filter by Katadyn.

#### Further features:

*Buckles for hanging | Combination with Katadyn filter possible*

*Optional accessories: ORTLIEB Shower Valve, ORTLIEB Hydration Tube*

*Attention: The Watersack is not suited for transportation in horizontal position. For transporting water inside a pack or pannier we recommend our Water Bag or Water Belt.*

## waterbelt · drinkingtube

### WATERBELT

The Water Belt has a variety of attachment possibilities. It can be worn like a fanny pack around the waist or attached to the exterior of a backpack. Combine it with the ORTLIEB drinking tube to create a hydration system.

#### Features:

*Tear-resistant, waterproof fabric | Welded seams | Adjustable strap with buckle for comfortable carrying | Can be combined with outdoor filters for water purification and with the ORTLIEB drinking tube*

fabric PS17L  
 weight 110 g/3.9 oz.  
 volume 2 L/122 cu.in.  
 dim. 16 · 40 cm/6.3 · 15.7 in. (H x W)  
 colours Art.No.  
 blue N49

### DRINKING TUBE

The ideal tool for energetic outdoor activities: with the drinking tube you can transform an ORTLIEB Water Bag, Water Belt or „PET“-bottle into a hydration system: remove valve, insert tube into water container, screw valve back on. The 33.5 in. long tube features a lockable bite-valve and one screw cap.

#### Features:

*Valve inside the cap for pressure compensation inside the container | Mouthpiece can be taken apart for hygienic cleaning*

weight 70 g/2.5 oz.  
 colours blue Art.No.  
 N4201

### SHOWER VALVE

The Shower Valve can be put onto all ORTLIEB water containers. Remove the dust cap, put on the shower valve, and open the tap. The contents of the Water Sack are enough for a pleasant shower. Can also be used as a garden shower or watering can.

*Small holes for constant showering | Quick opening and closing of valve*  
**Attention:**  
*Danger of boiling water! Check temperature prior to use when used in combination with the black water containers.*

## first-aid-kit

### ORTLIEB Light & Fast First-Aid Kits

Lightweight design and essential medical supplies make the ORTLIEB First-Aid Kits a great choice for the prepared backpacker. Compact, tough and, of course, 100% waterproof.

### FIRST-AID-KIT

Never again without: ORTLIEB's First Aid Kits should be an inherent part of your equipment. The First Aid Kits are waterproof sleeves made of PU-coated nylon fabric with roll closure, and are available in four different sizes and safety levels (Regular, Medium, High, Ultra-high). Regular and medium are suitable for most outdoor activities. Safety Level "High" contains (in addition to the basic) supplementary equipment required for a specific field of sports: motor biking, cycling, trekking, canoeing/kayaking, horse riding. The well stocked Ultra High version allows optimal first aid for trekking and cycling sports, and is also designed for small groups. All kits feature belt loops. The models High and Ultra High have additional straps for fixing to a backpack etc.

Further features:

International first aid symbol (white cross on green background) on the front | Versions Medium to Ultra-High feature a removable inner pocket for personal stocking and for

quick access | Fixing for shoulder strap (optional accessory, article code E 16) | Versions Medium and High may also be ordered without contents.

## t-shirt · rain hat

### Typical ORTLIEB

Our engineers have the best ideas in their leisure time when they go hiking, motor biking, mountain biking or camping. Just when you realize that the toilet paper is soaking wet, you are craving for a cup of hot coffee out in the wilderness, or when it is raining cats and dogs and you can't carry an umbrella, a genuine idea might be born.

**BRAND

## coffeefilter-holder · t-pack

### COFFEE FILTER HOLDER

For many outdoor enthusiasts, freshly brewed coffee is a must. No way to replace it by instant powder. With the ORTLIEB filter holder you have a compact and foldable alternative to bulky filters. It is set up with pins, sticks or tent pegs which are inserted through the loops, and placed above the kettle or cup; simply insert the paper filter and coffee, and enjoy your hot cup.

*Heat-resistant material | Also serves as funnel | Comes with 5 paper filters size 1 x 4*

fabric PD620L  
weight 30 g/1.1 oz.

Polyester fabric, PVC-coated

**PD 620L**  
Polyester fabric, PVC-coated suitable for drinking water

**PS 620C**  
Cordura, PVC-coated

**PD 900**  
thick Polyester fabric, PVC-coated

## Different Types of Waterproofness

All materials used and all welding seams are waterproof up to a water column of 100,000 mm. However, the degree of waterproofness and dustproofness of a specific product always depends on the type of closure. It is important that the product is properly and completely closed. This refers in particular to:

**Roll Closures:** they must be rolled 3 to 4 times (e.g. Back-Roller), and 5 to 6 times on ultra light dry bags.

**Velcro Closures:** must be folded 2 times along the entire width (e.g. Safe-it).

**Sealing Closures and Zippers:** must be closed all the way, e.g. camera bag Protect and duffle bag Big-Zip.

**Lid Closure** (and snow gaskets with cord underneath): must be properly closed and fixed with buckles, e.g. Bike-Packer.

## IP Standards

All types of closures used on ORTLIEB products were submitted to simulation tests by LGA QualiTest GmbH, TÜV Rheinland Group, Nuremberg, Germany.\*) These protection standards which have their origins in electronic technologies are referred to as IP, international protection standards, and are increasingly used in the field of leisure activities. Currently, this is the only valid and acknowledged international classification regarding waterproofness and dustproofness. The degree of protection is defined by two figures. Altogether there are 6 protection standards for solid bodies, and 8 protection standards for water.

## Protection against dust

The first figure defines the protection degree of a product against the penetration of solids and contact. 5 and 6 refer to the protection of dust and contact (e.g. by hand).

### Protection against water

The second figure defines the protection degree against water. 7 e.g. stands for the protection against water penetration at a defined water depth during a determined period of time.

**Example:** IP 64, ORTLIEB Back-Roller; this product is dustproof and is protected against splashwater coming from all directions.

ORTLIEB products are classified according to the following protection standards depending on the type of closure used on the product:

IP5X: The product is protected against dust. Slight penetration of dust possible.

IP6X: Product is dustproof. No penetration of dust.

IPX3: Protected against spray water (max. 60° to the vertical).

IPX4: Protection against splashwater coming from all directions.

IPX7: Protection against penetration of water during temporary immersion; depth: 1 meter / 39 in. (lower edge of product), duration: 3 minutes

\*) IP international protection standard examination according to DIN EN 60529:2000  
See als: [www.ortlieb.com/ip-symbols](http://www.ortlieb.com/ip-symbols)

### Manufactured according to ORTLIEB standards

Our coated fabrics are not standard fabrics but are particularly developed for a specific field of application, and are manufactured according to our company quality requirements.

### Folding-resistant up to 100,000 folds

We have very high quality expectations concerning the folding resistance of a fabric, because numerous products are provided with the „roll closure“.

### Quality Control

All important material characteristics are continuously controlled at goods received. The mounting components of bike panniers are subjected to extreme riding simulation tests.

### Azo-free dyes

Although ORTLIEB products are not subject to the AZO ordinance, we only use AZO-free dyes.

**PVC free:** We use PVC free materials if technically possible and logical.

Various types of waterproof zippers are available. They guarantee IP protection IP67
