**ORTLIEB** WATERPROOF

## WHERE ORTLIEB IS, IS OUTDOORS. FOR 35 YEARS.

Everything began in 1982 in a backyard garage in Nürnberg. The product: durable, hand-sewn bike bags, soon to be followed by seam-welded, waterproof bike bags. And now, 35 years later, the name ORTLIEB captures the attention of outdoor enthusiasts throughout the world. It is a name that stands for clever functionality, robust quality, long service lives, sustainability and faultless waterproof performance. All of the company's products are still produced entirely in Germany, in the rather peaceful town of Heilsbronn near Nürnberg. What is typical of the ORTLIEB enterprise is a steadfast spirit of invention. We live this spirit as we continue to create the outdoor innovations our customers will soon deploy in the Harz Mountains of Germany, in the Himalayas, in the city of Hamburg and on the islands of Hawaii.

What's new to discover from ORTLIEB in 2017? Two items include the first icebox for your bike and the world's first waterproof bike-packing set for off-road bike tours. No matter whether you want to keep your favorite champagne cool or take all of your camping equipment along with you,

whether you have 13 kilometers ahead of you or 3,000 miles, you'll find the right equipment at ORTLIEB for your micro-adventure close to home and your next expedition to Shangri-La! And you don't need to be riding a bike to enjoy the advantages of these products. They're built for everyone who loves to be outdoors no matter what the weather – on foot, on horseback or in a canoe.

But there's also an "outdoors" in the city. And to enhance your urban experience, ORTLIEB offers you high quality, waterproof bike bags, backpacks, office bags and travel bags that accompany you on your way to work or to the next big city. For more inspiration, information and videos, go to our website at [www.ortlieb.com](http://www.ortlieb.com), or visit us on Facebook, Instagram, Twitter or our YouTube channel. Can't decide what to purchase? The one product has a roll closure and the other a cap closure? Check out our how-to videos to lighten your decision.

## ORTLIEB QL MOUNTING SYSTEMS:

### QL3.1

These systems are especially developed for office and city bags, and their secret lies in the fact that the main mounting components remain on the rack. This results in a smooth rear side of the bag that is free of protruding hooks, and significantly improves the bag's carrying comfort when off the bike.

The optimized QL3.1 mounting system allows fixing of panniers to the rack in an even more simple and faster way. The bag is inserted into the lower mounting point, and by approaching the rack, the top hooks slide into the upper reception points by means of a left to right motion. Removal of the bag is just as simple and fast: simply lift the bag by its handle and move it at the same time to the left or right.

Office-Bag QL3.1

#### THE SYSTEM HAS THE FOLLOWING COMMON FEATURES:

- + Comfortable single-handed operation
- + Automatic closing and opening of the hooks by lifting the pannier handle
- + Fixing rail can be mounted on left or right side, and optionally on horizontal or vertical bars of rack (up to 10 mm)
- + Direct mounting (no mounting rail required) to rack Rack1 and Rack2 with integrated QL3/QL3.1 fixing (art.no. F78101 and F78102)
- + Sufficient legroom due to variable height and angle
- + Lower hook rotatable in 360° (24 steps each 15°) for individual adjustment to various racks with a tube diameter up to 14 mm
- + Horizontal rack top remains free for baskets, trunkbags etc.
- + Additional mounting sets available for attaching bags to other bikes (art.no. E201)
- + Optional set of brackets available as accessory for 11 to 14 mm tubes (art.no. E190)
- + Bags with QL1, QL2 and QL2.1 systems can also be fixed to the mounting rail

### QL2.1 SYSTEM

This mounting system QL2.1 for bike panniers is the further development of ORTLIEB's milestone setting QL1 system. All hooks are adjustable to the rack without requiring any tools. Therefore, the panniers can be easily switched from one bike to another. The QL2.1 system may be upgraded with the anti-theft device (not possible in QL1).

Back-Roller Classic

Anti scratch

#### THIS INNOVATIVE SYSTEM HAS THE FOLLOWING FEATURES THAT DISTINGUISH IT FROM OTHERS:

- + Comfortable single-handed operation
- + 16 mm QL hooks with inserts which have an „anti-scratch“ function for 8, 10 and 12 mm. In QL2.1, the reductions inserts are attached from the sides and secured against loss.
- + 20 mm QL hooks are optionally available for racks with larger diameters (17-20 mm) as often used on E-bikes.
- + The upper mounting rail consists of one piece for high stability. With models Office-Bag and Downtown it can be adjusted to the left or right side of the bike rack.
- + The special assembly system allows the use of extremely flat nuts on the inner side thus featuring a level surface and avoiding damage to whatever you bring along.
- + The lower hook rail is made of a two-component synthetic combination with „anti-scratch“ function. This reduces abrasions on the carrier and prevents damage to the rack tubing. The lower hook is rotatable in 15° steps and adjustable in height.
- + All hooks are adjustable to the rack without requiring any tools and can be easily exchanged.
- + Optional upgrade with anti-theft device into the upper rail.

### QL1 SYSTEM

The QL1 System was ORTLIEB's first mounting system for bike panniers which allowed a single-handed mounting on and removal of panniers from the bike rack. The automatically closing hooks replaced the complicated attachments with straps and buckles which were slow and unreliable. Thousands of the indestructible mounting QL1 system have now been used for decades on ORTLIEB bike panniers and are still in use.

Back-Roller City

#### THE QL1 SYSTEM FEATURES:

- + Optimal fit on all racks with a tube diameter up to 16m (inserts for 8/11 mm inclusive)
- + Comfortable single-handed operation
- + Automatic closing and opening of the hooks by lifting the pannier handle
- + Large adjustment range of QL1 hook on hook rail
- + Large adjustment range (horizontal and vertical) in 15° steps of lower hook on semi-elliptical rail

### RACK-LOCK

#### THE CLEVER MOUNTING SYSTEM FOR BIKE RACKS

Although there are only four little clamps, two rigid clamps and two flexible clamps, their arrangement and function are ingenious: the ORTLIEB Rack-Lock system is a completely new, universal system for mounting bike bags and baskets directly to your bike rack. This makes additional adapters unnecessary and your bike rack remains free of annoying attachments.

The Rack-Lock system allows you to mount your bags to your bike rack in seconds (2). Just apply a little bit of pressure, and your bag or basket snaps into place (3). Removing your bags is just as quick and convenient (4), with the release lever even offering an additional function: it can be removed and used as a key to securely lock your bag of basket to your bike rack. This means that you don't need to take your bag or basket with you after parking your bike.

The Rack-Lock system is attached to the underside of your bike bag or basket and can be adapted with minimal effort to fit on virtually any commercially available bike rack, including racks with spring

clamps. The four clamps with anti-slip inlays (1) are also adjustable in width and can be moved 180°. The Rack-Lock adapter ensures stable mounting with rack element diameters of 8 to 16 mm and rack widths of 60 to 160 mm. Each bag or basket can be loaded up to a weight of 10 kg.

The Rack-Lock system was presented for the first time at the international EUROBIKE 2015 trade exhibition and was promptly selected as the winner of the coveted EUROBIKE AWARD, one of the one of the most prestigious awards in the bicycle industry.

# WATERPROOF

What's behind the legendary "Made in Germany" waterproof quality? We work exclusively with durable materials, advanced bonding methods and proven types of closures. For instance, we use high

frequency welding to meet the highest of waterproofing specifications. This helps to distinguish ORTLIEB products as true outdoor champions compared to other merely sewn or glued products.

# WATER-PROOF OUTDOOR EQUIPMENT.

## ADVANCED BONDING METHODS

The coated fabric used by ORTLIEB – including all welded seams – continues to resist leaking when exposed to a 100,000 mm column of water! This extreme degree of waterproofing is achieved using a process known as high frequency welding (HFW). Instead of applying heat from the outside, HFW involves the application of high frequency voltage to the objects that need to be welded. The voltage causes the molecules within the various materials to vibrate and, essentially, to generate heat. Softened from within by the heat, the materials are then bonded under high pressure, leaving the welded seam at least as strong as the surrounding material.

## PROVEN CLOSURES

The third important factor for high waterproof and dustproof performance is the type of closures used. All of the closures used in ORTLIEB products are subjected to extensive environmental simulation testing. One common test parameter is referred to as ingress protection (IP). Originally used in the field of electrical engineering, IP ratings have become increasingly common in the outdoor recreation sector.

## WATERPROOF RATINGS: WHAT'S BEHIND THE NUMBERS?

A standard procedure (ISO 811) is commonly used to determine the degree to which a material or fabric is waterproof. Sometimes referred to as the hydrostatic head test, the procedure determines the pressure – measured by the height in millimeters of a column of water held in a tube above the fabric – at which the fabric begins to leak. A piece of fabric that shows no signs of leaking when placed under a 4,000 mm column of water is essentially capable of withstanding the hydrostatic pressure objects are exposed to at a submerged depth of four meters.

### 1. FLAP CLOSURE:

Flap closures protect against dust and spray water from angles of up to 60° to 90°. Also available with a snow shield or an additional roll closure, the flap accomplishes its mission on every outing. Snap buckles and hooks are used to secure the flap's closure. Products in the City Line are typically outfitted with magnetic fasteners to facilitate handling.

### 2. ROLL CLOSURE:

The roll closure is a simple, effective and highly versatile means of keeping the inside separate from the outside. It is completely dustproof and protects the contents of ORTLIEB bags against spray water from all directions. The roll closure gains its stability and waterproof quality from the thin plastic stiffener bars sewn into the upper end of the material. The height or volume of packed bags can also be reduced by rolling up the material further. Those interested in maximum compactness are encouraged to select the model with the integrated valve. In the case of the protective covers, the roll closure is combined with a Velcro closure.

### 3. QUICK-SEAL-CLOSURE:

The Quick Seal Closure allows you to quickly open and close your ORTLIEB bag by simply moving a slider along two flexible plastic profiles. The closure reliably protects the inside of the bag against dust and spray water from all directions. Ideal for daily use! Advice: The Quick Seal closure may not work properly at temperatures of less than -5°C/23°F.

### 4. WATERPROOF ZIPPER:

TIZIP zippers reliably prevent water and dust from entering your ORTLIEB bags. The inside of the bags will remain dry when submerged under 1 meter of water for a period of 30 minutes. The waterproof and dustproof design leads to a slightly greater degree of friction when opening and closing the bag.

## WORLD TRAVELER

Ready for a tour across Europe, Asia or even around the world? Embark on a challenging and breathtaking adventure with your bike loaded to a maximum. With every ounce making a difference, it's a good thing that ORTLIEB bags are so lightweight. And even when

facing a hard driving rain on a long stretch of road, you'll have no reason to get discouraged because not a drop will make it into your bag's interior. You'll simply keep going onwards towards the sun.

## BACK-ROLLER PRO PLUS

If you sometimes have trouble deciding which extra T-shirts to take along, or whether you should take two pairs of shoes or three, you may want to switch to ORTLIEB because the world's largest waterproof bike bags have plenty of space for everything you need. The Back-Roller Pro Plus is the XL version of the popular Back-Roller Plus touring bag. With a volume of 70 liters per pair, it offers almost twice as much stowage space. It's also the first ORTLIEB Back-Roller with an additional front pocket. Although not waterproof, the pocket is unusually practical, offering 4 liters of space for water bottles, sunscreen, wet things, and other items. The durable Codura fabric gives the bag a noble, woven-fabric look, and is also completely PVC-free. The proven roll closure keep the contents of the inner compartment clean and dry at all times. Thanks to the ingenious QL2.1 system with its self-closing hooks, you can conveniently mount your bags on almost any bike rack.

### OTHER PRACTICAL FEATURES:

Integrated inside pocket | shoulder strap | high luminosity reflectors on both sides | right and left-side mounting | tool-free adjustable QL system – fits on all tubes with a diameter of up 16 mm

## BACK-ROLLER PRO CLASSIC

The largest bike bags in the world are also available in wear-resistant, waterproof tarpaulin material made of polyester. They offer the same payload as the Plus version. The remaining features are identical to those of the Back-Roller Pro Classic: additional front pocket, proven roll closure, and ingenious QL2.1 system for a super convenient and secure attachment to virtually all commercially available bike racks. Those who hesitate owing to a lack of stowage space to venture off on a bike tour around the world, a European bike vacation or a multi-day tour with the family will definitely no longer have any excuses! Time to pack up and take to the road!

### OTHER PRACTICAL FEATURES:

Integrated inside pocket | shoulder strap | high luminosity reflectors on both sides | right and left-side mounting | tool-free adjustable QL system – fits on all tubes with a diameter of up 16 mm

## TRAVEL-SET

This waterproof luggage system allows experienced cyclists to carry all the necessities for extended touring or weekend family trips. Plenty of room combined with excellent comfort. Clothes can be stowed away crease-free in the large suitcase. Four inner pockets, two zippered, two internal compression straps and an outer mesh pocket provide plenty of possibilities to store your gear. All other equipment is packed in the rear panniers Bike-Tourer. Valuables and money are to hand in the handlebar bag Ultimate6 Plus. The included anti-theft device means that the panniers may be left on the bike, deterred from unauthorised removal. Optional accessories include the Outer-Pocket size S, the Bottle Cage and Mesh Pocket.

**THE TRAVEL-SET COMES WITH:**

## BIKE-TOURER

Nothing less than a great companion, the ORTLIEB Bike-Tourer has been proving itself on bike tours for years – from weekend outings to trips around the world. Made of waterproof and abrasion-resistant nylon fabric, the Bike-Tourer may appear inconspicuous, but its inner qualities make it a true champion. This can be seen in all of the Tourer's features, including its sophisticated interior layout and the separate front compartment where you can stow things like tissues, sunscreen, keys and many other items you may need to access in a hurry. The QL2.1 system enables you to quickly and conveniently attach the Tourer to your bike. The shoulder strap allows you to carry the bag comfortably once you reach your destination. The bag's four feet ensure standing stability and protection against abrasive or dirty surfaces. Those who need more stowage for their gear can combine the bag with the Travel-Biker or the Trunk-Bag.

### FURTHER FEATURES:

QL2.1 mounting system for all bike racks with tube diameters of up to 16 mm | special inserts allow you to reduce the size of the rack hooks to 12, 10 or 8 mm | large, high-luminosity 3M Scotchlite reflectors | carrying handle

Those who wish to be prepared for any situation on the road make the right choice with the Travel-Biker. The handy suitcase is designed for carrying clothes; stylish clothing will arrive dry with minimum creases. Four internal pockets, two of which zippered, and two compression straps help keeping things in place. An outer mesh pocket and elastics on the lid offer additional room for extra gear. The waterproof Travel-Biker is ideal for use on touring or trekking bikes. With a "click" it is fixed fast and easily onto the rack adapter: simply slide on and click in. The Travel-Biker can be combined with all ORTLIEB bike panniers. Maximum capacity: 10 kg / 350 oz. (check capacity of rack).

### FURTHER FEATURES:

padded carrying handle with reflective material | four base feet

### OPTIONAL ACCESSORIES:

wider frame for the adapter (art.no. E199) | shoulder strap  
(art.no. E33)

## BIKE-PACKER PLUS

The perfect pair of bags for any adventure: you'll be astonished at how much gear fits in the ORTLIEB Bike-Packer Plus! The classic flap closure is easy to operate and provides a maximum of stowage on top. The waterproof, three-dimensional front compartment offers additional space for many of the small items you may need to access quickly while en route. The durable, high quality Cordura fabric provides optimal protection against water, dust and abrasion. Thanks to the proven QL2.1 system with self-closing hooks, attaching the Bike-Packer Plus to your bike rack and removing it again is a matter of seconds. All of these features allow you to devote your attention to your tour and the beautiful sights to see along the way, no matter what the weather!

## SPORT-PACKER PLUS

The waterproof Sport-Packer Plus made of tough Cordura fabric is perfectly suitable as lowrider pannier in the front, "small" rear pannier or for children's bikes. The QL2.1 fixing offers quick and comfortable single-handed mounting to the rack.

# THE PLUS ON EVERY TOUR.

## BACK-ROLLER PLUS

Strong, streamlined and unusually practical – in Massachusetts or Mongolia. The ORTLIEB Back-Roller Plus is the ideal bike bag for those who prefer the convenience of the roll closure system. The durable, waterproof, dustproof, abrasion-resistant and high quality Cordura fabric ensures optimal protection for your gear. Equipped with the sophisticated QL2.1 system with self-closing hooks, the ORTLIEB Back-Roller Plus attaches to your bike in a flash. And simply use the easily detachable shoulder strap to carry your bike bag comfortably once you've arrived at your destination. Anything else to consider? Well, you'll want to select your favorite from among the range of fashionable colors.

### FURTHER FEATURES:

QL2.1 mounting system for all bike racks with tube diameters of up to 16 mm | special inserts allow you to reduce the size of the rack hooks to 12, 10 or 8 mm | 3M Scotchlite reflectors | inside pocket

## SPORT-ROLLER PLUS

Sturdy and tough for rough conditions. The Sport-Roller Plus made of abrasion-resistant Cordura is designed for lowriders in the front or for the rear rack; it is also the right choice for children's bikes. The handy roll closures are completely waterproof, and provide plenty of room for your belongings. With the QL2.1 system fixing to the rack is quick and easy.

### ADVICE:

The Back-Roller and Sport-Roller (except City-Line models) can be combined with the ORTLIEB Rack-Pack on the rear rack.

# BIKE-PACKER CLASSIC

Made of durable polyester fabric and long known as an ideal pannier for extended tours in any kind of weather, the spacious Bike Packer Classic is now available with the QL2.1 rack mounting system. The advantage of this faithful companion at your rear wheel: greater transport comfort, stability and safety.

**FURTHER FEATURES:**  
 shoulder strap with snap hook | base feet | dust/snow gasket under the lid with cord | inner pocket | 3M Scotchlite reflectors

**OPTIONAL ACCESSORIES:**  
 carrying system | outer pocket size S | mesh pocket | bottle cage | anti-theft device | 20 mm hooks for QL2.1

# SPORT-PACKER CLASSIC

The compact size of the Sport-Packer Classic makes it the perfect pannier for short tours, as front pannier with additional storage room for the lowrider or for children bikes. Simple mounting and removal from the rack is guaranteed by the QL2.1 fixing.

**FURTHER FEATURES:**  
 shoulder strap with snap hook | base feet | dust/snow gasket under the lid with cord | inner pocket | 3M Scotchlite reflectors

**OPTIONAL ACCESSORIES:**  
 carrying system | outer pocket size S | mesh pocket | bottle cage | anti-theft device | 20 mm hooks for QL2.1

**ADVICE:**  
The Back-Roller and Sport-Roller (except City-Line models) can be combined with the ORTLIEB Rack-Pack on the rear rack for waterproof transport of tent, sleeping bag and mattress.

## ULTIMATIVE TOURING FUN

Ultimate handlebar bags are typical ORTLIEB originals: handy, light weight bags that take lots of gear. Well thought out design, stable form and rigid lid keep them in shape.

The handlebar bags can be locked to the adapter, which is compatible with KLICKfix by Rixen&Kaul.

## ULTIMATE6 PRO E

PS36C	18/7.1	23.5/9.3	14/5.5	7/427	800/28.2

Make low battery power a thing of the past! The Ultimate 6 Pro E allows you to recharge while riding your bike. This practical touring handlebar bag offers the right platform, allowing you to operate your mobile devices (e.g. for navigation) with the power you generate via your hub dynamo. All you need is an appropriate converter that can be purchased separately. Thanks to the contacts integrated in the handlebar bag's mounting device, a power connection is established automatically as soon as you attach the bag to the handlebar.

### FURTHER FEATURES:

suitable for handlebars up to 31.8 mm. (not for carbon handlebars) | compatible with the KLICKfix system by Rixen&Kaul | 3M Scotchlite reflector | large outer mesh pocket (not waterproof) | velcro closure | external base loops for straps | max. capacity 5 kg

### OPTIONAL ACCESSORIES:

Map Case | Safe-it | Extension adapter for mounting to highly curved handlebars | additional mounting set (e.g. for a second bike) | padded Camera Insert | straps for base loops | cable adapter set

### SUITABLE TRANSFORMER:

Busch + Müller light „Luxos U Lumotec IQ2“ | Supernova „The Plug“ | Busch + Müller „E-Werk“ or „USB-Werk“

## CABLE ADAPTER SET FOR ULTIMATE6 PRO E

Cable set for USB cables for connection of peripherals. These cables are required for connection of a converter (between hub dynamo and mobile end device inside the Ultimate6 Pro E handlebar bag), such as e.g. Busch + Müller „E-Werk“ or „USB-Werk“, or lights „Luxos U Lumotec IQ2“ or „The Plug“ by Supernova.

## ULTIMATE6 PRO

The professional touring companion made from PU coated Cordura. GPS or other touch screen mobile devices can be safely stored inside the lid, and easily operated through the transparent waterproof window. Opening the magnetic closure lid is fast, easy and single-handed. The main compartment is subdivided and includes a zippered internal valuables pocket and a key-holder snap hook. Padded removable Velcro dividers allow flexible positioning. The waterproof bar bag can be carried with the removable shoulder strap. The Ultimate6 Pro offers double anti-theft protection; once fixed to the handlebar the lid can be locked with a single turn of the key and the bag itself is locked to the adapter with the integrated lock.

### FURTHER FEATURES:

suitable for handlebars up to 31.8 mm. (not for carbon handlebars) | compatible with the KLICKfix system by Rixen&Kaul | 3M Scotchlite reflector | large outer mesh pocket (not waterproof) | Velcro closure | external base loops for straps | max. capacity 5 kg

HANDLEBAR BAGS

## ULTIMATE6 PLUS

This waterproof handlebar bag is the perfect storage for maps, papers, wallet etc. The Ultimate6 Plus made from PU coated Cordura fabric offers plenty of space for valuables. Once attached to the handlebar, a single turn of the key prevents the lid from being opened and the bag from being taken off the mounting. The removable internal dividers allow flexible design of the interior. The magnetic lid is easy to operate, opened single-handedly and it locks almost automatically.

## ULTIMATE6 S PLUS

If you're on the lookout for a more compact handlebar bag, you may want to consider the ORTLIEB Ultimate6 S Plus. Made of durable, water-resistant Cordura fabric and sporting a 5-liter payload, the bag gives you the space you need for the things you want to be able to access in a hurry. The transparent flap compartment with an internal dimension of 22 x 10 cm offers you an entirely waterproof and easy-access space for your smartphone, GPS device, map and other items. And, yes, you can also operate your touchscreen devices through the plastic cover. You can easily open and close the magnetic clasp with one hand. Thanks to the detachable shoulder straps, you can transform your handlebar bag into a practical shoulder bag whenever you like. You can also lock the flap of the bag and the handlebar mount for maximum security.

### FURTHER FEATURES:

Lockable mount with two keys | suitable for handlebars with a tube diameter of up to 31.8 mm | mount compatible with the ORTLIEB E-Bike-Adapter and the KLICKfix by Rixen&Kaul | inside zippered compartment with key carabiner for stowing valuables | ventilation slits in the flap compartment to prevent device overheating | front reflector made of 3M Scotchlite Reflective Material | additional small reflector on the mount block | 5-kg maximum load

## ULTIMATE6 S CLASSIC

NEW!

Made of durable and waterproof polyester fabric, the ORTLIEB Ultimate6 S Classic is a compact handlebar bag. With a 5-liter payload, the bag offers you plenty of space for your valuables and everything else you need to be able to access quickly while out for a ride. The transparent and waterproof flap compartment with an internal dimension of 22 x 10 cm makes for a highly convenient space to put your smartphone, GPS device, map and other items. You can also operate your touchscreen devices through the plastic cover. And opening and closing the bag with one hand is a snap thanks to the magnetic clasp. The detachable shoulder strap allows you to transform your handlebar bag into a shoulder bag when you arrive at your destination. And go ahead and lock the handlebar mount and the flap of the Ultimate6 S for greater security.

### FURTHER FEATURES:

Lockable mount with two keys | suitable for handlebars with a tube diameter of up to 31.8 mm | mount compatible with the ORTLIEB E-Bike-Adapter and the KLICKfix by Rixen&Kaul | inside zippered compartment with key carabiner for stowing valuables | ventilation slits in the flap compartment to prevent device overheating | front reflector made of 3M Scotchlite Reflective Material | additional small reflector on the mount block | 5-kg maximum load

### SUPPORT FOR HANDLEBAR BAG MOUNTING SET

The multifunctional two part mounting support creates additional space on the handlebar, e.g. for light, speedo, navigation device or e-bike display. The set consists of a left and right support; it can be mounted as a pair (e.g. required for Bosch e-bike displays) or individually. The supports are adjustable in height and allow simultaneous use of a battery light and an Ultimate handlebar bag.

### MAP CASE FOR ULTIMATE

If you like to use good old-fashioned maps on your bike tours, then the waterproof map case with roll-Velcro closure will be a welcome accessory for your ORTLIEB Ultimate handlebar bag. Use the attachment set to attach your map case to your Ultimate bag in seconds. You can even turn and fold the map. And when you've reached your destination, you can continue to use the map to chart your course no matter what the weather.

A cool idea for hot days: the dimensionally stable, lightweight insert made of EPP (expanded polypropylene) transforms your ORTLIEB Ultimate6 M handlebar bag into a compact icebox for your bike. The innovative, food-safe material of the insulating box keeps your break-time snacks and beverages cool and fresh while you're out on summer bike tours. And don't forget to stow your smartphone in the box to protect it from the heat.

#### FURTHER FEATURES:

Attachment set | compatible with all Ultimate handlebar bags (except for the Ultimate Compact) | transparent front and rear cover made of tear-resistant and UV-resistant polyurethane | internal dimension: 28 x 27 cm | suitable for all standard map formats

#### FURTHER FEATURES:

Suitable for the Ultimate6 M Plus and Classic | outstanding insulating properties

## E-BIKE MOUNTING SET

Many e-bike owners are well-acquainted with this problem: bags and baskets that can't be attached to the handlebar because the e-bike display is in the middle of the handlebar. The ORTLIEB E-Bike Mounting Set comes to your assistance without forcing you to relocate the display. The lockable adapter is mounted to the handlebars with the proven cable fastener. This gives you a theft-proof way of attaching your ORTLIEB handlebar bags and baskets despite the display. The fastener is made for attachments of up to 5 kg.

black  
No. E207

**DATA** PVC free

PA 150/5.3 g/oz.

### FURTHER FEATURES:

Suitable for all handlebar diameters up to 31.8 mm | duplicate set of keys | mount compatible with products by Rixen&Kaul (KLICKfix System) | bags can be locked to the handlebar with the integrated lock | additional safety in traffic thanks to the reflective material on the mount block

## EXTENSION ADAPTER

black  
No. E165

**DATA** PVC free

PA 100/3.5 g/oz.

The ORTLIEB handlebar bags and baskets can also be mounted to strongly bent comfort bars such as Modolo or Humpert by using the extension adapter between the mounting set and the handlebar. Usable only in combination with the lockable mounting sets (E164 & E185).

## PADDED CAMERA INSERT

Ideal if you need your camera equipment or binoculars right with you, but at the same time safely protected. The padded camera insert made of nylon is simply inserted into the Ultimate2-6 models (M and L), and converts your handlebar bag into a professional camera bag. Formfit storage of photo, video or optical equipment.

## SAFE-IT

**NEW!**

Need a reliable means of navigation while out on your bike and no matter what the weather? Thanks to its transparent sleeve and proven roll closure, the Safe-it protects your smartphones, tablets or GPS devices against the rain, spray water and dust, allowing you to continue operating them, including the side buttons, despite the inclement weather. Use the attachment set to conveniently attach your Safe-it-protected device to your ORTLIEB Ultimate handlebar bag and your bike navigation system will be all set to guide you to your destination.

### FURTHER FEATURES:

Tear-resistant, UV-resistant polyurethane | protection against dirt, scratches and liquids | adjustable drawstring cord | transparent window on rear for cameras | lightweight design | sizes S and M come with straps for attachment to belts and backpacks | suitable for mounting your Safe-it to all Ultimate handlebar bags (except for the Ultimate Compact) when used in combination with an attachment set (Article No. F1420)

# BIKEPACKING

**BIKEPACKING IS AN OUTDOOR ADVENTURE THAT STARTS WHERE BIKE TOURING STOPS: AT THE END OF PAVED ROADS.**

If you want to feel simultaneously free and at home in nature, the combination of biking and sleeping outdoors is just the thing for you. What you need: a gravel grinder, a mountain bike or fatbike, a thirst for adventure, and light baggage. The bikepacking equipment from ORTLIEB lets you set off immediately – for a long day's excursion, an overnight trip, or a multi-day tour. With the different packs, you can quickly store everything you need over the whole bicycle so that it is compact and absolutely watertight. Longer distances? Varied terrain? No problem at all! Thanks to the low overall weight, you will be sportily on the move and can fully satisfy your thirst for adventure.

**WATER-PROOF.  
TOUGH.  
ULTRA-LIGHT.**

## HANDLEBAR-PACK

Indispensable if you're planning to spend nights in the great outdoors while on your bikepacking tour, the ORTLIEB Handlebar-Pack is a waterproof pack with 15 liters of space for your sleeping bag and sleeping pad. It also helps to ensure a balanced pack and load distribution on your bike. Thanks to the two-sided roll closures, you can easily access your stuff at any time. Compression belts and drawstrings on the outside enable you to stow and attach additional equipment. If you need extra volume, use the four hooks to attach the Accessory-Pack to the Handlebar-Pack. The mounting system, consisting of spacers and two straps with ultra-strong Velcro closures, ensures a stable attachment to any handlebar type. Integrated plastic stiffeners on the inside of the handlebar pack and an attachment fixture for the head tube provide reliable stability in any terrain.

**FURTHER FEATURES:**

Also suitable for carbon handlebars | straps with Velcro closures for easy mounting | lightweight design | high-luminosity 3M Scotchlite reflectors

## ACCESSORY-PACK

What should you do with all those small, but important extras on your bikepacking tour? The best place to put your snacks, smartphone, rain slicker and other items is in your ORTLIEB Accessory-Pack. This convenient volume expander for your Handlebar-Pack keeps your things secure, absolutely waterproof and quickly accessible at all times. Use the metal hooks to securely attach the Accessory-Pack to the four points of attachment on the Handlebar-Pack. And if you don't plan on spending the night outdoors and don't need your Handlebar-Pack, you can still use your Accessory-Pack as a handlebar bag thanks to its pre-mounted Velcro straps. You can even use the carrying strap to transform the lightweight bag into a shoulder or hip bag.

**FURTHER FEATURES:**

Also suitable for carbon handlebars | lightweight design

## SEAT-PACK

**NEW!**

All systems go for your next bikepacking adventure! Conveniently mount the ORTLIEB Seat-Pack to your seatpost with the help of two extra strong Velcro straps. In addition to its other duties, the seatpost bag serves as a fender in off-road terrain. The spacious, waterproof Seat-Pack keeps your extra clothes dry. Go ahead and dial in the pack's volume from 8 to 16.5 liters via the roll closure on the side to meet your stowage needs. Use the convenient compression valve to make your pack even more compact. And what should you do with your jacket on those uphill stretches? Simply stow it under the quick-access, X-link restraining cord on the top of the pack. And once you arrive at your destination, you can use the Seat-Pack as an ideal replacement backpack, no matter whether you're out with a cross bike, mountain bike, road bike or electric mountain bike.  
 Note: You'll need 20 cm of free space on your seatpost to mount the Seat-Pack.

### FURTHER FEATURES:

Also suitable for carbon seatposts | lightweight design | four 3M Scotchlite reflectors for various roll volumes

## FRAME-PACK

**NEW!**

Bikepacking is also about embracing minimalism. You head off on your bike into the great outdoors, away from it all for an extended period. The amount of gear you can take is limited! The ORTLIEB Frame-Pack allows you to exploit your bike frame to create valuable stowage. Thanks to its lower center of gravity below your top tube, the Frame-Pack makes for an ideal stowage location for heavy gear such as tools, camping stoves and food supplies. The proven, waterproof nylon fabric and the waterproof zipper ensure that your things remain absolutely dry even in the most inclement of weather. Mounting the Frame-Pack with the ultra-strong Velcro straps to the top tube, seat tube and down tube is a snap. The Frame-Pack is available in a 4-liter size and a 6-liter size – depending on the size of your bike frame.

## - THE JAPANESE ODYSSEY -

"When it Rains in Japan"

I had just arrived at the airport in Hamburg after finishing an assignment and was waiting for my luggage when my telephone rang. It was someone by the name of Timo at Pelago Bicycles in Finland. "Carlos?" he said, before continuing, "Listen, we've never met before, but I like your photos. How would you like to ride the Japanese Odyssey for us?" "Me?" I responded. "I've never ridden more than 190 km in a single day. And not much in the way of elevation! When does it start?"

It wasn't long before I was stepping off a plane in Tokyo with my buddy Philipp. We had flown to Japan to ride the whole stretch of the Odyssey, from Tokyo to Osaka with a total of 11 checkpoints, 2,294 kilometers and a cumulative elevation gain of 47,400 meters. What we didn't know when we set out was that our adventure would include an encounter with 2 typhoons, 8 days of incessant rain, streets that existed on only on maps and, on the rewarding side, the truly gracious hospitality of the Japanese. Every one of the 1,508 kilometers and the 30,500 meters of elevation we wound up riding shifted the focus of our tour away from our original plan. Instead of seeing the country pass by us on the left and right while riding at a good clip, we immersed ourselves in the culture and explored the remotest regions of the country. The start in Tokyo was auspicious enough. All 21 riders met at the Nihonbashi Bridge, which marks the point from which all distances to the capital are measured. We cruised through the streets and suburbs of Tokyo. Then we headed out for what would be 6-day tour through the "Japanese Alps". The rain started the very first night – and didn't stop. It fell incessantly from the heavens and soaked everything we didn't stow in our bags.

It seemed to underscore the theme of the Japanese Odyssey itself: "Be prepared!" Our raingear advanced to the status our new best friend. That first typhoon passed over just southwest of the main island, but left us to continue along our route for a few days in a light drizzle. The next typhoon greeted us shortly after in Tokushima and accompanied us almost until the end of our tour. That's when it happened. We were on an off-road stretch of the way with dusk approaching, around 45 km from the next city. I heard a cracking sound, looked down with a sinking feeling and saw that I had snapped off my derailleur. End of the road with a long way to go! What then happened is referred to by hikers and bikepackers as "trail magic". An older couple appeared along the route. After some initial skepticism about us two battle-worn and musty smelling bikers, they placed a telephone call and put us in touch with Makoto, a 25-year-old, especially helpful resident of the next village. Makoto took us in, fed us and gave us a room to sleep in. By a stroke of luck and Japanese hospitality, we had avoided a cold, wet night in the middle of nowhere. The next day, after deciding that our bike journey had come to an end, we hitched a ride to Uwajima, the nearest big city. With a sense of satisfaction, we realized that we had immersed ourselves deeper in Japanese culture than we had ever dreamed possible. From Uwajima, we went on to Osaka, the final checkpoint of the Japanese Odyssey where we met the other riders for a big celebration. It turned out to be a long night.

# GET ON THE TRAIL.

## MOUNTAINX 31

Crossing the alps by mountain bike is a unique experience. And if your plans include the well designed backpack MountainX 31, your trip is guaranteed to be a success. The MountainX 31 is made of durable PU-coated nylon waterproof roll top closure, and a waterproof zip in the centre. The removable inner compartment

sheet divides the interior in two sections, e.g. for clean and dirty equipment. The padded back carrying system with ventilation channels and padded waist strap ensures sufficient ventilation and carrying comfort.

**FURTHER FEATURES:**  
 waterproof removable outer pocket for fixing of helmet, clothing or first aid kit (not included) | fixing for optional rear light | reflectors | sealing port for hydration tube (up to 10.5 mm diameter) | two lateral neoprene pockets e.g. for drinking bottles (not waterproof) | emergency whistle on ergonomic shoulder strap with chest strap | loops for fixing gear | padded waist strap

# AIRFLEX 11

The first trip will prove it: this backpack makes your life lighter! Compact design and 11 liter packing volume make the AirFlex 11 a full featured yet sleek and waterproof pack with convenient roll closure. The Flex-Wire system with comfortable padding offers real carrying comfort. The adjustable compression cord serves for fixing

a bike helmet or light jacket. Two outer pockets (not waterproof) offer space for small items which should be quickly accessible. Two reflectors ensure good visibility in the dark. The AirFlex 11 also features a fixing loop for a rear light.

# LESS IS MORE.

**FURTHER FEATURES:**  
removable valuables pocket | snap hook for keys | space for optional hydration system

## COR 13

The minimalist design and weight make this a pack you can carry all day long. Though the Cor13 has no external frame, it is very comfortable. The padded back with ventilation channels provides efficient air circulation. The anatomically contoured shoulder straps and chest strap are individually adjustable, and keep the pack close to your body. The waterproof nylon fabric is extremely abrasion resistant and gives the pack its low weight (only 700 g/24.5 oz.). Helmets may be stowed under the adjustable and removable front flap with large reflective print. The main compartment houses a sewn-in organizer for the inclusion of an optional hydration system. It goes without saying that the Cor13 is well suited for hiking and ski tours. Snowboarders can fix their board under the front flap, and will enjoy the Cor's perfect fit during freeriding.

### FURTHER FEATURES:

## SEATPOST-BAG

Versatile and lightweight: one simple tool free manoeuvre is all it takes to fix or remove the waterproof Seatpost-Bag made of PU coated nylon and Cordura. The integrated mounting allows quick change from bike to bike. The roll closure with elastics ensures safe closing of the bag and allows tight packing. The Seatpost-Bag is available in two sizes, the 1.5 litres version being suitable as additional bag for longer trips, the 4 litres model might even replace a backpack. Both versions will protect the rider from splashes and dirt.

## SADDLE-BAG

ORTLIEB's classic seat bag is available in three sizes, depending on the type of tour. The small version with 0.8 L/49 cu.in. is an excellent fit for road applications, while the medium is perfect for mountain bikers. Size L is a true alternative to carrying a backpack, providing room for equipment, snacks, extra shells and tools for long day tours. It tucks in nicely under the saddle, and often functions as

protector on bikes without fenders. The additional fixation with Velcro, around the seat post provides firm and vibration-free mounting. The waterproof roll closure features buckles and D-rings for locking the bag. The mounting set is also available as accessory.

### FURTHER FEATURES:

## MICRO (INTEGRATED CLIP SYSTEM)

### FOR SELLE ROYAL SADDLES:

The waterproof and super lightweight Micro Integrated Clip System saddlebag was designed for high performance outings on your racing bike or mountain bike. The Micro Integrated Clip System is outfitted for use with the Selle Royal Integrated Clip System. This means that you can quickly and conveniently attach it to all saddles that are also outfitted for the Integrated Clip System system. With a 0.6-liter payload, the Micro Integrated Clip System offers plenty of space for a replacement tube, a repair kit, energy bars and a rain jacket. The roll closure, with its rubber drawstrings, allows you to keep the bag especially compact and close to the saddle. A high luminosity reflector enhances your safety at dusk and after nightfall.

### ADVICE:

Please refer to [www.selleroyal.com](http://www.selleroyal.com) for more information about saddles with the Integrated clip system | The Micro Integrated clip system's tilt is adjustable.

## VELOCITY DESIGN

Attention individualists! Here come the new designs for the classic Velocity backpack! Whether you prefer flashy bright colors or black-and-white understatement, Pixel, IP64, Vertigo and Subway are real eye-catchers on the street, in school, on campus or at work. What's more, the Velocity Design doesn't just look good, it also features uncompromising functionality. The 24-liter payload of the main compartment offers you plenty of space for everything you need throughout the day. And thanks to the robust, waterproof polyester fabric with roll closure, your things remain protected no matter what the weather. The smart foam pads on the back ensure optimal carrying comfort along with the ergonomic carriage system that includes a chest strap, a waist strap and padded shoulder straps. One other smart detail is the Velcro flap you can use to attach your bike helmet or an additional rear light.

### FURTHER FEATURES:

Sturdy base | base edge guard | inside zippered pocket | carrying handle | reflective elements on the shoulder straps

Note: Your Velocity backpack will look even more unique with your own print. Design your own backpack with the Velocity on Demand! Press the link or go to page 56 for more information [www.ortlieb.com/on-demand-countries](http://www.ortlieb.com/on-demand-countries).

# MORE ORTLIEB!

FAQ 2.0 could be the name for our new How-to videos. ORTLIEB team members explain and illustrate various issues in short videos. The topics were selected from questions that were arising in conversations with dealers and consumers. For example, we explain the differences between the lid and roll closure, the particularities of our QL2.1 and QL3.1 systems, and the meaning of IP symbols. And if required, we will go into detail and explain all about the new trend of bikepacking and the special features of this new way of travelling.

YOU WILL FIND OUR VIDEOS ON THE FOLLOWING CHANNELS:

www.facebook.com/ORTLIEBwaterproof  
www.twitter.com/ORTLIEBwaterpro

## 35 Years ORTLIEB

ORTLIEB was founded in 1982. The last 35 years were quite eventful with many changes and innovations. Our legendary durability combined with five years guarantee, our promise "Made in Germany" and our extremely high "waterproofness" were our companions for the entire time.

A SHORT REVIEW WITH IMPORTANT MILESTONES OF THE LAST YEARS:

1982- 87

- + The company ORTLIEB is founded
- + The first sewn panniers are produced

1987- 97

- + Bags are now welded
- + The first Back-Roller seizes the bike market
- + Launch of QL1 system

97-20 02

- + Design of QL2 system
- + A new logo! The company moves to Heilsbronn
- + www.ortlieb.com is on the world wide web

2002- 07

- + The 100th employee is taken on
- + ORTLIEB joins the European Outdoor Group (EOG)

2007- 12

- + Globetrotter chooses ORTLIEB as Supplier of the Year
- + Launch of QL3 system

2012- 17

- + Product launch of bikepacking line
- + Reflector is registered as design mark
- + ORTLIEB celebrates its 35th anniversary

## VELOCITY ON DEMAND

### DESIGN YOUR OWN BACKPACK!

The compact courier bag with your custom print is guaranteed to set you apart from the rest. Use anything you like to create your own, unique design: a crazy selfie, the skyline of your favorite city or a photo of a cat, dog or turtle! The design process is easy. Simply let the ORTLIEB web tool guide you intuitively through all the steps. No matter whether you use a photo or a self-designed graphic, the only requirement is that you use a resolution of at least 150 dpi. This level of quality is necessary because the printing surface on the front side of your backpack is a sizeable 34 cm x 56 cm.

**YOU'LL BE SURE TO DRAW A LOT OF ADMIRING LOOKS AT YOUR DESIGNER BACKPACK. IT'S REALLY NOT LIKE ONE THAT EVERYONE HAS!**

The Velocity on Demand naturally also features all the wonderful properties of the standard ORTLIEB Velocity. It has a convenient roll closure and a detachable, zippered inside pocket that offers space for keys, coins and smartphones. The foam-padded rear, with its

carrying handle and its anatomically formed shoulder, chest and waist straps, ensures outstanding comfort – even when you're out with your daypack the whole day long. The special edge guard on the bottom of the pack protects it against wear and tear, increasing the unique pack's service life and your satisfaction. Use the Velcro flap to attach your bike helmet or an additional rear light. And last but not least, you can rest assured that your self-designed ORTLIEB backpack is absolutely waterproof.

MORE ORTLIEB

## SINGLE-BAG QL3.1

The minimalist Single Bag QL3.1 is yet another confirmation of the famous paradox that less is more. Despite being stripped down to the bare essentials, the Single Bag QL3.1 is a cut above the rest with its largemouth, waterproof zipper and its ingeniously simple QL3.1 rack mounting system that does away with projecting and cumbersome hooks. This urban bag is available with the streamlined ORTLIEB Rack1 bike rack that aligns perfectly to your rear wheel or with the QL3/QL3.1 mounting kit that can be used with virtually any type of bike rack. With its 12 liter payload, the bag offers plenty of space for a 13" notebook and all the other gear you'll need throughout your workday.

## NOTEBOOK SLEEVE

Data protection starts with the laptop transport. Therefore, ORTLIEB developed extra soft sleeves for sensitive hardware. The 10" version is designed for all standard tablets and Netbooks. The EVA foam which is covered with nylon fabric protects from shock, impacts and crashes. The indispensable transport assistants are just as versatile as the laptop that they protect. Covered zippers with adjustable and positionable inside corner pads prevent damage. On the rear side the sleeves have external organizers with slots and zippered pockets for important accessories like pens, CDs and USB sticks. The external pocket with folders on the front offer storage for power cord and other small items.

### FURTHER FEATURES:

## BIKE RACK RACK1

Need a bike rack for your cool bike? The purist Rack1 harmonizes perfectly with the minimalist design of modern urban bikes. The super lightweight aluminum bike rack features three integrated attachment points on each side that allow you to directly attach a full range of ORTLIEB bags outfitted with the QL3 and QL3.1 system, including the Single-Bag, Office-Bag, Downtown, Vario, City-Biker and Commuter-Bag. Ideal for bicycles with a wheel size of 26" or 28". Maximum load: 20 kg

## BIKE RACK RACK2

Would you like to outfit your bike with an all-around bike rack for everyday use? Then the Rack2 is probably exactly what you're looking for! This classic-design bike rack features three integrated attachment points on each side, allowing you to directly mount bike bags outfitted with the QL3 and QL3.1 system. It also includes struts for mounting bags with other ORTLIEB QL systems (e.g. QL1, QL2, and QL2.1). Made of lightweight, durable aluminum, the rack is ideal for bicycles with a wheel size of 26" or 28". Maximum load: 30 kg

## HANDLEBAR BASKET

ORTLIEB has reinvented the handlebar basket: stylish, practical, secure and waterproof. That makes it far superior to its "colleagues" made of wicker, wire and porous materials. Made of a lightweight nylon fabric, the ORTLIEB handlebar basket is ideal for carrying your wallets, purses, and small purchases. The practical drawstring flap allows you to open it in a flash and close it reliably even when it's filled to the brim (maximum: 5 kg). Wallets, keys and

smartphones stay safe, secure and easily accessible in the inside pocket. And when it comes to off-bike loading and unloading, you can rest assured that it'll always stay on its feet. Like the proven ORTLIEB Ultimate bags, the basket attaches to your handlebar with the included mount and is also compatible with Rixen&Kaul mounting units.

## BIKE BASKET

Groceries and other purchases from your stroll through town – you can take them all home conveniently and securely in the ORTLIEB bike basket. Made of a lightweight nylon fabric and featuring a drawstring flap closure, the basket offers variable stowage space and a maximum payload of 10 kg. Outfitted with the award-winning ORTLIEB Rack-Lock adapter system, the basket fits on virtually all commercially available bike racks – no matter whether they are wide or narrow, or come with or without a spring clamp. The basket remains securely attached to the bike rack and can be easily removed with a single hand. Thanks to the durable adapter on its underside, the basket stays upright on any surface for more convenient loading and unloading. Available in two sizes.

**FURTHER FEATURES:**  
Padded handle | inside zippered pocket | reflector 3M Scotchlite | max. capacity 10 kg

# CARRY COOL STUFF.

## RACK-BOX

Imagine that it's the middle of the summer, a hot and humid day with the sun still high up the sky even in the evening when you meet your friends for a picnic or a barbecue at the lake. And then comes the moment when you remove the ice-cold beverages from your ORTLIEB Rack-Box.

The lightweight transport box made of food-safe EPP (expanded polypropylene) is waterproof from inside and out. Offering outstanding insulation, the Rack-Box not only makes for a perfect picnic icebox, it's also an ideal shopping box in which to keep temperature-sensitive foods and beverages. The ORTLIEB Rack-Box offer 18 liters of payload and can be carry loads of up to 10 kilograms. Thanks to the Rack-Lock Adapter, which won the Eurobike Award 2015, you can conveniently attach and detach the Rack-Box with virtually any bike rack.

### FURTHER FEATURES:

Lateral snap-lock buckles | secured cover over waist strap | optional removable covers | carrying handle and lateral grip recesses | rear reflector 3M Scotchlite | includes the ORTLIEB Rack-Lock adapter system | compatible with virtually all bike racks with a width of 60 to 160 mm | completely and easily detachable box

## VELO-SHOPPER

Do you like to take your bike shopping so as to avoid traffic jams and desperate searches for parking spots? And to get some good exercise and burn calories that you won't have to count when you return for dinner? No matter whether you need to take a quick trip to the supermarket in the evening or to the farmer's market on Saturday, your Velo-Shopper has a big hatch and an 18-liter payload. That's enough for a lot of stuff! And you can conveniently open and close the magnetic snap buckle with one hand. Made of waterproof, abrasion-resistant nylon fabric, the Shopper can be attached to your bike rack with the proven QL2.1 system. And then simply sling the Velo-Shopper over your shoulder with the detachable strap when you reach your destination. Go ahead and fill the Shopper to the brim because its stiffened inside construction will help to prevent crushing.

## TRUNK-BAG RC

**NEW!**

Good news for all of those on the lookout for a convenient, waterproof bag to transport their belongings: the proven ORTLIEB "bike trunk" is now available with a Velcro roll closure! The closure of the Trunk-Bag RC also serves as a convenient carrying handle. With a 12-liter payload and a shoulder strap, the waterproof bag that mounts on top of your bike rack is ideally suited for longer tours and brief forays to the supermarket. Even when the bag is fully loaded, your smartphone, wallet and keychain remain quickly accessible thanks to the inside pocket and carabiner, as well as an additional, non-waterproof exterior pouch. The Rack-Lock Adapter, winner of the Eurobike Award, ensures that the bag fits on virtually any bike rack with a width of 60 to 160 mm. Clip it on, secure it and remove it again. It's a snap!

# BIKE-SHOPPER

Your spacious one-click shopping bag: the Bike-Shopper with QL2.1 system can be quickly attached to and removed from your rack. The flexible market and shopping bag remains stable - also on bumpy roads. The adjustable carrying straps allow it to be carried comfortably on your shoulder (adjusted by push buttons) and will not be in the way during biking. A waterproof Quick-Seal closure provides protection from rain. Occasional use of ORTLIEB lubricant will keep the closure running smoothly.

# VARIO QL3.1 & QL2.1

High quality backpack and bike bag in one? The ORTLIEB Vario offers an ideal solution for all of those who ride to work or school and who plan to head into town on their lunch break or in the evening. Made of sturdy, waterproof nylon fabric, the Vario offers you plenty of space for your office documents, a 15.4" laptop, provisions for your lunch break and various items you pick up at stores along the way. You can attach the Vario to your bike with the QL3.1 or the QL2.1 mounting system. And once you've reached your destination, the Vario transforms instantaneously back into a backpack. Simply remove the padded carriage system with shoulder straps and chest strap from the spacious front pocket and attach it to the rear of the bag. Thanks to an integrated holder you can also securely attach your bike helmet to the backpack.

# DESIGN FOR YOUR BIKE.

## BACK-ROLLER DESIGN

The classic Back-Roller is now available in a new designer series that includes both black-and-white designs (Map and Grid) and colorful designs (Lanes and Sunny). The ORTLIEB Back-Roller is an all-purpose bike bag that is ready to accompany you on all of your ventures: to work, to school, to the grocery store or out to the country. With a combined payload of 40 liters, a pair of waterproof Back-Roller bike bags with roll closures offers you plenty of space for all the things you need take or pick up along the way. You can quickly and conveniently mount the bags on virtually any bike rack thanks to the proven QL2.1 system. And even when you're not riding, you can keep the ORTLIEB Back-Roller by your side by using the integrated shoulder strap. The bag's interior is divided into a main compartment and a mesh, zippered pocket that helps you to keep all your things in order.

**FURTHER FEATURES:**  
 QL2.1 mounting system for all bike racks with tube diameters of up to 16 mm | special inserts allow you to reduce the size of the rack hooks to 12, 10 or 8 mm

**ADVICE:**  
 The Back-Roller and Sport-Roller (except City-Line models) can be combined with the ORTLIEB Rack-Pack on the rear rack.

# TALK OF THE TOWN.

## URBAN LINE

ORTLIEB's Urban Line of waterproof bike bags makes a visually appealing contribution to city life. Admired in offices, cafes and boutiques throughout town, these fashionable bags with their aesthetic textile look are ideal for bicycle commuters and recreational riders. Why switch to the Urban Line?

The polyester-coated blend of cotton and Cordura fabric is a function-meets-fashion statement that is the talk of the town.

### COMMUTER-BAG QL3.1 & QL2.1

The waterproof Commuter-Bag for bicycle commuters is an organizational talent whose well-conceived space management system includes a separate laptop compartment, a pen holder and a key strap. The bag's snap buckles make it easier for you to

quickly access the main compartment. The durable handle and the detachable shoulder strap make for comfortable carrying, while the side reflectors enhance your safety. The Commuter-Bag is available with the QL2.1 or the QL3.1 rack mounting system.

3M Scotchlite reflectors

The multifunctional Urban Back-Roller is an ideal single bag for bike riders who are looking for a spacious, waterproof bike bag to accompany them on their way to work or school. Made of a special blend of cotton and Cordura fabrics, the bag has a textile appearance that is a perfect match for both casual and business attire. Thanks to a polyurethane coating on the inside, it is nonetheless absolutely waterproof. The practical QL mounting system enables you to quickly and conveniently attach the bag to your bike rack. The bag's internal pocket, consisting of a main compartment and a zippered mesh compartment helps you to keep things orderly and immediately accessible. A detachable shoulder strap allows you to comfortably carry the Urban Back-Roller once you set off on foot.

**OPTIONAL ACCESSORIES:**  
carrying system | outer pocket size S | mesh pocket | bottle cage | anti-theft device | 20 mm hooks for QL2.1

# BARISTA

Urban, classic, exclusive. Matching this description - and today's lifestyle bikes - is ORTLIEB's Barista handlebar bag. This urban-velo styled bag features tough PU laminated Cordura-cotton-mix with leather contrast details. Stylish and waterproof. This bag offers space for smart phone, keys, papers etc. An internal organizer with key snap hook, pen slot and two pockets keeps things in place. The convenient magnetic flap allows quick and quiet access. The magnets open and close automatically and safely. Once unclipped

from the handlebar, Barista becomes a stylish shoulder bag. Barista is supplied with the Ultimate6 mounting system (compatible with Rixen&Kaul).

**ADVICE:**  
Remove and stow away shoulder strap before biking.

**FURTHER FEATURES:**  
removable shoulder strap

**FOR GREATER VISIBILITY IN STREET TRAFFIC!**

High visibility is so important to us at ORTLIEB because it is a matter of safety. Both the waterproof, polyurethane-coated Cordura fabric in neon yellow and the black fabric parts of this bag are densely interwoven with high-luminosity reflective yarn. This composition turns the entire bag into an eminently visible reflector when it is picked up in the headlights of passing cars.

# HIGH VISIBILITY

## BACK-ROLLER & SPORT-ROLLER

These panniers guarantee top safety and come with the QL2.1 system. The fluorescent signal yellow-black fabric enhances your visibility in dusk, dawn or bad weather. All other features are identical to the Plus models.

# OFFICE-BAG QL3.1 & QL2.1

An elegant black bag during the day, and a reflective safety shield at night! The High Visibility Office-Bag is ideally suited for your ride to the office, offering you plenty of space for two DIN A4 folders, writing utensils and other workday items. The bag comes with a comfortable shoulder strap and stable feet.

# ULTIMATE6

UP! DATED

The Ultimate6 High Visibility handlebar bag is a safety genius. Interwoven reflective yarn glows in the dark and increases your riding safety. When the bag is attached to the handlebar, all you need to do is turn a key to prevent it from being opened or removed from your bike. The magnetic closure in the flap, outside mesh pockets and comfortable shoulder strap offer enhanced convenience and a removable partitioner allows you to keep the contents of the bag in perfect order.

# VELOCITY

With its 24-liter payload, this versatile daypack is just the right size for work, school and play. The detachable zippered pocket on the inside offers plenty of space for keys and other small items. Added carrying comfort is ensured by the foam-padded back, carrying loop and ergonomic shoulder straps, breast strap and waist strap. The edge protectors at the bottom increase the daypack's resistance to wear and tear. The front is designed to permit the easy attachment of a bike helmet or an additional safety light.

# SADDLE-BAG

The popular Saddle-Bag L shines like a star under your saddle. The bag's entire surface is reflective, giving you a crucial degree of added safety by increasing your detectability in the headlights of passing cars. With its 2.7 liter payload, the largest of the ORTLIEB Saddle-Bags offers you plenty of space for a spare tube, a tool kit, a rain jacket and light refreshments.

**OPTIONAL ACCESSORIES:**

## CONTRAST PROGRAM WITH A CLEAR MESSAGE

The black-and-white design helps to attract a higher level of attention, which is good because the waterproof, polyurethane-coated canvas material is completely PVC-free. There is naturally

more behind the ORTLIEB logo than a fashion statement and a demonstration of how good-looking sustainable designs can be.

## ULTIMATE6

Touring handlebar bag Ultimate6 Black'n White features a lockable mounting system and a magnetic lid closure. All other features like Ultimate Classic version (see page 26).

## PANNIER CARRYING SYSTEM

Flexibility by bike and on foot! The Pannier Carrying System quickly converts your bike pannier into a backpack. The thermally moulded foam back pad along with padded and adjustable shoulder straps and chest strap guarantee a comfortable carrying with excellent ventilation. Low weight, the carrying system can be easily fixed onto the pannier when not in use. It's suitable for Front- and Back-Rollers, Bike-Packer, Sport-Packer, Bike-Tourer, Velo-Shopper and Bike-Shopper. To fix the pannier onto the carrying system, its top loops are hooked into the pannier's QL hooks, and the buckles are threaded into the base edge protectors.

Can be combined with all bike panniers featuring edge protectors (QL1, QL2 and QL2.1).

## BACKPACK FOR RECUMBENT BIKES

The flexible daypack by ORTLIEB is the right choice for your trip. The padded shoulder straps of the removable carrying system plus the handle allow easy carrying. Fixing straps serve for quick attachment of the backpack to the recumbent rack or scooter bike seat. Two outer mesh pockets allow easy access to small items. The typical robust ORTLIEB material mix of PVC-coated polyester and Cordura, and a large TIZIP zipper constitute an optimal waterproof compartment. Reflectors on both sides ensure safety at night, in rain or fog. A hydration system (not included) can be integrated.

**FURTHER FEATURES:**  
 carrying handle | waterproof TIZIP zipper | reflectors | removable carrying system | fixation straps | outer mesh pockets (both sides) with zipper | passage for hydration tube at base

Messenger bags can't be large enough – at least according to professional bike couriers. No problem for ORTLIEB! In cooperation with bike messengers in Nuremberg and Berlin we created a 60 liter Messenger Bag XL – the king-size version of courier bags. The spacious backpack easily takes an A2 folder plus two boxes of photocopier paper. Mailing tubes can be fixed with straps to the sides. A zippered front pocket (not waterproof) offers room for miscellaneous accessories.

The large flap with strong Velcro provides quick access. Bulky goods can be securely fixed to the lid by using the additional buckles. The adjustable ergonomic shoulder straps and the padded carrying system with ventilation channels ensure top carrying comfort even when fully loaded. A stable base construction allows safe placement of deliveries at their destination. The sturdy fabric combination of polyester and Cordura in yellow-black as well as large reflectors ensure safety in traffic.

### FURTHER FEATURES:

adjustable lid | compression straps | wide hip belt

### OPTIONAL ACCESSORIES:

MESSENGER BAGS

# MESSENGER BAG

ORTLIEB's robust classic Messenger Bag is proportioned to carry loads without ever weighing you down: the Velcro flap seals everything secure and allows flexible packing height and quick access to A4 folders in its 30 L main compartment while the ventilated foam back, chest strap and padded shoulder straps keep everything stable. Large reflectors on sides and shoulder straps contribute to safety in bad weather conditions, dusk and dawn.

### FURTHER FEATURES:

For 35 years, we have stood for excellent craftsmanship and a passion for high-quality, long-lasting products "Made in Germany"! We have also remained equally committed to mutual respect and fairness, both among individuals and with respect to nature and the environment. Given our tradition, it is no wonder that we support all efforts to achieve sustainable development, i.e. forms of development that are

environmentally, economically and socially sustainable. We would like to leave our children and grandchildren with a habitat that is intact and that will not limit their ability to secure a good life for themselves. While it is vitally important to achieve sustainable business operations, it is not an easy thing to do. Still, we have set very high goals for ourselves. And we make a promise to you that we will meet the challenge with our hands, our hearts and our minds.

# 4 SUMMITS 4 THE FUTURE.

**2017:**  
"100% carbon-neutral production at our headquarters in Heilsbronn"  
Michael Freudenberg, Quality Control

Beginning in 2017, our headquarters in Heilsbronn, including our production facilities, will be supplied exclusively with solar and hydro-power. The carbon emissions from our use of natural gas are to be compensated at 100%.

**What we have already achieved:**  
+ Since 2012, we have met more than one-third of our power needs with our own photovoltaic installation.

"Sustainability is just as essential for us as the 'Made in Germany' label!"

Wolfgang Paulus, CEO

#ortliebcares

**2025:**

"100% recyclable or biodegradable products."  
Marcus Müller, Head of Product Design

In fewer than 10 years, all new ORTLIEB products are to be recyclable or biodegradable so that they will not constitute mere waste once their long service lives have come to a close.

**What we can already offer so as to ensure that your ORTLIEB equipment is as long lasting and environmentally friendly as possible:**  
+ A 5-year guarantee on all materials and workmanship  
+ The availability of replacement parts for a period of 10 years after the product has been phased out  
+ A comprehensive repair service.  
+ The continuous ecological optimization of all ORTLIEB products.

**2021:**  
"100% carbon-neutral production processes, including our entire supply chain."  
Martin Esslinger, Sales Director

We would like to reach carbon neutrality in 5 years – and this not only at our facility in Heilsbronn, but also at upstream material-production facilities (e.g. for tarps) and in connection with business trips, material and product transport and the disposal of products that have reached the end of their service lives, etc.

**What we have already achieved:**  
+ Drafting of a comprehensive carbon footprint report that is continuously updated and published  
+ A more than 20% overall reduction in our carbon emissions from 2011 to 2015  
+ Bike-friendly policies (including the introduction of an employee bike pool, a bike rental service and a bike workshop) that helped us to win a prestigious award aimed at distinguishing bike-friendly companies  
+ Provision of employee allowances for the use of public transportation to get to and from work

**2025:**

"0% production waste."  
Julia Roth, Junior Product Manager

All ORTLIEB products are manufactured in the town of Heilsbronn in the German region of Franconia. In fewer than 10 years, the company's production facilities are to operate in a manner that ensures zero waste production. Specifically, this entails the absence of any residual waste or materials that cannot be used for other purposes.

**What we have already achieved:**  
+ The introduction of minimal material waste as a product-design criterion  
+ A strict practice of separating waste throughout the production process

# TRANSPARENCY AND HONESTY

These are two potent words that form the basis of our commitment. When it comes to our climate-protection efforts, these words mean the following. By 2021, we would like to achieve 100% carbon neutrality for all of our production processes, including our entire supply chain. We are determined not only to reduce our carbon emissions at our headquarters in Heilsbronn (Scope 1\*), but also to reduce the carbon emissions that we cause indirectly, for instance, in connection with our energy needs (Scope 2\*). We will also go even further to reduce the emissions associated with the transport of our products and the supplies we order, upstream material production and the disposal of ORTLIEB products when they need

to be replaced at the end of their long service lives (Scope 3\*). We will also continue to document what we have already achieved and what remains to be done in the form of carbon footprint reports that are continuously updated and published on our website. While only very few companies are willing to go this far, we regard this comprehensive, voluntary approach (Scope 1, 2 & 3) as a more honest approach. And we will continue to stay the course even if doing so can be expected to be more difficult and expensive. Ultimately, this is the only way to give you the transparency you need as a consumer.

*"We are determined to become a carbon-neutral enterprise."*

Wolfgang Paulus, CEO

\* Terminology: Scope 1 includes all emissions that are generated at a company's own facilities. Scope 2 includes emissions that are associated with purchased power (e.g. electricity) and Scope 3 includes emissions that arise in connection with relevant services provided by third parties and the performance of any upstream services (e.g. material transported to company premises).

## YOU & YOUR PRODUCT

- + Many years of enjoyment thanks to long product service life (5-year guarantee)
- + Repair options in case something should go wrong
- + Products can be retrofitted
- + Excellent consulting thanks to ORTLIEB's role as a partner to outdoor retailers

## SHIPPING

- + Carbon-neutral shipping within Germany
- + Recording of shipping weights and distances for shipments abroad

## WASTE & WASTEWATER

- + Goal: elimination of all production waste by 2025
- + Goal: 100% recyclable or biodegradable products by 2025
- + Minimization of production wastewater

## EMPLOYEES

- + Several worktime models
- + Current average number of years at ORTLIEB per employee: 10

## SERVICE

- + Continued supply of replacement parts for at least 10 years post product phase-out
- + Repair service

*"Input"*

*"Output"*

## ENERGY & WATER

- + Electricity 2017: 100% from renewable sources, including 1/3 from our own photovoltaic installation.
- + Gas 2017: 100% carbon offsetting.
- + Lower water consumption thanks to water-saving production processes.

## MATERIALS & SUPPLIERS

- + Nearly 70% of all our materials are purchased in Germany.
- + As of today, 85% of our suppliers have signed our "Code of Conduct for Suppliers".

## BUSINESS TRAVEL

- + Low-emissions transportation recommended for all business travel
- + Employee allowances for commuting via public transportation
- + Bike leasing arrangements and bike lending free of charge
- + Bike station with workshop, parking facilities and charging equipment
- + Annual bike inspections available to all employees free of charge

## SPONSORING

- + Use of sustainability as a selection criterion for all sponsoring activities
- + Support for Leeway Collective (page 129)
- + The Pro Team's extreme-conditions-testing data flow into product development

## COMMUNITY

- + Bicycle promotion: supporting member of the German Cyclist's Association, provision of support for "Commuting by Bike", "City Biking" and many other initiatives
- + Membership in Partnership for Sustainable Textiles, European Outdoor Group, European Outdoor Conservation Association and other organizations
- + Longstanding cooperation with local charitable organizations (e.g. Diakonie Neuendettelsau)

## ELEVATION PRO2

What happens when experts at the Austrian Mountain Rescue Service (AMRS) and ORTLIEB join forces to develop an alpine backpack? One such development is the ORTLIEB Elevation Pro2, a streamlined, highly functional and waterproof alpine backpack that has what it takes for the highest of summits and performance specifications. Made of tear and abrasion-resistant nylon fabric, this backpack is the most faithful of companions when you're on expeditions and high alpine tours where you have to be prepared for many challenges in the form of snow, ice and rock – and where every gram of weight counts. With a 42-liter payload, plus an additional 4 liters of payload in a detachable, height-adjustable flap, various attachment fixtures for ice axes, ropes and other gear, you'll be optimally equipped for your mountain tour. Highly functional details such as quick access to the main compartment via a waterproof side zipper and the metal closure for the detachable waist strap make the ORTLIEB Elevation Pro2 a premium backpack for the high alpine region.

### FURTHER FEATURES:

Flap compartment accessible via waterproof zipper (IP67) | roll closure under the detachable flap | anatomically shaped shoulder straps with adjustment belts | chest strap with army whistle | comfort carriage system with ventilation channels | multifunctional compression belts (e.g. for skis) | detachable waist strap with gear loops and zippered pockets | inside pocket with 2 sleeves, 1 of which is zippered | hydration system | base straps and other straps (inside and out) for additional equipment sleeves, 1 of which is zippered | hydration system | base straps and other straps (inside and out) for additional equipment

### OPTIONAL ACCESSORIES:

Waterproof outer pockets | Bottle Cage | Mesh Pocket | Pad for compressions straps

This product is used by the Austrian Mountain Rescue

# ELEVATION PRO

Light weight, clean design, sturdy fabric: the innovative alpine and mountaineering backpack Elevation Pro, reliable for rock and ice. It is entirely designed for functionality under most extreme conditions. The proven roll closure underneath the flap and the external flap compartment guarantee a high IP rating with regards to being waterproof and dustproof. The external waterproof zipper allows easy access to gear stored inside the lid. There are numerous fixing options for equipment: daisychains, waterproof flap compartment, preparation for hydration system, helmet fixing, base loops for crampons, gear loops for trekking poles and ice axe, compression straps suitable for transporting skis or rope. The contact back system with ventilation channels and anatomically

shaped shoulder straps ensure high carrying comfort. The shoulder straps are adjustable and the adjustable chest strap ensures perfect individual fit. Waist straps with gear loops are removable and feature two zippered pockets. The Elevation Pro is available in two capacities: 32 and 42 litres.

**WE SUPPORT:**  
The German Alpine Association's mountaineering school is run by the enterprise known as the DAV Summit Club GmbH. The enterprise is also active as a specialist tour operator for mountaineering and cultural adventures around the world. [www.dav-summit-club.de](http://www.dav-summit-club.de)

# BE ON TRACK.

## TRACK

This outdoor pack will take up lots of gear for extended tours. The waterproof backpack with roll closure is made of tear and abrasion resistant nylon fabric; it is compact and ergonomic. Two daisychains on the waterproof front pocket plus outer pockets (not waterproof) on the sides for water bottles etc., and trekking pole attachments turn it into a transport talent. A lightweight carrying system with adjustable distance mesh allows air circulation. The backpack is comfortable to carry, with adjustable chest, waist and shoulder straps.

### FURTHER FEATURES:

Lightweight stainless steel frame | Internal A4 organizer | Valuables pocket | Carrying handle | Hydration tube aperture (up to 10.5 mm) for optional hydration system

## LIGHT-PACK PRO 25

The ORTLIEB Light-Pack Pro 25 combines the minimalism of the Light-Pack 25 with more comfort: the inflatable back padding ensures a more pleasant carrying feel. The elastic drawstring attachments on the outside keep clothing and equipment within reach and the outside pockets on the side offer space for bottles and snacks. More volume and carrying capacity at a weight of only 385 grams is scarcely possible! Just like its minimalist brother, the Light-Pack Pro 25 makes for an ideal second backpack on account of its small packing size. It is a perfect daypack for summiters, paddleboarders and anyone else who prefers to go forth without a burden.

### FURTHER FEATURES:

Removable breast and waist strap | loops for an optional rear light

## LIGHT-PACK 25

A more minimalist design is hardly imaginable: the Light-Pack 25 is the lightest of the waterproof ORTLIEB backpacks. With a 25-liter payload and a weight of only 290 grams, the Light-Pack 25 offers an optimal weight-to-volume ratio and distinguishes itself in terms of its purist design, its proven ORTLIEB roll closure and its lightweight, air-permeable straps. And when it's not needed, the minimalist shrinks down and waits in its practical mesh bag for its next mission (e.g. as a second backpack on longer trekking tours).

# PACKMAN PRO2

A real favourite for weekend explorations. Whether you are hiking or biking, the robust daypack Packman Pro2 is your best choice. With its padded harness system and waist strap it offers adjustability and excellent ventilation in combination with carrying comfort and perfect fit. The stowaway helmet flap requires little space inside a concealed front pocket. The waterproof Packman Pro2 further features a roll closure with compression straps for packing and compressed volume. Other features include an integrated pocket for an optional hydration system (not included), and two lateral reflectors for visibility at night and in bad weather conditions.

**FURTHER FEATURES:**

Elastic zippered front organizer pocket (not waterproof) | Interior zippered valuables pocket | Waterproof aperture for hydration tube (tube not included) | Carrying handle | Helmet fixing | Fixing for bike light (not included)

# GO. HIKE. LIVE.

# HIP-PACK2

You want freedom without limitations. The ergonomic interpretation of a day pack is called Hip-Pack2. The waterproof waistpack with padded and individually adjustable carrying system and breathable hip pads allows freedom of movement during all outdoor activities or extended sightseeing tours. An extra wide waist strap offers great comfort; the pack may also be carried in the front. The smart system offers space for your essentials from rain jacket to camera, and is super light weight. In addition to the elastic front pocket there are two zippered mesh pockets (not waterproof) and a removable valuables pocket. Two further lateral pockets are provided with a draw cord, e.g. for bottles.

# BIG-ZIP

UP! DATED

Active explorers require heavy duty equipment that can easily handle intensive and continuous use. Big Zip is made of tough welded fabric PD620 with waterproof TIZIP, and offers reliable protection for baggage transport on airline, train, rafts or trekking tours. With a mammoth 140 liters of storage space it will hold

everything you need for a long expedition. Big-Zip may be carried on the back with its extra wide padded carrying straps. Padded carry handles on both ends allow portaging by two people. Internal compression straps will keep your equipment in place. Proportioned to carry loads and to keep them waterproof.

**FURTHER FEATURES:**  
Easy access with long zipper | D-rings for fixing and securing | Tough patches | Padded carrying handles | Easy to clean

# X-TREMER

There are three things that you need for a new adventure: a little bit of courage, optimal equipment and the sturdy X-Tremer. Whether you choose size XL or XXL, both sizes are huge, and true alternatives to rigid boxes and bulky barrels. Also suitable as protective cover for luggage. And when empty, they are easy to fold flat into a little package.

### FURTHER FEATURES:

# TRANSPORTER

The Transporter is designed for large stuff. The durable, waterproof all-round backpack made of coated polyester and Cordura takes up even huge bulky goods. With the adjustable lid, the reinforced base and external compression straps it is predestined for numerous transport jobs in tough environments. The contoured shoulder straps guarantee carrying comfort.

# X-PLORER

This stuff sack is the perfect choice for canyoning, climbing or caving. It is also a favourite luggage piece on motorcycles. The combination of rucksack and dry bag is by far lighter than a conventional backpack with carrying system. It is available in two sizes, and when empty, it can be rolled into a flat little package.

### FURTHER FEATURES:

# FLOAT THE RIVER.

## DRY BAG PS490

Proven on tracks and trails around the world, PS490 dry bags are versatile and durable. Made with one of ORTLIEB's strongest heavy-duty fabrics, they can withstand just about anything. They feature a roll-down closure with stiffener bar, a tough base that makes packing easier than ever, and D-rings for securing inside a boat or on top of a luggage rack. The PS490 bags are designed for extreme applications and are even used as haul sacs. All sizes 59 litres and above feature additional side handles.

## ULTRA LIGHTWEIGHT DRY BAG LINER PS10

The durable waterproof liner made of coated nylon fabric with roll closure is designed as a rucksack or pack liner. An ideal supplement for non-waterproof duffles, backpacks or trekking packs. It will keep your gear dry and clean. The square shaped base made of abrasion resistant PS33 uses every inch in your pack.

**FURTHER FEATURES:**  
 Easy to clean | Roll closure with stiffener bar and buckles

## DRY BAG PS10 WITH VALVE

No air left! If you can say this about your ORTLIEB compression dry bag, you will be happy about gaining further space inside your pack. By means of the valve mechanism air is expelled from the bag, reducing the packing volume to a minimum. The ultralight nylon fabric PS10 is waterproof - an ideal supplement for non waterproof baggage. The roll closure with a fabric stiffener bar is easy for one person to handle.

# TRAVEL MORE.

## DUFFLE RG

Planning a weekend trip, an active vacation or an overseas journey? Looking for a maximally durable and waterproof travel bag that offers additional comfort? If yes, you should definitely consider the ORTLIEB Duffel RG. In contrast to the Duffel RS, which was conceived for expedition-level use, the Duffel RG is outfitted with an aluminum wheel frame that makes it especially easy to tow. Indeed, the bag's large wheels, telescope aluminum handle and impact-proof underside give it excellent off-road handling. Free standing when full or empty, the ORTLIEB Duffel RG can be moved in three different ways. It can be wheeled using the telescope handle, carried with one hand or worn as a backpack. The waterproof polyester fabric and the 10-mm waterproof TIZIP Masterseal zipper ensure that the bag's contents remain optimally protected in all conditions. Thanks to its compact size (55 x 35 x 23 cm), the smallest Duffel RG offers a special advantage: it qualifies as a carry-on aboard commercial flights. But despite its dimensions, it still offers 34 liters of stowage space and is therefore an ideal bag for short trips.

**FURTHER FEATURES:**  
 Large 100 mm wheels | aluminum plate between the wheels to protect the bag's underside | removable, padded shoulder straps for use as backpack | wire loop for zipper padlock | mesh zippered outside pocket (not waterproof) | zippered inside pocket | compression belt on inside for volume control

## DUFFLE RS

Winner of the OutDoor INDUSTRY AWARD 2014, the Duffel RS is made to withstand the rigors of the most adventurous of expeditions while at the same time offering a high degree of travel comfort. The bag's heavy-duty wheel system is connected to the body of the bag in a waterproof manner. The 100 mm wheels and the rigid floor plate made of contoured aluminum offer increased floor clearance – ideal for both airport terminals and rugged outdoor terrain. And given the importance of lightweight luggage, especially when travelling by plane, the bag's designers opted for an adjustable grip that guarantees plenty of leg clearance and comfortable towing instead of a heavy telescopic towing frame. The foam padding at the base of the bag offers enhanced stability when the bag is fully loaded and the watertight zipper that runs across the whole length of the bag gives you quick access to your gear. The zipper can also be locked using the integrated wire loop and a small cable lock (not included).

**FURTHER FEATURES:**  
 Padded, removable shoulder straps you can use to carry the bag like a backpack | Compression strap | Zippered internal pocket | Mesh outside pocket (not watertight) | 2 daisy chains for attaching more gear

## DUFFLE

The Duffle is for adventurers searching the extreme and expecting excellent performance. The waterproof travel bag protects clothing etc. from water and dirt, and can quickly be converted into a backpack by using the padded handles as shoulder straps. A long TIZIP zip allows quick access to your gear. Internal straps compress the volume. The tough PS620C base fabric makes it an extremely durable expedition bag. The bag can be secured with a padlock (not included) through a wire loop at the zipper.

### FURTHER FEATURES:

# RACK-PACK

  
 09/2014
 
  
 07/2015

This waterproof travel bag has all the advantages of an easy to use dry bag: its flexible and variable packing volume adjusts to any situation and takes all the gear for travelling and sports. The roll closure with stiffener bar has its roots in stuff sack technology. It fits perfectly into bike trailers and sizes S or M can be combined with ORTLIEB Back- and Sport-Rollers Plus and Classic on the rack for bike touring. This robust multi-talent bag is also good on motorcycles. Comfortably carried with adjustable padded shoulder strap and carrying handles. Rack-Pack is available in four sizes.

### FURTHER FEATURES:

Roll closure with stiffener bar | Compression straps | Buckles for combining with bike panniers

## - BALKAN RIVERS TOUR -

I have lots of vivid memories of the times I spent along the river when I was a kid. My father took me fishing for the first time when I was 5. I was the one who got hooked – by the majesty of the river and the thrill of being close to it. Ever since then, rivers have nourished me spiritually, like they nourish the planet with water.

When I discovered the extent to which the rivers of the Balkan Peninsula – an area of Southeastern Europe that includes my home in Slovenia – are being dammed up in the interest of investment schemes, I was shocked. And I am still overwhelmed by sadness when I think of the greed that has gained the upper hand in this last part of Europe where wild and pristine rivers flow. The development plans often involve corruption, money laundering and opportunism on the part of big foreign corporations. Given the growing commitment in Europe to sustainable development, which includes environmental sustainability, plans to build 2,700 new hydro power plants instead of upgrading existing ones simply don't make any sense. And, as it turns, the purpose of most of the proposed hydro plants is to produce electricity for export to foreign countries, mostly outside Europe.

Taking a cue from Edward Abbey, who once said that sentiment without action is the ruin of the soul, I decided to act. With our team at Leeway Collective, we made a short documentary about the Vjosa, Europe's last major free flowing river. Many people who saw the documentary expressed an interest in getting involved. It was then that we realized that existing river-conservation campaigns lacked two important elements: exposure and public appeal. The idea of trying to make river conservation "cool" came just in time. Although the idea was not well-received when we presented it to prominent NGO leaders, it resonated deeply with local people from the Balkan Peninsula, and that was what we needed. The Balkan Rivers Tour is a grassroots project whose aim is to expose the insanity of dam construction

on the Balkan Peninsula to the world, to unite activists from the region and to prove that nature conservation is not for experts only and is anything but boring. In just 6 months, I have been lucky enough to pull off this challenge with the most amazing team you can imagine.

Starting on April 16th, Balkan Rivers Tour embarked on a 39-day program that included 6 countries, 23 rivers, 390 kilometers of rivers and streams, more than 500 kayakers and 1,500 protesters from 18 countries. Our concerted paddling action and its media coverage brought our message to the world and turned a crazy little idea into the biggest event that was ever organized on behalf of European river conservation. It helped to unite people and to prove that nature conservation can be exciting. And most important of all, it is helping to reveal the truth and to stop the dams.

Lately we have joined forces with fellow kayakers Bernhard Steidl (AUT) from WET (Wildwasser Erhalten Tirol) and Day Yates (UK) from Save the River Conwy to introduce a collaborative effort that will enable grassroots river defenders to continue their work with greater financial support. Working in the capacity of a fundraiser and thanks to generous contributions made by outdoor brands like Ortlieb, the Free Rivers Fund will distribute critical resources to passionate people around the globe who are out there, making sure that rivers are allowed to flow freely. **SEIZE THE MOMENT !**

Experienced photographers know that pictures are stronger than words. ORTLIEB has designed a concept for functional transport systems, so that you are not going to miss one of those moments. ORTLIEB camera bags protect highly sensitive photographic equipment from humidity, dust and impacts, but allow in the decisive mo-

ment quick access to camera, lens, binocular etc. So when looking for the best moment and the nicest motive you are well prepared. For many years professional photographers and scientists have entrusted their technology to ORTLIEB.

# COLLECT MEMORIES.

## DAY-SHOT

This flexible camera backpack is a favourite for professionals and amateurs alike. It is tough and reliable, and protects sensitive equipment from dust, rain and impacts. The PU coated nylon pack offers plenty of room for voluminous photographic equipment, additional food, gear and clothing. A waterproof internal compartment is proportioned to take a DSLR camera with zoom lens, two further lenses (wide angle to standard) and one small tele lens, flash unit and 10" laptop. The flap inner pockets hold accessories such as memory cards, rechargeable batteries, filters etc. There are numerous fixing options and gear loops for further equipment like a tripod.

The Day-Shot can be carried with two straps like a backpack (comfortable carrying system) or with only one strap (sling function) over your shoulder (the other strap can be stowed away in the pack). It may also be carried in the front, and offers the advantage of the camera being quickly accessible for a snapshot thanks to the waterproof TIZIP zipper. A quick lens change does not require the pack to be put down, and it also serves as stable support for the camera for blur-free pictures.

**FURTHER FEATURES:**

Carrying handle | Daisy chwains for fixing further gear | Integrated tripod fixing on front | Outer flap with accessory pocket (not waterproof) | Abrasion-resistant base

grey  
No. P9651

**DATA** IP 67 PVC free

# DIGI-SHOT

Digi-ShotM

Digi-ShotL

A miracle when it comes to space. The bag is designed for extensive camera equipment. Digi-Shot has a waterproof rigid main compartment and is available in two sizes. Size M offers room for larger SLR cameras with zoom lens and two further lenses (wide angle to standard). Size L is proportioned to take larger SLR cameras with zoom lens, a second body and three further lenses with a flash unit. The main compartment (of both sizes) features a waterproof zipper and buckle sealed flap for quick camera access. Individually adjustable inner divisions are adaptable to equipment. Filters, rechargeable batteries and other accessories fit into the flap with inner mesh pockets (not waterproof) or the outer mesh pockets with Velcro. Carrying handle and the comfort padded removable shoulder strap with snap hook for carrying heavy loads.

### FURTHER FEATURES:

PU coated nylon fabric | Size M has belt loops and D-rings for fixing to carrying system for camera bags (optional accessory) | Size L has tripod attachment loops

grey  
M | No. P9010  
L | No. P9110

# SOFT-SHOT

The cool appearance of the waterproof Soft-Shot with buckled flap disguises its real purpose - at first sight it does not look like a camera bag. The bag is designed for a DSLR camera with zoom lens and up to three further lenses. Well protected but still quick to hand. Separate sleeve takes a tablet PC. The flap allows fast access to the main compartment. The internal dividers are individually adjustable and can be adapted to fit any personal camera gear. A padded removable shoulder strap is fixed with snap hooks.

# V-SHOT

Ideal allrounder for active outdoors people: V-Shot is a compact camera bag with waterproof zipper. Reliable in toughest weathers and climates it offers room for a DSLR camera with a 200 mm zoom lens, rechargeable batteries, memory card and further accessories. The V-shaped bag is flexible and versatile in use either as shoulder bag or prepared for hands-free carrying when fixed to the ORTLIEB camera carrying system (optional accessory for fixing to D-rings) which keeps your hands free for climbing or using poles.

### FURTHER FEATURES:

PU coated nylon fabric | Removable padded shoulder strap with snap hook | Carrying handle | Belt loops on reverse side

## COMPACT-SHOT

Whether out on a desert expedition, hiking along a mountain trail or retreating to one of your favorite local greenways, the Compact Shot will reliably protect your compact or system camera against the rain and dust. The bag's waterproof, largemouth zipper always offers you quick access at the critical moment. The handle, the detachable shoulder strap and the waist strap on the back of the bag ensure that you will have various ways of comfortably carrying your precious gear. The ORTLIEB camera carrying system, which can be purchased separately, will allow you to carry the Compact Shot snugly on your body, effectively leaving your hands free for other important tasks, like climbing, riding a bike or Nordic walking.

CAMERA BAGS

# RIDE TO NEW HORIZONS.

## STAY IN THE SADDLE!

Imagine the wind in your face, the sun on your skin and only the sound of hoof beats. Enjoy it even more knowing that your gear is kept dry and safe, be it on short horse rides across farmland or multi-day horse treks through the bush. ORTLIEB horse panniers are spacious, waterproof and comfortable for horse and rider.

## HORSE PANNIERS

Enjoy nature, get away from your daily routine and form a team with your four-legged partner: horse back riding is an effective way to escape and slow down. However, you will reach relaxation and your day's destiny only if both - rider and horse – enjoy what they do. This constitutes the development background of our horse panniers. They are designed for perfect packing with compression of volume and tight packing to keep things stable. A rear pad prevents

unpleasant chafing. The welded waterproof panniers offer reliable protection from water and dirt, and feature a lid with snow gasket and draw cord. In favour of your horse please watch out for equal weight distribution. It is advisable to use an extra pad or blanket underneath the pack. The horse panniers feature a tough tear and abrasion resistant fabric that are easy to clean and can be mounted to distance, trekking, military, western and all-round saddles.

## GET TO THE SOURCE!

On extended tours far away from civilization, priorities are reduced to the essentials: this includes 100% hygienic drinking water. The tear-resistant light weight ORTLIEB water products with food grade

internal coating have a minimum volume of 2 l/122 cu. in. The ergonomic design and variable carrying construction optimize planning of resources and transportation.

## WATER SACK

Goodbye bulky containers. The ORTLIEB Water Sack ensures reliable water supply in your camp doing without big and bulky canisters. On tour the Water Sack can be packed away taking up very little space, in the camp it offers a generous 10 litres for cooking, washing or even for a shower. The large roll closure opening allows easy filling. The Water Sack is made of tear-resistant, waterproof fabric, and the integrated base valve allows easy metering. The Watersack can be combined with the purification filter by Katadyn.

### FURTHER FEATURES:

Buckles for hanging | Combination with Katadyn filter possible

### OPTIONAL ACCESSORIES:

Shower Valve | Drinking Tube

### ADVICE:

The Water Sack is not suited for transportation in horizontal position. For transporting water inside a pack or pannier we recommend our Water Bag or Water Belt.

black No. N27      blue No. N48

			cm/in.	cm/in.	L/cu.in.
PS17			35/13.8	22/8.7	10/610
					g/oz.
					190/6.7

### APPLICATIONS:

Camping shower | Seat or head pillow | Weight for paragliding | Buoyancy means for diving | Can be combined with outdoor filters for water purification | Can be combined with the drinking tube for use as a hydration system

### ADVICE:

All water containers are suited for water only (max. temperature 60°C/140°F). Do not use for alcoholic, sweet or acid liquids. Do not expose drinking water too long to the heat. Change water regularly. Store dry and open. Clean inside with denture cleaning tablets. Clean outside with warm water, brush and neutral soap. Clean the valve regularly.

## WATER BAG

The lightweight alternative to plastic or aluminium bottles. The compact Water Bag features straps for fixing to the backpack, and is made of tear-resistant and watertight fabric. Food grade coating on the inside ensures safe transport of your water. The 4 and 10 liter versions can be easily fixed to branches or vehicles thanks to the two handles being provided with buckles.

## DRINKING TUBE

The ideal tool for energetic outdoor activities: with the drinking tube you can transform an ORTLIEB Water Bag, Water Belt or „PET“-bottle into a hydration system: remove valve, insert tube into water container, screw valve back on. The 33.5 in. long tube features a lockable bite-valve and one screw cap.

### FURTHER FEATURES:

Valve inside the cap for pressure compensation inside the container | Mouthpiece can be taken apart for hygienic cleaning

blue No. N4201

# CARRY ALL.

## FOLDING BOWL

Use it to get water, wash fruit and vegetables, do the dishes, bath babies – the versatility of the ORTLIEB fold-up basin is unlimited. Yes, you've probably survived without one, but it sure can add convenience to your outdoor adventures! The basin is available in three sizes (5L, 10L and 20L) and it can be conveniently folded up when not in use.

**FURTHER FEATURES:**

## FOLDABLE LINER

Developed by the ORTLIEB inventors: the foldable liner is universally applicable for the transport of wet or dirty equipment. It is stabilised with locking stiffeners on both sides, and is a robust, superior, reusable alternative to plastic bags etc. This roomy container made of PVC-coated polyester fabric is easy to clean, and easy to pack away when not in use.

**ADVISE:**  
Not for transporting liquids in the trunk/boot.

# PROTECT YOUR GEAR.

## SAFE-IT

**NEW!**

Your smartphones, tablets, e-readers and GPS devices need special protection when you take them along on a ride. This protection is provided by the practical Safe-it pouch, which comes in five different sizes for all of your mobile devices! The proven roll closure offers reliable protection against spray water and dust without limiting your ability to operate your devices, including the side buttons. All Safe-its come with smart drawstring cords that allow you to conveniently carry your devices. Safe-it models in size S and M are also outfitted with loops that allow you to attach your device to your belt or backpack.

### FURTHER FEATURES:

Tear-resistant, UV-resistant polyurethane | protection against dirt, scratches and liquids | adjustable drawstring cord | transparent window on rear for cameras | lightweight design | attachment set (Article No. F1420) for mounting your Safe-it (Sizes S to XL) to Ultimate handlebar bags (except for the Ultimate Compact) available on request

Perfect for safe storage of maps, passports and other important documents while travelling. The dust and waterproof transparent bags are made of UV, tear and crease resistant fabric with seams as tough as the material itself. They will withstand extreme atmospheric temperatures and repeated use. Also suitable for electronic devices such as GPS, cell phone or MP3 player. Comes with neck cord and stainless steel eyelets. Available in three sizes.

## MONEY BELT

Weatherproof, polyurethane-coated money belt with roll closure. Ideal for travel and outdoor activities of all kinds. Typically worn close to the body, the opaque money belt is an ideal means of protecting your important travel documents, cash and other valuables against theft, moisture, dirt and dust. The adjustable belt is outfitted with a snap buckle and can be extended to a circumference of 105 cm.

## ORTLIEB LIGHT & FAST FIRST-AID KITS

It's naturally best not to need it. But if you do need it, then it's a real blessing if you have it. These carefully assembled First Aid Kits allow you to respond appropriately and on-location to small emergencies, and to thereby make a difference. No matter how big or small your adventure, a First Aid Kit belongs in your pack! Given that they're made by ORTLIEB, you can rest assured that the contents of your kit will remain clean and dry even when the rain refuses to stop.

## FIRST AID KIT

Never again without: ORTLIEB's First Aid Kits should be an inherent component of your equipment. The First Aid Kits are waterproof sleeves made of PU-coated nylon fabric with roll closure, and are available in four different sizes and safety levels (Regular, Medium, High, Ultra-high). Regular and Medium are suitable for most outdoor activities. Safety Level High contains (in addition to the basic) supplementary equipment required for a specific field of sport: motor biking, cycling, trekking, canoeing/kayaking, horse riding. The well stocked Ultra High version allows optimal first aid for trekking and cycling sports, and is also designed for small groups. All kits feature belt loops. The models High and Ultra High have additional straps for fixing to a backpack etc.

### FURTHER FEATURES:

International first aid symbol (white cross on green background) on the front | Versions Medium to Ultra-High feature a removable inner pocket for personal stocking and for quick access | Fixing for shoulder strap (optional accessory, article code E16)  
Versions Medium and High may also be ordered without contents (with imprint: First Aid Kit, white cross on green background, ORTLIEB-Logo; with inner pocket and velcro)

The Forest and Species Protection project sponsored by Florestal Santa Maria is currently helping to ensure the sustainable management of 71,000 hectares of forest in the Brazilian state of Mato Grosso. This corresponds to an area of around 100,000 football fields. Sustainable management means that logging is limited to volumes that the natural ecosystem can replace on its own. This also rules out the kind of clearcutting often seen in the region. The project meets the strict requirements issued by the Forest Stewardship Council (FSC) for sustainable forest management. The proceeds from the sale of CO2 certificates will be used to protect the vast forest against illegal logging operations.

## SYMBOLS

**AZO-free:** Although ORTLIEB products are not subject to the AZO ordinance, we only use AZO-free dyes.

**BPA-free:** Bisphenol A is a component used in the production of Polycarbonate drink bottles and food containers. It has been found that trace amounts can damage the growth process of human cells by effecting hormone balance.

**PFOA-free:** Perfluorinated compounds (PFCs) are a family of fluorine-containing chemicals that have been used for more than 50 years to impregnate or coat various materials so as to make them water repellent and dirt-, stain- and stick-resistant. As non-biodegradable substances, PFCs tend to accumulate in the environment and in organic tissue. They are also classified as hazardous to human health. While European Union regulations have prohibited the use of perfluorooctane sulfonate (PFOS) – with very few exceptions – since June 2008, other substances in the PFC family are subject only to threshold limit values (TLVs). In 2013, perfluorooctanoic acid (PFOA) was added to the REACH list of substances of very high concern. The term PFOA-free refers to values below the current detection limit of 1µg/m².

**PVC-free:** We use PVC-free materials if technically possible and logical.

**Waterproof zippers:** Various types of waterproof zippers are available. They guarantee IP protection IP67

## IP STANDARDS

All types of closures used on ORTLIEB products were submitted to simulation tests by LGA QualiTest GmbH, TÜV Rheinland Group, Nuremberg, Germany. (IP international protection standard examination according to DIN EN 60529:2000). These protection standards which have their origins in electronic technologies are referred to as IP, international protection standards, and are increasingly used in the field of leisure activities. Currently, this is the only valid and acknowledged international classification regarding waterproofness and dustproofness. The degree of protection is defined by two figures. Altogether there are 6 protection standards for solid bodies, and 8 protection standards for water. www.ortlieb.com/ip-symbols

**Protection against dust:**  
The first figure defines the protection degree of a product against the penetration of solids and contact. 5 and 6 refer to the protection of dust and contact (e.g. by hand).

**Protection against water:**  
The second figure defines the protection degree against water. 7 e.g. stands for the protection against water penetration at a defined water depth during a determined period of time.

ORTLIEB products are classified according to the following protection standards depending on the type of closure used on the product:

product is protected against dust, slight penetration of dust possible

product is dust proof, no penetration of dust

protected against spray water (max. 60° to the vertical)

protected against splash water coming from all directions

protected against penetration of water during temporary immersion; depth: 1 meter/39 inch (lower edge of product); duration 30 minutes

Example: IP64, ORTLIEB Back-Roller; this product is dustproof and is protected against splashwater from all directions.
